ABSTRACT

Current Population Survey, 2026 Annual Social and Economic (ASEC) Supplement conducted by the U.S. Census Bureau for the Bureau of Labor Statistics. – Washington: U.S. Census Bureau [producer and distributor], 2026.

TYPE OF FILE

Microdata; unit of observation is individuals, families, and households.

UNIVERSE DESCRIPTION

The universe is the civilian noninstitutional population of the United States living in housing units and members of the Armed Forces living off post or living with their families on post, as long as at least one civilian adult lives in the same household. A probability sample is used in selecting housing units.

SUBJECT-MATTER DESCRIPTION

This Annual Social and Economic (ASEC) Supplement provides the usual monthly labor force data, but in addition, provides supplemental data on work experience, income, noncash benefits, and migration. Comprehensive work experience information is given on the employment status, occupation, and industry of persons 15 years old and over. Additional data for persons 15 years old and older are available concerning weeks worked and hours per week worked, reason not working full time, total income and income components. Data on employment and income refer to the preceding year, although demographic data refer to the time of the survey.

This file also contains data covering nine noncash income sources: food stamps, school lunch program, employer-provided group health insurance plan, employer-provided pension plan, personal health insurance, Medicaid, Medicare, or military health care, and energy assistance. Characteristics such as age, sex, race, household relationship, and Hispanic origin are shown for each person in the household enumerated.

GEOGRAPHIC COVERAGE

States, regions and divisions are identified in their entirety. Within confidentiality restrictions; indicators are provided for 280 selected core-based statistical areas (CBSA), 49 selected combined

statistical areas (CSA), 101 counties, and 86 principal cities in multi-principal city core-based statistical areas or combined statistical areas. Also within confidentiality restrictions, indicators are provided for metropolitan/nonmetropolitan, central city/balance metropolitan, and CBSA size.

TECHNICAL DESCRIPTION

File Structure: Hierarchical, Rectangular, Column-delimited

File Size:

Record Type	Record Number
Household (SAS/CSV)	88,026
Family (SAS/CSV)	61,133
Person (SAS/CSV)	134,729
ASCII (DAT)	283,888

REFERENCE MATERIAL

Current Population Survey, 2026 ASEC Technical Documentation. The documentation includes this abstract, pertinent information about the file, a glossary, code lists, and a data dictionary.

For information about the Current Population Survey and other Census Bureau data products, be sure to visit our online Question & Answer Center on the Census Bureau's home page at <http://www.census.gov/> where you can search our knowledge base and submit questions.

RELATED REPORTS

Data from the ASEC Current Population Survey's file are published most frequently in the Current Population Reports P-20 and P-60 series. In addition, the following associated reports and tables have also been cleared for release: Income, Poverty, Health Insurance, Supplemental Poverty Measure, and Migration.

These reports can be accessed at <https://www.census.gov/library/publications.html>.

FILE AVAILABILITY

The files are available on the internet. The files may be accessed by going to the Data section of the main CPS website, located here -

<https://www.census.gov/programs-surveys/cps/data.html>.

Additionally, custom tabulations and extracts of CPS microdata are available at

<https://data.census.gov/mdat/#/>.

For more information contact dsd.cps@census.gov.

CONFIDENTIALITY

The Census Bureau has reviewed this data product to ensure appropriate access, use, and disclosure avoidance protection of the confidential source data used to produce this product (Data Management System (DMS) number: **P-7534374**, Disclosure Review Board (DRB) approval number: **CBDRB-FY26-0319**.

The DRB supports the Data Stewardship Executive Policy Committee (DSEP) in its efforts to protect Title 13 respondent confidentiality by proposing protection policies and methodologies and reviewing external products such as microdata and tabulation releases for potential disclosure. The DRB coordinates activities that inform decisions made to protect confidentiality through data collection, linking, and dissemination.

OVERVIEW

Current Population Survey

Introduction

The Current Population Survey (CPS) is the source of the official Government statistics on employment and unemployment. The CPS has been conducted monthly for over 60 years. Currently, we interview about 50,000 households monthly, scientifically selected on the basis of area of residence to represent the nation as a whole, individual states, and other specified areas. Each household is interviewed once a month for four consecutive months one year, and again for the corresponding time period a year later. This technique enables us to obtain month-to-month and year-to-year comparisons at a reasonable cost while minimizing the inconvenience to any one household.

Although the main purpose of the survey is to collect information on the employment situation, a very important secondary purpose is to collect information on the demographic status of the population, information such as age, sex, race, marital status, educational attainment, and family structure. From time to time additional questions are included on such important subjects as health, education, income, and previous work experience. The statistics resulting from these questions serve to update similar information collected once every 10 years through the decennial census, and are used by government policymakers and legislators as important indicators of our nation's economic situation and for planning and evaluating many government programs.

The CPS provides current estimates of the economic status and activities of the population of the United States. Because it is not possible to develop one or two overall figures (such as the number of unemployed) that would adequately describe the labor market, the CPS is designed to provide a large amount of detailed and supplementary data. Such data are made available to meet a wide variety of needs on the part of users of labor market information.

Thus, the CPS is the only source of monthly estimates of total employment (both farm and nonfarm); nonfarm self-employed persons, domestics, and unpaid workers in nonfarm family enterprises; wage and salary employees; and, finally, estimates of total unemployment.

It provides the only available distribution of workers by the number of hours worked (as distinguished from aggregate or average hours for an industry), permitting separate analyses of part-time workers, workers on overtime, etc. The survey is also the only comprehensive current source of information on the occupation of workers and the industries in which they work. Information is available from the survey not only for persons currently in the labor force but also for those who are outside the labor force. The characteristics of such persons, whether married women with or without young children, disabled persons, students, older retired workers, etc., can be determined. Information on their current desire for work, their past work experience, and their intentions for job seeking are also available.

The Annual Social and Economic (ASEC) Supplement contains the basic monthly demographic and labor force data described above, plus additional data on work experience, income, noncash benefits, health insurance coverage, and migration.

CPS Sample

The CPS sample is based on the civilian noninstitutional population of the United States. The sample is located in approximately 826 sample areas comprising 1,328 counties and independent cities with coverage in every State and in the District of Columbia.

In all, some 70,000 housing units or other living quarters are assigned for interview each month; about 50,000 of them containing approximately 100,000 persons 15 years old and over are interviewed. Also included are

demographic data for approximately 22,000 children 0-14 years old and 400 Armed Forces members living with civilians either on or off base within these households. The remainder of the assigned housing units are found to be vacant, converted to nonresidential use, contain persons with residence elsewhere, or are not interviewed because the residents are not found at home after repeated calls, are temporarily absent, or are unavailable for other reasons. Approximately 20,000 noninterview households are present each month. The resulting file size is approximately 142,000 records.

Whether living on or off post, male and female members of the armed forces are included in the ASEC as long as at least one civilian adult lives in the same household. The armed forces members, however, are not asked the monthly labor force questions. In addition, the ASEC is supplemented with a sample of Hispanic households identified the previous November. This results in the addition of about 6,000 households (4,500 interviewed). The inclusion of the additional sample of Hispanic households began in 1976.

In 2002, the ASEC incorporated a significant sample expansion. The sample was expanded primarily to improve state estimates of children's health insurance coverage. This sample expansion, known as the CHIP sample, has three components: 1) Asking the ASEC Supplement questions of one-quarter of the February and April CPS samples, that is, of the households not also included in the March sample; 2) Interviewing selected sample households from the preceding August through November CPS sample during the February-April period using the ASEC Supplement; and 3) Increasing the monthly CPS sample in states with high sampling errors for uninsured children. This sample increase results in the addition of about 19,000 households to the ASEC. Adding together the regular sample (70,000), plus the Hispanic sample (6,000), plus the CHIP sample (19,000), we arrive at the total sample size for the ASEC of about 95,000 households.

A more precise explanation regarding the CPS sample design is provided in Technical Paper 77, *The Current Population Survey: Design and Methodology*.

For a more detailed discussion about the basic labor force data gathered on a monthly basis in the CPS survey, see the Bureau of Labor Statistics Report No. 463 and the Current Population Report P-23, No. 62, issued jointly by the Bureau of Labor Statistics and the

Bureau of the Census in October, 1976, *Concepts and Methods Used In Labor Statistics Derived from the Current Population Survey*.

Questionnaire

Questionnaire facsimiles of the 2026 ASEC Supplement are shown in Appendix E in this documentation.

Revisions to the ASEC Processing System

Starting in 2019

- Demographic edit changes
- Redesigned questions for income and health insurance coverage

File Structure

Historically, CPS ASEC data have always been provided only in a single ASCII file that included all three record types (household, family, and person). However, beginning in 2019, CSV and SAS files were also made available, with each being split into three separate files (one file for each of the three record types).

For the ASCII file, a description of the file structure follows below. It applies only to the ASCII file, not the CSV or SAS files.

There is a household record for each household or group quarters. The household record is followed by one of three possible structures:

- A. If the household contains related persons and is not a group quarters household:
 1. The family record appears next followed by person records for members of the family who are not also members of a related subfamily. The person records would be ordered: family householder, spouse of family householder, children in the family, and other relatives of the family householder.

2. The above records may be followed by one or more related subfamily records, each related subfamily record being followed immediately by person records for members of that related subfamily. The person records would be ordered: reference person of the related subfamily, spouse of subfamily reference person, and children of subfamily reference person.
3. The above records may be followed by one or more unrelated subfamily records, each unrelated subfamily record being followed immediately by person records for members of that unrelated subfamily. The person records would be ordered: unrelated subfamily reference person, spouse of subfamily reference person, and children of subfamily reference person.
4. The above records may be followed by one or more persons living with nonrelatives family records, each to be followed by the person record for the unrelated individual it represents. (See Figure 1, page 2-4.)

B. If the household contains a householder with no relatives and is not a group quarters household:

1. The family record for the nonfamily householder is followed immediately by the person record for that nonfamily householder.
2. These records may be followed by one or more unrelated subfamily records, each unrelated subfamily record being followed immediately by the person records for members of that unrelated subfamily.
3. These records may be followed by one or more family records for persons living with nonrelatives, each person living with nonrelatives family record being followed immediately by the person record for that person living with nonrelatives. (See Figure 2, page 2-5.)

C. If the household is Group Quarters:

1. The family record for persons living with nonrelatives is followed immediately by the person record for that person living with nonrelatives.
2. These records may be followed by one or more unrelated subfamily records, each unrelated subfamily record being followed immediately by the person records for members of that unrelated family.

Relationship of Current Population Survey Files to Publications

Each month, a significant amount of information about the labor force is published by the Bureau of Labor Statistics in the Employment and Earnings and Monthly Labor Review Reports.

As mentioned previously, the CPS also serves as a vehicle for supplemental inquiries on subjects other than employment which are periodically added to the questionnaire. From the basic and supplemental data, the Census Bureau issues four series of publications under the general title Current Population Reports:

- P-20 Population Characteristics
- P-23 Special Studies
- P-60 Consumer Income

Of particular interest to users of the ASEC microdata file would be those reports based on information collected in the ASEC. These reports include the following titles:

- P-60 Income in the United States: (Year)
- P-60 Poverty in the United States: (Year)
- P-60 Health Insurance Coverage in the United States: (Year)

All Current Population Reports are available online at <https://www.census.gov/library/publications.html>

Geographic Limitations

One set of estimates that can be produced from CPS microdata files should be treated with caution. These are estimates for individual metropolitan areas. Although estimates for the larger areas such as New York, Los Angeles, and so forth, should be fairly accurate and valid for a multitude of uses, estimates for the smaller metropolitan areas (those with populations under 500,000) should be used with caution because of the relatively large sampling variability associated with these estimates. For these areas, estimates comparing percent distributions and ratios will provide data with less sampling variability than estimates of levels will.

It should be kept in mind that the sample design and methods of weighting CPS data are geared towards producing estimates for the entire nation. Consequently, data for states are not as reliable as national data, and the file will lose some of its utility in certain applications. For further discussion of such considerations, the user should consult *The Current Population Survey: Design and Methodology* (Technical Paper 77, U.S. Bureau of the Census).

The nature of the work done by each individual investigator using the microdata file will determine to what extent his/her requirements for precision will allow using some of the smaller geographic areas identified on the file.

Weights

For all CPS data files a single weight is prepared and used to compute the monthly labor force status estimates. The difference in content of the CPS ASEC Supplement requires the presentation of additional weights: a supplement household weight, a supplement family weight, and a supplement person weight. In this section we briefly describe the construction and use of these weights. Chapter 2-3 of Technical paper 77, *The Current Population Survey: Design and Methodology* provides documentation of the weighting procedures for the CPS both with and without supplement questions.

The final weight, which is the product of several adjustments, is used to produce population estimates for the various items covered in the regular monthly CPS. This weight is constructed from the basic weight for each person, which represents the probability of selection for the survey. The basic weight is adjusted for special sampling situations and failure to obtain interviews from eligible households (noninterview adjustment). A two-stage ratio estimation procedure adjusts the sample population to the known distribution of the entire population. This two-stage ratio estimation process produces factors which are applied to the basic weight (after the special weighting and noninterview adjustments are made) and results in the final weight associated with each record. In summary, the final weight is the product of: (1) the basic weight, (2) adjustments for special weighting, (3) noninterview adjustment, (4) first stage ratio adjustment factor, and (5) second stage ratio adjustment factor. This final weight should be used when producing estimates from the basic CPS data.

Differences in the questionnaire, sample and data uses for the CPS ASEC Supplement result in the need for additional adjustment procedures to produce the ASEC Supplement weight. The sample for the CPS ASEC Supplement is expanded to include members of the Armed Forces who are living in civilian housing or with the family on a military base, as well as additional Hispanic households which are not included in the monthly labor force estimates, and children who live in low-income families and lack health insurance.

The expanded sample and the need to have married and cohabitating couples receive the same weight has resulted in a weighting system which produces the supplement weight. The supplement weight should be used for producing estimates from ASEC Supplement data.

Finally, household and family weights are the weights assigned from the householder or reference person after all adjustments have been made and should be used when tabulating estimates of families and households.

MATCHING OF CPS ASEC FILES

Matching ASEC Files Across Years

There are two basic limitations in linking the CPS ASEC files across years. First, only fifty percent of the sample is included in two consecutive years. Second, the residents within the eligible housing units may have changed or appeared as noninterview records in one or both years. The result is a matched sample of considerably less than the upper limit of fifty percent. The basic procedures and variables used to link two or more March CPS files are outlined below.

Sample Selection

The first step in matching year t with year $t+1$ is to select from year- t those housing units with a "month in sample" value of 1 through 4, and from year $t+1$ those units with a "month in sample" value of 5 through 8.

This will identify the sample subset eligible for matching. Within this subset, housing units in year t , month 1 will match only with units in year $t+1$, month 5, etc.

Matching Housing Units

Using one or more variables, it is possible to uniquely identify each housing unit in each sample rotation. However, because of changes in CPS procedures, the available information for matching housing units is not always identical. Below are the variables available for matching March CPS files.

Year	Identifiers	
1986 – 1993	HHIDNUM	
1994 – 2001*	H-MIS	H-IDNUM
2002 – 2004	H-IDNUM	H-HHNUM
2005 – 2018	H-IDNUM1	H-IDNUM2
2019 – present	H_IDNUM	

*Matching between 1995 and 1996 is not possible because the March 1996 file is based entirely on the 1990 Census design sample.

Matching Person Records

If you wish to link not only the household information, but the person data as well, follow the procedure above, but add one or more variables to uniquely identify a person.

Year	Identifiers	
Before 1994	A_LINENO	Demographic Variables*
1994 – 2004	A_LINENO	

*Prior to 1994, additional checks are needed to match person records across time. The specific variables used to match residents will vary according to the needs of the project, but it is more efficient to arrange the matching in a hierarchical sequence. For example, matching on sex, race and line number should precede matching on age or household relationship. The data user should carefully work through the possible changes in household structure that might result in an inappropriate rejection of a household.

For 2005 forward, one variable may be used by itself instead of adding it to the household identifiers. PERIDNUM is the only identifier needed for linking persons in files from 2005 onward.

Matching ASEC Household, Family, and Person Files for a Single Year

ID'ing Persons within a Household

To uniquely identify persons within a household, use PH_SEQ and PPPOS on the person file. Match PH_SEQ to H_SEQ on the household file, to link the persons to the household. PPPOS is the person id within each household.

For example, match PH_SEQ = 12345 to H_SEQ = 12345, and then use PPPOS, which will have values of 01, 02, ...16, to identify each person.

ID'ing Persons within a Family

To uniquely identify persons within a family, use PH_SEQ and PF_SEQ on the person file. Match PH_SEQ to FH_SEQ on the family file, to link the persons to the household. Then, match PF_SEQ on the Person file to FFPOS on the family file. FFPOS is the unique family id within each household.

For example, match PH_SEQ = 12345 to FH_SEQ = 12345, and then use PF_SEQ, which will have values of 01, 02, ...16. Each person with PF_SEQ= 01 will be in a unique family, each person with PF_SEQ= 02 will be in a unique family, and so on.

ID'ing Families within a Household

To uniquely identify families within a household, use FH_SEQ and FFPOS on the family file. Match FH_SEQ to H_SEQ on the household file, to link the families to the household. FFPOS is the unique family id within each household.

For example, match FH_SEQ = 12345 to H_SEQ = 12345, and then use FFPOS, which will have values of 01, 02, ...16, to uniquely identify the family.

Matching ASEC Files to Non-ASEC Files

Sometimes, there's a need to link an ASEC (or "March supplement") file to a non-ASEC file. Follow the match-keys below to match households pertaining to the year the survey was conducted.

Matching Housing Units

For the ASEC file:

Year	Identifiers	
1994 – 2004	H_IDNUM	H_HHNUM
2005 – 2018	H_IDNUM1	H_IDNUM2
2019 – present	H_IDNUM*	

*Concatenate HRHHID and HRHHID2 on the non-ASEC file to match to H_IDNUM on the ASEC file.

For the Non-ASEC File:

Month & Year		
Jan, 1994 – April 2004*	HRHHID	HUHHNUM
May 2004 – present	HRHHID	HRHHID2

*For files ranging between April 1994 and June 1995, you must add the state code ('GESTCEN') to the list of identifiers to uniquely identify households. Due to the phase-in of the 1990 sample, a small number of households will share the same identifier unless adding this code.

Matching Person Records

If you desire to link not only the household information, but the person data as well, follow the procedure above, but add one or more variables to uniquely identify a person.

For non-March files, add PULINENO.

For March/ASEC files between 1994 and 2004, add A_LINENO. For 2005 forward, one variable may be used by itself instead of adding it to the household identifiers. PERIDNUM is the only identifier needed for linking persons in files from 2005 onward.

DIFFERENCES

Differences between the 2026 and 2025 ASEC Files

1. The following variables have been removed from the Household record.

Variable Name	Description
I_HBBSUBMNT	Allocation flag for edited number of months receiving Broadband subsidy (HBBSUB_MNTH)
I_HBBSUBYN	Allocation flag for edited 'yes/no' Broadband subsidy (HBBSUB_YN)
HBBSUB_MNTH	Edited number of months receiving broadband subsidy program benefits
HBBSUB_YN	Edited 'yes/no' broadband subsidy
HECC_PROBTIME	Edited time lost from work due to child care problems
HXCC_PROBTIME	Allocations flag for edited time lost from work due to child care problems

2. The following variables have been added to the Household record.

Variable Name	Description
HTCC_PROBLOSS	Edited days of work lost due to child care issues
HXCC_PROBLOSS	Allocations flag for edited days of work lost due to child care issues

3. The following variables have been removed from the Person record.

Variable Name	Description
SPM_BBSUBVAL	SPM unit's Broadband/Internet Subsidy
M5GSAME	5-Year Migration, same household
M5G_DIV	5-Year Migration, division
M5G_MTR1	5-Year Migration, recode 1
M5G_MTR3	5-Year Migration, recode 3
M5G_MTR4	5-Year Migration, recode 4
M5G_REG	5-Year Migration, region
M5G_ST	5-Year Migration, state
M5G_CBST	5-Year Migration, cbsa

M5G_DSCP	5-Year Migration, place
I_M5G1	5-Year Migration, allocation flag
I_M5G2	5-Year Migration, allocation flag
I_M5G3	5-Year Migration, allocation flag

4. Values for variable PEINUSYR are updated every year to reflect the most recent year of the survey. In odd years (2023, 2026, etc.), only the largest value changes. In even years, the largest value also changes, but a new value is also appended. Please refer to the current year data dictionary for the latest values.

HOW TO USE THE DATA DICTIONARY

The data dictionary describes the contents and record layout of the public-use data file. It is split into three major sections, one for each record type (Household, Family, and Person). Within each section, variables are grouped by Topic and Subtopic.

Variables in the data dictionary are described by:

Descriptor	Description
<i>Variable</i>	Variable name. Variable names are unique throughout the entire data file.
<i>Length</i>	The length of a variable is given in number of characters.
<i>Position</i>	Starting position (location) of the variable on the ascii data file.
<i>Range</i>	Range of values the variable can hold.
<i>Description</i>	Brief description of the variable.
<i>Values</i>	Brief description of each value the variable can hold.
<i>Universe</i>	Description of the variable's universe.

For example, the variable HRECORD is the first variable found on the data dictionary, and appears like so:

Variable Length Position Range

Record Type: Household

Topic: Record Identifiers

SubTopic: Record Type

HRECORD 1 1 (1:1)

Record Type. Used to identify records on ascii file.

Values:

1 = HOUSEHOLD RECORD

Universe: All Households

Accordingly, HRECORD is described as follows:

Length=1 means that HRECORD takes up only one character on the data file.

Position=1 means that HRECORD can always be found in the first column of the data file for all household records.

Range=(1:1) means that the values for HRECORD can range from 1 to 1. In other words, HRECORD will always equal 1. This can also be verified by looking at the values description.

Values: 1=Household Record. HRECORD=1 identifies the current record as a household record. This is convenient when using the ASCII file since it contains all three record types (household, family, and person). SAS tables are already separated by record type, so HRECORD is not as critical to use in this case.

The universe for HRECORD is all households, which means every household will have HRECORD=1. This agrees with the fact that HRECORD=1 identifies a record as a housing record.

How to Distinguish ASEC Supplement Variables from the Basic CPS Monthly Variables

With a few exceptions, Basic CPS monthly variables have a prefix and/or a suffix as follows:

Record Type	Prefix/Suffix
Household	H_ or H1
Family	Family records do not contain any Basic CPS monthly variables.
Person	A_, AX, PE, PR, or PX

Supplement variables are either all one string or have a suffix. For example, HFIN_YN is a supplement variable on the household record.

ASEC 2026 Public Use Data Dictionary

U.S. Census Bureau | Current Population Survey | Annual Social and Economic Supplement

Variable Length Position Range

Variable Length Position Range

Record Type: Household

Topic: Record Identifiers

SubTopic: Record Type

HRECORD 1 1 (1:1)

Record Type. Used to identify records on ascii file.

Values:

1 = HOUSEHOLD RECORD

Universe: All Households

SubTopic: Match Keys

H_HHNUM 1 8 (1:8)

Household number. Identifier for unique set of residents located at this sample address. If this group changes between months in sample, household number is incremented by 1.

Universe: All Households

H_SEQ 5 29 (00001:99999)

Household sequence number

Values:

99999 = Household sequence number

Universe: All Households

FILEDATE 6 2 ()

File creation date in MMDDYY format

Universe: All records

H_IDNUM 20 9 (NA)

Household id number. Same as characters 1-20 of PERIDNUM.

Universe: All households

Topic: Weights

SubTopic: ASEC Supplement

HSUP_WGT 8 34 (00000000:999999999)

ASEC Supplement Final Weight

Values:

() = 2 implied decimals (example: 255212=2552.12)

Universe: H_HHTYPE = 1

Topic: Geography

SubTopic: Geography

GEREG 1 43 (1:4)

Region

Values:

1 = Northeast

2 = Midwest

3 = South

4 = West

Universe: All Households

GTCBSAST 1 51 (1:4)

Principal city/Balance status

Values:

1 = Principal city

2 = Balance of CBSA

3 = Non CBSA

4 = Not identified

Universe: All Households

GTCBSASZ 1 52 (0:7)

Metropolitan area (CBSA) size

Values:

0 = Not identified or nonmetropolitan

2 = 100,000 - 249,999

3 = 250,000 - 499,999

4 = 500,000 - 999,999

SPM unit's child care expenses-not capped

Universe: All Persons

SPM_EQUIVSCALE

6 **1472** **(0.0000:3.0000)**

Equivalence scale is used to adjust reference thresholds for

the number of adults and children in the SPM unit and is normalized so that the scale for a 2 adult and 2 child SPM unit=1.

Universe: All Persons

SPM_FICA **6** **1493** **(0:999999)**

SPM unit's Federal Insurance Contributions Act and federal

retirement contribution

Universe: All Persons

SPM_GEOADJ

6 **1499** **(0.0000:2.0000)**

SPM unit's geographic food, shelter, clothing and utility (FSCU) adjustment

Universe: All Persons

Variable	Length	Position	Range
SPM_STTAX	6	1547	(-9999:999999)

SPM unit's state tax

Universe: All Persons

SPM_POVTHRESHOLD	6	1524	(00000:999999)
------------------	---	------	----------------

SPM unit's SPM poverty threshold

Universe: All Persons

SPM_FEDTAX	7	1479	(-999999:99999999)
------------	---	------	--------------------

SPM unit's Federal tax

Universe: All Persons

SPM_FEDTAXBC	7	1486	(-999999:99999999)
--------------	---	------	--------------------

SPM unit's Federal tax before refundable tax credits

Universe: All Persons

SPM_MEDXPNS	7	1510	(0:99999999)
-------------	---	------	--------------

SPM unit's Medical Out-of-Pocket (MOOP) and Medicare Part B subsidy

Universe: All Persons

SPM_RESOURCES	7	1530	(-999999:99999999)
---------------	---	------	--------------------

Total SPM resources for SPM unit

Universe: All Persons

SPM_TOTVAL	7	1554	(-999999:99999999)
------------	---	------	--------------------

SPM unit's cash income

Universe: All Persons

SPM_WEIGHT	7	1562	(9999:99999999)
------------	---	------	-----------------

SPM unit's integer weight

Universe: All Persons

SubTopic: Record Identifier

SPM_ID	8	1424	(0000000:99999999)
--------	---	------	--------------------

Variable	Length	Position	Range
----------	--------	----------	-------

SPM unit identification number

Universe: All Persons

Topic: Income

SubTopic: Supplemental Poverty Measure

CHELSEW_YN	1	711	(0:2)
------------	---	-----	-------

Does this person have a child living outside the household?

Values:

0 = NIU

1 = Yes

2 = No

Universe: All Persons aged 15+

CHSP_YN	1	717	(0:2)
---------	---	-----	-------

Is this person required to pay child support?

Values:

0 = NIU

1 = Yes

2 = No

Universe: CHELSEW_YN

CSP_YN	1	723	(0:2)
--------	---	-----	-------

Did ... receive child support payments?

Values:

0 = NIU

1 = Yes

2 = No

Universe: All Persons aged 15+

CHSP_VAL	5	712	(00000:999999)
----------	---	-----	----------------

What is the annual amount of child support paid?

Universe: CHSP_YN = 1

CSP_VAL	5	718	(0:999999)
---------	---	-----	------------

How much did ... receive in child support payments?

Universe: CSP_YN = 1

SubTopic: Tax Model Items

FILESTAT	1	766	(1:6)
----------	---	-----	-------

Tax filer status

Variable Length Position Range

Values:

- 1 = joint, both <65
- 2 = joint, one >65 & one 65+
- 3 = joint, both 65+
- 4 = head of household
- 5 = single
- 6 = non-filer

Universe: All persons

DEP_STAT 2 741 (00:16)

Person index (A_LINENO) of filer who claimed this dependent

Universe: Dependent in a tax unit

MARG_TAX 2 767 (00:99)

Marginal tax rate

Universe: Tax unit head or dependent filer

EIT_CRED 4 743 (0:9999)

Earned income tax credit

Universe: Tax unit head or dependent filer

PRSWKXPNS 4 769 (0:1999)

Work Expenses

Values:

- 0 = none; dollar amount

Universe: A_AGE > 17 or HHDFMX = 1,2,46, or 47

FICA 5 761 (0:99999)

Social security retirement payroll deduction

Universe: All persons

ACTC_CRD 5 724 (0:99999)

Refundable portion of child tax credit; this represents the fully refundable, expanded child tax credit in 2021

Universe: Tax unit head or dependent filer

CTC_CRD 5 736 (0:99999)

Nonrefundable portion of child tax credit and credits and other dependents; this represents credits for other dependents in 2021 as child tax credit is fully refundable

Universe: Tax unit head or dependent filer

Variable Length Position Range

STATETAX_A

6 773 (-9999:9999999)

State income tax liability, after all credits

Universe: Tax unit head or dependent filer

STATETAX_B

6 779 (0:9999999)

State income tax liability, before credits

Universe: Tax unit head or dependent filer

AGI 7 729 (-999999:9999999)

Federal adjusted gross income

Universe: Tax unit head or dependent filer

FEDTAX_BC 7 754 (0:9999999)

Federal income tax liability, before refundable credits

Universe: Tax unit head or dependent filer

TAX_INC 7 795 (0:9999999)

Taxable income amount

Values:

- 0 = none; dollar amount

Universe: Tax unit head or dependent filer

FEDTAX_AC 7 747 (-99999:9999999)

Federal income tax liability, after all refundable credits and Economic Impact Payment 3. FEDTAX_AC = FEDTAX_BC - ACTC_CRD - EIT_CRED

Values:

- 0 = none; dollar amount

Universe: Tax unit head or dependent filer

**TAX_ID 10 785
(000000000:999999999)**

Tax unit ID number

Universe: All persons

SubTopic: Allocation Flags

I_DIVYN 1 820 (0:1)

Allocation flag for DIV_YN

Universe: All Persons 15+

Variable **Length** **Position** **Range**

WICYNA **1** **894** **(0:1)**

Allocation flag for WICYN

Values:

0 = Not allocated or NIU

Universe: WICYN > 0

I_ANNVAL **1** **802** **(0:9)**

Allocation flag for ANN_VAL

Values:

0 = No allocation

1 = Level 1 statistical match (value with ranges)

2 = Level 2 statistical match (value with ranges)

3 = Level 3 statistical match (value with ranges)

4 = Level 101 statistical match (value without ranges, reciprocity '_yn')

5 = Level 102 statistical match (value without ranges, reciprocity '_yn')

6 = Level 103 statistical match (value without ranges, reciprocity '_yn')

7 = Level 104 statistical match (age, sex)

8 = Level 105 statistical match (all donors can match to all recipients)

9 = FL_665 ≠ 1 (full record impute)

Universe: ANN_YN = 1

I_ANNYN **1** **803** **(0:9)**

GLOSSARY

Subject Concepts

Age

Age classification is based on the age of the person at his/her last birthday. The adult universe (i.e., population of marriageable age) is comprised of persons 15 years old and over for the Annual Social and Economic (ASEC) Supplement data and for CPS labor force data.

Annuities

(See Income.)

Armed Forces

Armed Forces members enumerated in off-base housing or on base with their families are included on the CPS ASEC file, as long as at least one civilian adult lives in the same household. In addition to demographic and family data, supplemental data on income and work experience for Armed Forces members are included.

Base Weight

The constant weight assigned to the sample (inverse of the sampling fraction) which is adjusted to produce the final weight.

Civilian Labor Force

(See Labor Force.)

Class of Worker

This refers to the broad classification of the person's employer. On the ASEC file, these broad classifications for current jobs are private, government, self-employed, without pay, and never worked. Private and government workers are considered "wage and salary workers;" this classification scheme includes self-employed, incorporated persons in with "private" workers. For the longest job held last year, this class of worker scheme includes private; government by level/Federal, State, and local; self-employed incorporated, self-employed unincorporated or farm; and without pay. The wage and salary category for longest job held includes private, government (all levels), and self-employed incorporated.

Dividends

(See Income)

Duration of Unemployment

Duration of unemployment represents the length of time (through the current survey week) during which persons

classified as unemployed are continuously looking for work. For persons on layoff, duration of unemployment represents the number of full weeks since the termination of their most recent employment. A period of two weeks or more during which a person is employed or ceased looking for work is considered to break the continuity of the present period of seeking work. Average duration is an arithmetic mean computed from a distribution by single weeks of unemployment.

Earners, Number of

The file includes all persons 15 years old and over in the household with \$1 or more in wages and salaries, or \$1 or more of a loss in net income from farm or nonfarm self-employment during the preceding year.

Earnings Weight

Each person record in month-in- sample 4 and 8 contains an earnings weight for current earnings.

Education

(See Level of School Completed.)

Employed

(See Labor Force.)

Energy Assistance Program

The Low-Income Home Energy Assistance Program provides financial assistance to qualified households to help them pay heating costs. The program is funded by the Federal government and administered by the States under broad guidelines. In some States a household may automatically be eligible for this program if the household receives (1) Aid to Families with Dependent Children, (2) Food Stamps, (3) Supplemental Security Income (SSI), and (4) certain Veterans' benefits.

The energy assistance questions were asked for the first time in 1982. In 2011, the question was revised to include assistance for cooling as well as heating expenses, and the reference period was expanded from: (a) receipts since October 1 of the previous year; to (b) receipts for the entire previous calendar year.

Family

A family is a group of two persons or more (one of whom is the householder) residing together and related by birth, marriage, or adoption. All such persons

(including related subfamily members) are considered as members of one family. Beginning with the 1980 CPS, unrelated subfamilies (referred to in the past as secondary families) are no longer included in the count of families, nor are the members of unrelated subfamilies included in the count of family members.

Family Household

A family household is a household maintained by a family (as defined above), and may include among the household members any unrelated persons (unrelated subfamily members and/or unrelated individuals) who may be residing there. The number of family households is equal to the number of families. The count of family household members differs from the count of family members, however, in that the family household members include all persons living in the household, whereas family members include only the householder and his/her relatives (See definition of Family).

Family Weight

The weight on the family record is the March supplement weight of the householder or reference person. This weight on the primary family record should be used to tabulate the number of families.

Farm Self-Employment Net Income

The term is defined as net money income (gross receipts minus operating expenses) from the operation of a farm by a person on his own account, as an owner, as a renter, or as a sharecropper. Gross receipts include the value of all products sold, government crop loans, money received from the rental of farm equipment to others, and incidental receipts from the sale of wood, sand, gravel, etc.

Operation expenses include cost of feed, fertilizer, seed, and other farming supplies, cash wages paid to farm hands, depreciation charges, cash rent, interest on farm mortgages, farm building repairs, farm taxes (not State and Federal income taxes), etc. The value of fuel, food, or other farm products used for household living is not included as part of net income. Inventory changes are considered in determining net income only when they are accounted for in replies based on income tax returns or other official records which reflect inventory changes.

Final Weight

Used in tabulating monthly labor force items. This weight should be used when producing estimates from the basic CPS data. It should not be used to tabulate

ASEC supplement data.

Food Stamps

The Food Stamp Act of 1977 was enacted for the purpose of increasing the food purchasing power of eligible households through the use of coupons to purchase food. The Food and Nutrition Service of the U.S. Department of Agriculture (USDA) administers the Food Stamp Program through State and local welfare offices. The Food Stamp Program is the major national income support program which provides benefits to all low- income and low-resource households regardless of household characteristics (e.g., sex, age, disability, etc.). The questions on participation in the Food Stamp Program in the ASEC supplement were designed to identify households in which one or more of the current members received food stamps during the previous calendar year. Once a food stamp household was identified, a question was asked to determine the number of current household members covered by food stamps during the previous calendar year. Questions were also asked about the number of months food stamps were received during the previous calendar year and the total face value of all food stamps received during that period.

Full-Time Worker

Persons on full-time schedules include persons working 35 hours or more, persons who worked 1-34 hours for noneconomic reasons (e.g., illness) and usually work full-time, and persons "with a job but not at work" who usually work full- time.

Group Health Insurance Coverage

Civilian persons 15 years old and over who worked in the previous calendar year and who participated in group health insurance plans provided by the employer or union were asked whether part or all of the health insurance premiums were paid for by the union or employer and the extent of persons covered.

Additional questions were asked to determine if sample persons were covered by any other type of health insurance plan. These items are intended to measure retirees covered by continuing employer provided coverage and persons who purchased coverage on their own.

Group Quarters

Group quarters are noninstitutional living arrangements for groups not living in conventional housing units or groups living in housing units containing nine or more persons unrelated to the person in charge.

Head versus Householder

Beginning with the March 1980 CPS, the Census Bureau discontinued the use of the terms "head of household" and "head of family." Instead, the terms "householder" and "family householder" are used.

Highest Grade of School Attended

(See Level of School Completed.)

Hispanic Origin

Persons of Hispanic origin in this file are determined on the basis of a question asking if the person is Spanish, Hispanic, or Latino. If the response is "yes," a follow-up question determines a specific ethnic origin, asking to select their (the person's) origin from a "flash card" listing. The flash-card selections are Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, Cuban American, or some other Spanish, Hispanic, or Latino group.

Hours of Work

Hours of work statistics relate to the actual number of hours worked during the survey week. For example, a person who normally works 40 hours a week but who is off on the Veterans Day holiday is reported as working 32 hours even though he is paid for the holiday.

For persons working in more than one job, the figures relate to the number of hours worked in all jobs during the week. However, all the hours are credited to the major job.

Household

A household consists of all the persons who occupy a house, an apartment, or other group of rooms, or a room, which constitutes a housing unit. A group of rooms or a single room is regarded as a housing unit when it is occupied as separate living quarters; that is, when the occupants do not live with any other person in the structure, and when there is direct access from the outside or through a common hall. The count of households excludes persons living in group quarters, such as military barracks and institutions. Inmates of institutions (mental hospitals, rest homes, correctional institutions, etc.) are not included in the survey.

Household Weight

Household weight is the March Supplement weight of the householder. This weight should be used to tabulate estimates of households.

Householder

The householder refers to the person (or one of the persons) in whose name the housing unit is owned or rented (maintained) or, if there is no such person, any adult member, excluding roomers, boarders, or paid employees. If the house is owned or rented jointly by a married couple, the householder may be either the husband or the wife. The person designated as the householder on the file is the "reference person" on the CPS-260 control card to whom the relationship of all other household members, if any, is recorded.

Householder with No Other Relatives in Household

A householder who has no relatives living in the household. This is the entry for a person living alone. Another example is the designated householder of an apartment shared by two or more unrelated individuals.

Householder with Other Relatives (Including Spouse) in Household

The person designated as householder if he/she has one or more relatives (including spouse) living in the household.

Income

For each person in the sample who is 15 years old and over, questions are asked on the amount of money income received in the preceding calendar year from each of the following sources: (1) money wages or salary; (2) net income from nonfarm self-employment; (3) net income from farm self-employment; (4) Social Security or railroad retirement; (5) Supplemental Security Income; (6) public assistance or welfare payments; (7) interest (on savings or bonds); (8) dividends, income from estates or trusts, or net rental income; (9) veterans' payment or unemployment and workmen's compensation; (10) private pensions or government employee pensions; (11) alimony or child support, regular contributions from persons not living in the household, and other periodic income.

Although income statistics refer to receipts during the preceding year, the characteristics of the person such as age, labor force status, etc., and the composition of households refer to the time of the survey. The income of the household does not include amounts received by persons who are members of the household during all or part of the income year if these persons no longer reside with the household at the time of enumeration. On the other hand, household income includes amounts reported by persons who did not reside with the household during the income year but who were members of the household at the time of enumeration.

Data on consumer income collected in the CPS by the Census Bureau cover money income received (exclusive of certain money receipts such as capital gains) before payments for personal income taxes, Social Security, union dues, Medicare deductions, etc. Also, money income does not reflect the fact that some households receive part of their income in the form of non-money transfers such as food stamps, health benefits, subsidized housing, and energy assistance; that many farm households receive non-money income in the form of rent free housing and goods produced and consumed on the farm; or that non-money income is received by some nonfarm residents that often takes the form of the use of business transportation and facilities, or full or partial contributions for retirement programs, medical and educational expenses, etc. These elements should be considered when comparing income levels. Moreover, readers should be aware that for many different reasons there is a tendency in household surveys for respondents to under report their income. From an analysis of independently derived income estimates, it has been determined that wages and salaries tend to be much better reported than such income types as public assistance, Social Security, and net income from interest, dividends, rents, etc.

Income Sources - Wages and Salary

Money wages or salary is defined as total money earnings received for work performed as an employee during the income year. It includes wages, salary, Armed Forces pay, commissions, tips, piece-rate payments, and cash bonuses earned, before deductions are made for taxes, bonds, pensions, union dues, etc. Earnings for self-employed incorporated businesses are considered wage and salary.

Income Sources - Nonfarm Self-Employment

Net income from nonfarm self-employment is net money income (gross receipts minus expenses) from one's own business, professional enterprise, or partnership. Gross receipts include the value of all goods sold and services rendered. Expenses include costs of goods purchased, rent, heat, light, power, depreciation charges, wages and salaries paid, business taxes (not personal income taxes), etc. In general, inventory changes are considered in determining net income since replies based on income tax returns or other official records do reflect inventory changes. However, when values of inventory changes are not reported, net income figures exclusive of inventory changes are accepted. The value of saleable merchandise consumed by the proprietors of retail stores is not

included as part of net income.

Income Sources - Farm Self-Employment

Net income from farm self-employment is net money income (gross receipts minus operating expenses) from the operation of a farm by a person on his own account, as an owner, as a renter, or as a sharecropper. Gross receipts include the value of all products sold, government crop loans, money received from the rental of farm equipment to others, and incidental receipts from the sale of wood, sand, gravel, etc.

Operating expenses include cost of feed, fertilizer, seed, and other farming supplies, cash wages paid to farm hands, depreciation charges, cash rent, interest on farm mortgages, farm building repairs, farm taxes (not State and Federal income taxes), etc. The value of fuel, food, or other farm products used for family living is not included as part of net income. In general, inventory changes are considered in determining net income only when they are accounted for in replies based on income tax returns or other official records which reflect inventory changes; otherwise, inventory changes are not taken into account.

Income Sources - Social Security

Social Security includes Social Security pensions and survivors' benefits, and permanent disability insurance payments made by the Social Security Administration prior to deductions for medical insurance and railroad retirement insurance checks from the U.S. Government. "Medicare" reimbursements are not included.

Income Sources - Supplemental Security Income

Supplemental Security Income includes payments made by Federal, State, and local welfare agencies to low income persons who are (1) aged (65 years old and over), (2) blind, or (3) disabled.

Income Sources - Public Assistance

Public assistance or welfare payments include public assistance payments such as Aid to Families with Dependent Children and general assistance.

Income Sources - Interest and Dividends

Interest, dividends, income from estates or trusts, net rental income or royalties include dividends from stockholdings or membership in associations, interest on savings or bonds, periodic receipts from estates or trust funds, net income from rental of a house, store, or other property to others, receipts from boarders or lodgers, and net royalties.

Income Sources - Unemployment Compensation

Worker's Compensation, and Veterans' Payments.

Unemployment compensation, veterans' payments, or worker's compensation includes: (1) unemployment compensation received from government unemployment insurance agencies or private companies during periods of unemployment and any strike benefits received from union funds; (2) money paid periodically by the Veterans Administration to disabled members of the Armed Forces or to survivors of deceased veterans, subsistence allowances paid to veterans for education and on-the-job training, as well as so-called "refunds" paid to ex-servicemen as GI insurance premiums; and (3) worker's compensation received periodically from public or private insurance companies for injuries incurred at work. The cost of this insurance must have been paid by the employer and not by the person.

Income Sources - Private and Government Pensions and Annuities

Many employers and unions have established pension program their employees so that upon retirement the employee will receive regular income to replace his/her earnings. Many of these programs also provide income to the employees if he/she becomes severely disabled, or to his/her survivors if the employee dies. Other types of retirement income include annuities and paid up life insurance policies. Some people purchase annuities which yield a set amount over a certain number of years. Other people may convert their paid up life insurance policy into an annuity after they retire.

Income Sources - Alimony and Child Support

Alimony is money received periodically from a former spouse following a divorce or separation.

Child support is money received from a parent for the support of their children following a divorce or legal

separation. Money received from relatives, other than the parent, or friends is not considered as child support.

Receipts Not Counted As Income

Receipts from the following sources are not included as income: (1) money received from the sale of property, such as stocks, bonds, a house, or a car (unless the person is engaged in the business of selling such property, in which case the net proceeds is counted as income from self-employment); (2) withdrawals of bank deposits; (3) money borrowed; (4) tax refunds; (5) gifts; and (6) lump-sum inheritances of insurance payments.

Industry, Occupation, and Class of Worker (I&O) - Current Job (Basic CPS data)

For the employed, current job is the job held in the reference week (the week before the survey). Persons with two or more jobs are classified in the job at which they worked the most hours during the reference week. The unemployed are classified according to their latest full-time job lasting two or more weeks or by the job (either full-time or part-time) from which they were on layoff. The I&O questions are also asked of persons not in the labor force who are in the fourth and eighth months in sample and who have worked in the last five years. The occupation/industry classification system for the 2000 Census was used to code CPS data beginning with the January 2003 file. See Table 1 below; the occupation classifications underwent revisions in 2011, to make them consistent with Census 2010.

I&O - Longest Job (supplement data)

Longest job applies to the job held longest during the preceding year for persons who worked that year, without regard to their current employment status.

Table 1 – I&O Details for Current Job (Basic CPS) and Longest Job (ASEC Supplement)

Subject		Current Job (Basic CPS data)	Longest Job Last Year (ASEC data)
		Variable Name	
Industry	4-digit code	PEIOIND	INDUSTRY
	2-digit recode (detailed groups)	A_DTIND	WEIND
	2-digit recode (major groups)	A_MJIND	WEMIND
Occupation	4-digit code	PEIOOCC	OCCUP
	2-digit recode (detailed groups)	A DTOCC	POCCU2
	2-digit recode (major groups)	A_MJOCC	WEMOCCG
Class of Worker	Class of Worker	A_CLSWKR	LJCW

Job Seekers

All unemployed persons who made specific efforts to find a job sometime during the 4-week period preceding the survey week.

Keeping House

Persons are classified as keeping house if they engage in own housework. This is one of the "not in labor force" classifications employment status recode (ESR) = 4.

LFSR (Labor Force Status Recode)

This classification is available for each civilian 15 years old and over according to his/her responses to the monthly (basic) labor force items.

Labor Force

Persons are classified as in the labor force if they are employed, unemployed, or in the Armed Forces during the survey week. The "civilian labor force" includes all civilians classified as employed or unemployed. The file includes labor force data for civilians age 15 and over. However, the official definition of the civilian labor force is age 16 and over.

1. Labor Force – Employed

Employed persons comprise (1) all civilians who, during the survey week did any work at all as paid employees or in their own business or profession, or on their own farm, or who work 15 hours or more as unpaid workers on a farm or a business operated by a member of the family; and (2) all those who have jobs but who are not working because of illness, bad weather, vacation, or labor-management dispute, or because they are taking time off for personal reasons, whether or not they are seeking other jobs. These persons would have a Labor Force Status Recode (LFSR) of 1 or 2 respectively in character 145 of the person record which designates "at work" and "with a job, but not at work." Each employed person is counted only once. Those persons who held more than one job are counted in the job at which they worked the greatest number of hours during the survey week. If they worked an equal number of hours at more than one job, they are counted at the job they held the longest.

2. Labor Force – Unemployed

Unemployed persons are those civilians who, during the survey week, have no employment but are available for work, and (1) have engaged in any specific job seeking

activity within the past 4 weeks such as registering at a public or private employment office, meeting with prospective employers, checking with friends or relatives, placing or answering advertisements, writing letters of application, or being on a union or professional register; (2) are waiting to be called back to a job from which they had been laid off; or (3) are waiting to report to a new wage or salary job within 30 days. These persons would have an LFSR code of 3 or 4 in the person record. The unemployed includes job leavers, job losers, new job entrants, and job reentrants.

2a. Unemployed - Job Leavers

Persons who quit or otherwise terminate their employment voluntarily and immediately begin looking for work.

2b. Unemployed - Job Losers

Persons whose employment ends involuntarily, who immediately begin looking for work, and those persons who are already /on layoff.

2c. Unemployed - New Job Entrants

Persons who never worked at a full-time job lasting two weeks or longer.

2d. Unemployed - Job Reentrants

Persons who previously worked at a full-time job lasting two weeks or longer but are out of the labor force prior to beginning to look for work.

3. Labor Force - Not in Labor Force

Included in this group are all persons in the civilian noninstitutional population who are neither employed nor unemployed. Information is collected on their desire for and availability to take a job at the time of the CPS interview, job search activity in the prior year, and reason for not looking in the 4-week period prior to the survey week. This group includes discouraged workers, defined as persons not in the labor force who want and are available for a job and who have looked for work sometime in the past 12 months (or since the end of their last job if they held one within the past 12 months), but who are not currently looking because they believe there are no jobs available or there are none for which they would qualify. Such persons have an LFSR code of 7 in the person record.

Finally, it should be noted that the unemployment rate represents the number of persons unemployed as a percent of the civilian labor force 16 years old and over. This measure can also be computed for groups within the labor force classified by sex, age, marital status, race, etc. The job loser, job leaver, reentrant, and new entrant rates are each calculated as a percent of the civilian labor force 16 years old and over; the sum of the rates for the four groups thus equals the total unemployment rate.

Layoff

A person who is unemployed but expects to be called back to a specific job. If he/she expects to be called back within 30 days, it is considered a temporary layoff; otherwise, it is an indefinite layoff.

Level of School Completed/Degree Received

These data changed on the March 1992 file. A new question, "What is the highest level of school ... has completed or the highest degree ... has received? Replace the old "highest grade attended" and "year completed" questions. The new question provides more accurate data on the degree status of college students. Educational attainment applies only to progress in "regular" school. Such schools include graded public, private, and parochial elementary and high schools (both junior and senior high), colleges, universities, and professional schools, whether day schools or night schools. Thus, regular schooling is that which may advance a person toward an elementary school certificate or high school diploma, or a college, university, or professional school degree. Schooling in other than regular schools is counted only if the credits obtained are regarded as transferable to a school in the regular school system.

Looking for Work

A person who is trying to get work or trying to establish a business or profession.

March Supplement Weight

The March supplement weight is on all person records and is used to produce "supplement" estimates; that is, income, work experience, migration, and family characteristic estimates.

Marital Status

The marital status classification identifies four major categories: single (never married), married, widowed, and divorced. These terms refer to the marital status at the time of enumeration.

The category "married" is further divided into "married, civilian spouse present," "married, Armed Forces spouse present," "married, spouse absent," "married, Armed Forces spouse absent," and "separated." A person is classified as "married, spouse present" if the husband or wife is reported as a member of the household even though he or she may be temporarily absent on business or on vacation, visiting, in a hospital, etc., at the time of the enumeration. Persons reported as "separated" included those with legal separations, those living apart with intentions of obtaining a divorce, and other persons permanently or temporarily estranged from their spouses because of marital discord.

For the purpose of this file, the group "other marital status" includes "widowed and divorced," "separated," and "other married, spouse absent."

Medicare

The Medicare Program is designed to provide medical care for the aged and disabled. The Basic Hospital Insurance Plan (Part A) is designed to provide basic protection against hospital costs and related post-hospital services. This plan also covers many persons under 65 years old who receive Social Security or railroad retirement benefits based on long-term disability. Part A is financed jointly by employers and employees through Social Security payroll deductions. Qualified persons 65 years old and over who are not otherwise eligible for Part A benefits may pay premiums directly to obtain this coverage. The Medical Insurance Plan (Part B) is a voluntary plan which builds upon the hospital insurance protection provided by the basic plan. It provides insurance protection covering physicians' and surgeons' services and a variety of medical and other health services received either in hospitals or on an ambulatory basis. It is financed through monthly premium payments by each enrollee, and subsidized by Federal general revenue funds.

The Medicare question on the ASEC supplement attempted to identify all persons 15 years old and over who were "covered" by Medicare at any time during the previous calendar year. The term "covered" means enrolled in the Medicare Program. In order to be counted, the person did not necessarily have to receive medical care paid for by Medicare.

Medicaid

The Medicaid Program is designed to provide medical assistance to needy families with dependent children, and to aged, blind, or permanently and totally disabled

individuals whose incomes and resources are insufficient to meet the costs of necessary medical services. The program is administered by State agencies through grants from the Centers for Medicare & Medicaid Services (CMS) of the Department of Health and Human Services. Funding for medical assistance payments consists of a combination of Federal, State, and in some cases, local funds.

Medicaid is a categorical program with complex eligibility rules which vary from State to State. There are two basic groups of eligible individuals: the categorically eligible and the medically needy. The major categorically eligible groups are all Temporary Assistance for Needy Families (TANF) recipients and most Supplemental Security Income (SSI) recipients. Other categorically eligible groups are (1) those who meet basic State cash assistance eligibility rules/aged, blind, disabled, needy single parents with children, and, in some States, needy unemployed parents with children, but who are not currently receiving money payments; and (2) needy persons who meet categorical eligibility standards but are institutionalized for medical reasons (e.g., low-income elderly persons in nursing homes). However, such institutionalized persons are not included in the CPS universe and, therefore, are not reflected in these statistics.

In roughly one-half of the States, coverage is extended to the medically needy/persons meeting categorical age, sex, or disability criteria, whose money incomes and assets exceed eligibility levels for cash assistance but are not sufficient to meet the cost of medical care. In such States, qualifying income and asset levels are usually above those set for cash assistance. Families with large medical expenses relative to their incomes and assets may also meet medically needy eligibility standards in these States.

The Medicaid question on the ASEC supplement attempted to identify all persons who were "covered" by Medicaid at any time during the previous calendar year. The term "covered" means enrolled in the Medicaid program, i.e., had a Medicaid medical assistance card, or incurred medical bills which were paid for by Medicaid. In order to be counted, the person did not have to receive medical care paid for by Medicaid.

After data collection and creation of an initial microdata file, further refinements were made to assign Medicaid coverage to children. In this procedure all children under 21 years old in families were assumed to be covered by

Medicaid if either the householder or spouse reported being covered by Medicaid (this procedure was required mainly because the Medicaid coverage question was asked only for persons 15 years old and over). All adult TANF recipients and their children, and SSI recipients living in States which legally require Medicaid coverage of all SSI recipients, were also assigned coverage.

Mobility Status

The population of the United States, 1 year old and over, is classified according to mobility status on the basis of a comparison between the place of residence of each individual at the time of the ASEC supplement and the place of residence in March of the previous year. For ASEC years ending in 0 and 5, this information is also collected for 5-year mobility for person 5 years old and over.

Migration status (one-year) is derived from answers to questions about residence one year before the survey date and the geographic location of the respondent's current residence. One-year migration data are collected annually. Similarly, five-year migration status is based on residence five years ago compared to current residence. The first of three inquiries is: "Were/Was ___ living in this house one year ago?" If the answer was "No," the enumerator asked, "Where did ___ live one year ago?" In classification, three main categories distinguish nonmovers, movers within the United States, and movers from abroad.

Nonmovers are all persons who are living in the same house at the end of the period as at the beginning of the period. Movers within the United States are all persons who are living in a different house in the United States at the end of the period than at the beginning of the period. Movers from abroad include all persons whose place of residence is outside the United States at the beginning of the period, that is, in an outlying area under the jurisdiction of the United States or in a foreign country.

Month-In-Sample

The term is defined as the number of times a unit is interviewed. Each unit is interviewed eight times during the life of the sample.

Never Worked

A person who has never held a full-time civilian job lasting two consecutive weeks or more.

Nonfamily Householder

A nonfamily householder (formerly called a primary individual) is a person maintaining a household while living alone or with nonrelatives only.

Nonfarm Self-employment Net Income

The term is defined as net money income (gross receipts minus expenses) from an individual's own business, professional enterprise, or partnership. Gross receipts include the value of all goods sold and services rendered.

Expenses include costs of goods purchased, rent, heat, light, power, depreciation charges, wages and salaries paid, business taxes (not personal income taxes), etc. In general, inventory changes are considered in determining net income; replies based on income tax returns or other official records do reflect inventory changes; however, when values of inventory changes are not reported, net income figures exclusive of inventory changes are accepted. The value of saleable merchandise consumed by the proprietors of retail stores is not included as part of net income.

Nonworker

A person who did not do any work in the calendar year preceding the survey.

Nonrelative of Householder with No Own Relatives in Household

A nonrelative of the householder who has no relative(s) of his own in the household. This category includes such nonrelatives as a ward, a lodger, a servant, or a hired hand, who has no relatives of his own living with him in the household.

Nonrelative of Householder with Own Relatives (Including Spouse) in Household

Any household member who is not related to the householder but has relatives of his own in the household; for example, a lodger, his spouse, and their son.

Other Relative of Householder

Any relative of the householder other than his spouse, child (including natural, adopted, or step child), sibling, or parent; for example, grandson, daughter-in-law, etc.

Own Child

A child related by birth, marriage, or adoption to the family householder.

Part-Time, Economic Reasons

The item includes slack work, material shortages, repairs to plant or equipment, start or termination of job during the week, and inability to find full-time work. (See also Full-Time Worker.)

Part-Time Other Reasons

The item includes labor dispute, bad weather, own illness, vacation, demands of home housework, school, no desire for full-time work, and full-time worker only during peak season.

Part-Time Work

Persons who work between 1 and 34 hours are designated as working "part-time" in the current job held during the reference week. For the March supplement, a person is classified as having worked part-time during the preceding calendar year if he worked less than 35 hours per week in a majority of the weeks in which he worked during the year. Conversely, he is classified as having worked full-time if he worked 35 hours or more per week during a majority of the weeks in which he worked.

Part-Year Work

Part-year work is classified as less than 50 weeks' work.

Pension Plan

The pension plan question on the ASEC supplement attempted to identify if pension plan coverage was available through an employer or union and if the employee was included. This information was collected for civilian persons 15 years old and over who worked during the previous calendar year.

Population Coverage

Population coverage includes the civilian population of the United States plus approximately one million members of the Armed Forces in the United States living off post or with their families on post in households with least one civilian adult but excludes all other members of the Armed Forces. This file excludes inmates of institutions. The labor force and work experience data are not collected for Armed Forces members.

Poverty

In this file, families and unrelated individuals are classified as being above or below the poverty level using a poverty index adopted by a Federal Interagency Committee in 1969 and slightly modified in 1981.

The modified index provides a range of income cutoffs or "poverty thresholds" adjusted to take into account family size, number of children, and age of the family householder or unrelated individual; prior to 1981, adjustments were also made on the basis of farm-nonfarm residence and sex of the householder.

The impact of these revisions on the poverty estimates is minimal at the national level. The poverty cutoffs are updated every year to reflect changes in the Consumer Price Index. The average poverty threshold for a family of four was \$12,091 in 1985. A detailed explanation of the poverty definition is available at

<https://www.census.gov/topics/income-poverty/poverty/guidance/poverty-measures.html>.

Public Assistance

(See Income.)

Public or Other Subsidized Housing

Participation in public housing is determined by two factors: program eligibility and the availability of housing. Income standards for initial and continuing occupancy vary by local housing authority, although the limits are constrained by Federal guidelines. Rental charges, which, in turn, define net benefits, are set by a Federal statute not to exceed 30 percent of net monthly money income. A recipient unit can either be a family of two or more related persons or an individual who is handicapped, elderly, or displaced by urban renewal or natural disaster.

There are some programs through which housing assistance is provided to low-income families and individuals living in public or privately owned dwellings. Two of the more common types of programs in which Federal, State, and local funds are used to subsidize private sector housing are rent supplement and interest reduction plans. Under a rent supplement plan the difference between the "fair market" rent and the rent charged to the tenant is paid to the owner by a government agency. Under an interest reduction program, the amount of interest paid on the mortgage by the owner is reduced so that subsequent savings can be passed along to low income tenants in the form of lower rent charges.

There were two questions dealing with public and low cost housing on the ASEC supplement questionnaire. The first question identifies residence in a housing unit owned by a public agency. The second question identifies beneficiaries who were not living in public housing projects, but who were paying lower rent due to a government subsidy. These questions differ from other questions covering noncash benefits in that they establish current reciprocity status in March of the current year rather than reciprocity status during the previous year.

Race

Beginning in January 2003, revisions to race categories took effect. Respondents were allowed to report more than one race, making selections from a "flash-card". The six race groups are: White, Black or African American, American Indian or Alaskan Native, Asian,

Native Hawaiian or Other Pacific Islander, and Other race. The last category includes any other race except the five mentioned. Because of these changes, data on race are not directly comparable to previous files. Use caution when interpreting changes in the racial composition of the U.S. over time.

Reentrants

Persons who previously worked at a full-time job lasting two weeks or longer but who are out of the labor force prior to beginning to look for work.

Related Children

Related children in a family include own children and all other children in the household who are related to the householder by birth, marriage, or adoption. For each type of family unit identified in the CPS, the count of own children under 18 years old is limited to single (never married) children; however, "own children under 25" and "own children of any age," include all children regardless of marital status. The totals include never-married children living away from home in college dormitories.

Related Subfamily

A related subfamily is a married couple with or without children, or one parent with one or more own single (never married) children under 18 years old, living in a household and related to, but not including, the householder or spouse. The most common example of a related subfamily is a young married couple sharing the home of the husband's or wife's parents. The number of related subfamilies is not included in the number of families.

School, Major Activity

A person who spent most of his time during the survey week attending any kind of public or private school, including trade or vocational schools in which students receive no compensation in money or kind.

School Lunches

The National School Lunch Program is designed to assist States in providing a school lunch for all children at moderate cost. The National School Lunch Act of 1946 was further amended in 1970 to provide free and reduced-price school lunches for children of needy families. The program is administered by the Food and Nutrition Service of the U.S. Department of Agriculture (USDA) through State educational agencies or through regional USDA nutrition services for nonprofit private

schools. The program is funded by a combination of Federal funds and matching State funds.

All students eating lunches prepared at participating schools pay less than the total cost of the lunches. Some students pay the "full established" price for lunch (which itself is subsidized) while others pay a "reduced" price for lunch, and still others receive a "free" lunch. If the child's family income is at or below 130 percent of the federal poverty level, they are eligible for free lunches. Those who fall between 130 and 185 percent of the federal poverty level are eligible for reduced price lunches. The data in this file, however, do not distinguish between reciprocity of free and reduced-price school lunches.

The questions on the ASEC supplement provide a very limited amount of data for the school lunch program. Questions concerning the school lunch program were designed to identify the number of members 5 to 18 years old in households who "usually" ate a hot lunch. This defined the universe of household members usually receiving this noncash benefit. This was followed by a question to identify the number of members receiving free or reduced price lunches.

Self-Employed

Self-employed persons are those who work for profit or fees in their own business, profession or trade, or operate a farm.

Secondary Individuals

A roomer, boarder, or resident employee with no relatives in the household, or a group quarters member who has no relatives living with him/her.

Stretches of Unemployment

A continuous stretch is one that is not interrupted by the person getting a job or leaving the labor market to go to school, to keep house, etc. A period of two weeks or more during which a person is employed or ceased looking for work is considered to break the continuity of the period of seeking work.

Topcode

For confidentiality purposes, usual hourly earnings from the current job and earnings from the longest job are topcoded (i.e., cut off at a particular amount).

Earnings from the longest job are collected during enumeration up to any amount; however, the amount is topcoded on the public use file. (See page 5-1 for more

information.) From the supplement, total person's income is the sum of the amounts from the individual income types; total family income is the sum of the total person's income for each family member; total household income is the sum of the total income for each person in the household.

Total Money Income

The term is defined as the arithmetic sum of money wages and salaries, net income from self-employment, and income other than earnings. The total income of a household is the arithmetic sum of the amounts received by all income recipients in the household.

Unable to Work

A person is classified as unable to work because of long-term physical or mental illness, lasting six months or longer.

Unemployed

(See Labor Force.)

Unemployment Compensation

(See Income.)

Unpaid Family Workers

Unpaid family workers are persons working without pay for 15 hours a week or more on a farm or in a business operated by a member of the household to whom they are related by birth or marriage.

Unrelated Individuals

Unrelated individuals are persons of any age (other than inmates of institutions) who are not living with any relatives. An unrelated individual may be (1) a nonfamily householder living alone or with nonrelatives only, (2) a roomer, boarder, or resident employee with no relatives in the household, or (3) a group quarters member who has no relatives living with him/her. Thus, a widow who occupies her house alone or with one or more other persons not related to her, a roomer not related to anyone else in the housing unit, a maid living as a member of her employer's household but with no relatives in the household, and a resident staff member in a hospital living apart from any relatives are all examples of unrelated individuals.

Unrelated Subfamily

An unrelated subfamily is a family that does not include among its members the householder and relatives of the householder. Members of unrelated subfamilies may include persons such as guests, roomers, boarders, or

resident employees and their relatives living in a household. The number of unrelated subfamily members is included in the number of household members but is not included in the count of family members.

Persons living with relatives in group quarters were formerly considered as members of families. However, the number of such unrelated subfamilies is so small that persons in these unrelated subfamilies are included in the count of secondary individuals.

Veteran Status

If a person served at any time during the four most recent wartime periods, the codes for all periods of service are entered. A person can report up to 4 periods of service. The following codes are used:

- 0 Children under 15
- 1 September 2001 or later
- 2 August 1990 to August 2001
- 3 May 1975 to July 1990
- 4 Vietnam era (Aug 1964 to Apr 1975)
- 5 February 1955 to July 1964
- 6 Korean War (July 1950 to January 1955)
- 7 January 1947 to June 1950
- 8 World War II (Dec. 1941 to Dec. 1946)
- 9 November 1941 or earlier

Wage and Salary Workers

Wage and salary workers receive wages, salary, commission, tips, or pay in kind from a private employer or from a governmental unit. Also included are persons who are self-employed in an incorporated business. (See income.)

Weeks Worked in the Previous Year

Persons are classified according to the number of different weeks, during the preceding calendar year, in which they did any civilian work for pay or profit (including paid vacations and sick leave) or worked without pay on a family-operated farm or business.

Workers

(See Labor Force--Employed.)

Work Experience

Includes those persons who during the preceding calendar year did any work for pay or profit or worked without pay on a family-operated farm or business at any time during the year, on a part-time or full-time basis.

Year-Round Full-Time Worker

A year-round full-time worker is one who usually worked 35 hours or more per week for 50 weeks or more during the preceding calendar year.

Geographic Concepts

Geographic Division

An area composed of contiguous States, with Alaska and Hawaii also included in one of the divisions. (A State is one of the 51 major political units in the United States.) The nine geographic divisions have been largely unchanged for the presentation of summary statistics since the 1910 census.

Regions

There are four regions: Northeast, Midwest (formerly North Central)¹, West, and South. States and divisions within regions are presented in the tables below.

NORTHEAST REGION	
<i>New England Division</i>	<i>Middle Atlantic Division</i>
Connecticut	New Jersey
Maine	New York
Massachusetts	Pennsylvania
New Hampshire	
Rhode Island	
Vermont	

MIDWEST REGION	
<i>East North Central Division</i>	<i>West North Central Division</i>
Illinois	Iowa
Indiana	Kansas
Michigan	Minnesota
Ohio	Missouri
Wisconsin	Nebraska
	North Dakota
	South Dakota

MIDWEST REGION	
<i>Mountain Division</i>	<i>Pacific Division</i>
Arizona	Alaska
Colorado	California
Idaho	Hawaii
Montana	Oregon
Nevada	Washington
Utah	
Wyoming	
New Mexico	

¹ The Midwest Region was designated as the North Central Region until June 1964

SOUTH REGION		
<i>East South Central Division</i>	<i>West South Central Division</i>	<i>South Atlantic Division</i>
Alabama	Arkansas	Delaware
Kentucky	Louisiana	District of Columbia
Mississippi	Oklahoma	Florida
Tennessee	Texas	Georgia
		Maryland
		North Carolina
		South Carolina
		Virginia
		West Virginia

Improved Data Disclosure Avoidance Techniques Applied to the ASEC Microdata Files

IMPLEMENTATION OF ADDITIONAL DATA DISCLOSURE AVOIDANCE TECHNIQUES

Additional data disclosure techniques, which began with the 2023 data collection, are applied to the Annual Social and Economic Supplement (ASEC) microdata files. Changes to the Current Population Survey (CPS) public use files (PUF) disclosure avoidance techniques were implemented to provide added confidentiality protection to these data. For an overview and background on these changes, please see <https://www.census.gov/programs-surveys/cps/technical-documentation/user-notes/2023-cps-puf-changes.html>.

This documentation provides additional detail about these changes and addresses considerations that data users may have when using the data.

The additional data disclosure techniques were phased in on a monthly basis starting in May 2023. This phase-in was completed in April 2024, at which time all cases on the CPS microdata files reflected the revisions listed below. This means that for the 2025 ASEC file, the entire sample reflects the revisions.

Household Identification Numbers

As of January 2023, all MIS 1 cases are assigned Household Identification Numbers (H_IDNUM on the ASEC file; HRHHID1 on basic monthly CPS files) using an algorithm different than the one used in data collected previously. As with data files collected prior to January 2023, these numbers will remain constant over the time that a household remains in sample such that users will be able to use the same matching identification for the life of the case. H_IDNUM uniquely identifies a household on the ASEC data file. HRHHID1 along with HRHHID2 uniquely identify a household on the basic monthly files. This is for your information and the data user will not have to do anything different than in previous data use.

Section A: Geographic Synthesis

All Geography with population between 100,000 and 250,000 go through a geographic synthesis for privacy protection. Items for consideration include the following:

1. The 2010 Census population measures were used for identifying areas with a population between 100,000 and 249,999.
2. There is no revision to the current practice of geographic suppression of the data for populations under 100,000.
3. This synthesis applies to all CBSAs, identified principal cities, counties, and the component parts of the CBSA (principal city and balance portions). Additionally, CBSAs

that cross state boundaries are subject to synthesis separately for each state in which they occur. The following are eligible for synthesis:

- GTCBSA
- GTCBSAST
- GTCBSASZ
- GTCO
- GTINDVPC
- GTMETSTA
- GTCSA

4. No other data are synthesized by the swap.

Determining which cases are eligible for synthesis

The following are key things to consider when looking at data that may be eligible for geographic synthesis:

- While a specific geography may meet the population threshold for synthesis, not all cases in that geography are synthesized. Some are not synthesized and others are synthesized back into their original geography.
- Both nonmetropolitan and metropolitan areas are subject to synthesis.
- If a case is synthesized, all substate geographic codes are updated to reflect the new geography.
- All the substate codes for areas synthesized are revised as a group such that there are no records with missing or inconsistent codes.

For example, the Salisbury CBSA is contained within the states of Maryland and Delaware, with each state-specific portion of the CBSA having a population of 100,000 to 249,999. Thus, each state portion is subject to the synthesis. Conversely, the Wisconsin portion of the Minneapolis CBSA is subject to synthesis, but not the Minnesota portion since its population is over 250,000. Additionally, there are some CBSAs only partially in sample. For these areas, the population for the portion of the area in sample is used to determine whether it requires synthesis.

What follows below are examples based on user questions and comments that arose as the Census Bureau vetted these changes to the CPS PUF over the course of the last year. We hope that these examples help to understand the scope of these changes more clearly.

- Let's take Delaware as an example. There are 3 counties in the state, all of which are classified as metropolitan on the files. The county containing Wilmington (New Castle County, part of the Philadelphia CBSA in Delaware) has a population greater than 249,999 and is not subject to synthesis. The other 2 counties (Kent

County, in the Dover CBSA; and Sussex County, part of the Salisbury CBSA in Delaware), each have a population between 100,000 and 249,999 and are both subject to synthesis. For these areas, the CBSA code and other geographic codes change from Dover to Salisbury and vice versa for some cases while others keep the original CBSA codes.

- We only had one state, Vermont, where there was a single area requiring synthesis. In this case, we synthesized some of the nonmetropolitan areas along with synthesizing the Burlington CBSA.
- Another set of examples can be found in Arkansas. Here we do not synthesize any cases in either the Little Rock or Fayetteville CBSAs. They retain their original codes. All the other areas in the state are subject to synthesis and either retain their original codes or the codes that were assigned by the synthesis process.

Analysis

Analysts at the Census Bureau reviewed 3 non-consecutive months of basic monthly public use data files to examine potential issues with the synthesized geographies. (As always, the Census Bureau urges caution when analyzing small sample sizes or subpopulations. For example, Census Bureau guidance recommends pooling three years of CPS ASEC to produce state-level estimates.)

Analysts examined demographics (age, marital status, sex, race, ethnicity, cohabitation status, household type) and key migration variables for differences in distributions between public use basic monthly files with and without geographic synthesis techniques applied. Additionally, analysts examined how geographic synthesis may affect the relationship between full-time employment status at the household level and household-level regressors, such as family income, race and ethnicity, education, average age, household tenure, employment status, disability, citizenship, marital status, having children, and veteran status. Analysts found no meaningful differences in distributions across the two sets of files, nor was there considerable evidence that the geographic synthesis changed the relationship between employment status and the examined variables.

One area of potential concern raised by external data users was the impact on the Supplemental Poverty Measure (SPM), which has geographically-adjusted thresholds. Census Bureau publications will continue to utilize the internal CPS ASEC files and therefore will be unaffected by changes in the CPS PUF. Nonetheless, estimates derived from the public use files were examined to see potential impacts on external data users. For the available subset of the 2022 CPS ASEC, SPM thresholds were re-calculated using synthesized geographies and used to re-estimate SPM rates overall and for detailed demographic subgroups (age, race and Hispanic origin, and CBSA status). The overall SPM rate was not statistically different when using geographically synthesized thresholds. However, significant differences were found with some demographic subgroups and regions, indicating the need for additional research once the geographic synthesis has been fully implemented. Differences in the distribution of people by

income-to-poverty thresholds did not significantly change when estimating supplemental poverty using the new synthesized geographies. This remained true when looking at subsamples by CBSA status.

As part of commitment to data users, the Census Bureau will review the impacts on the current production data and release occasional reports on any possible impacts on data quality. The bureau is constantly reviewing new methods for privacy protections and will refine the model should a better method be found that may lessen any impacts.

Section B – Changes to Earnings

Rounding and Topcoding of the Usual Weekly Earnings Data

Provided below are the rounding algorithms that were introduced for the implementation of rounding for the CPS ASEC files. Table 1 is the rounding rules for the following hourly earning variables: A_HRLYWK and A_HRSPAY. Table 2 is the rounding for the weekly earnings variable, A_GRSWK (two implied decimals).

Table 1: Hourly Earning Rounding

Usual Hourly Earning as Reported with implied decimals	Rounded value on Public Use File with implied decimals
1-7	Set to 5 (\$.05)
8-2999	Round to nearest 5 (\$.05)
3000-4999	Round to nearest 25 (\$.25)
5000+	Round to nearest 50 (\$.50)

Table 2: Weekly Earning Rounding

Usual Weekly Earning with implied decimals	Rounded value on Public Use File with implied decimals
0	\$0
001 – 700	400 (\$4)
701 – 119900	Nearest 200 (\$2)
119901 – 199900	Nearest 1000 (\$10)
200000+	Nearest 2000 (\$20)

Hourly Rounding Examples

For example, a value of \$4.31/hour rounds down to a value of \$4.30. A value of \$4.78/hour rounds up to a value of \$4.80.

A value of \$8.22/hour rounds down to \$8.20, while a value of \$8.28/hour rounds up to \$8.30.

A value of \$32.07/hour rounds down to \$32.00 while a value of \$32.64/hour rounds up to \$32.75.

Weekly Rounding Examples

For example, a value of \$217/week rounds up \$218, while a value of \$228.34/week rounds down to \$228.00.

A value of \$3,622.50/week rounds down to \$3,620.00, while a value \$3,653.00/week rounds up to \$3,660.00.

The Census Bureau has introduced a dynamic topcode, implemented monthly, with topcoding applied to the top 3 percent of hourly earnings reported. This method results in fewer cases being topcoded compared to the previous method which applied topcoding based on the individual's usual hours worked variable. For individuals whose earnings are topcoded, the earnings variable contains the weighted average of the top 3% and not a cutoff value as has been done in past years. A_HRLYWK and A_HRSPAY are the hourly reporting variables. Below is an example of this process using fictional data.

Hourly Wages	Cumulative Percent	Topcoding (Weighted Average of Top 3%)
2	0.15	2
2.15	0.26	2.15
3.50	0.90	3.50
.	.	.
.	.	.
.	.	.
46.5	96.90	46.5
47	96.93	47
49.5	97.06	64.20
50	97.46	64.20
51	97.55	64.20
.		.
.		.
.		.
65	99.40	64.20

68	99.45	64.20
70	99.60	64.20
75	99.75	64.20
85	99.80	64.20
90	100.00	64.20

Furthermore, values not topcoded as above, will be rounded based on the criteria below.

Usual Hourly Earning as Reported	Rounded value on Public Use File
\$00.01 - \$00.07	\$00.05
\$00.08 - \$29.99	Nearest \$00.05
\$30.00 - \$49.99	Nearest \$00.25
\$50.00 +	Nearest \$00.50 until topcoded

For questions on technical issues involving these revisions, contact the CPS staff at: 301-763-3806 or email at DSD.CPS@census.gov

CONTINUATION OF TOPCODING FOR INCOME AND RELATED VARIABLES

The 2026 ASEC public use data file continues the longstanding technique of swapping values between sample cases having incomes above a determined topcode value. This technique preserves the distribution of values above the topcode while maintaining adequate disclosure avoidance.

The technique used for swapping values is termed “rank proximity swapping”. Once the topcode has been established, some persons with value above the topcode cutoff are sorted by those values from lowest to highest (values equal to the specified topcode are included in the universe of those requiring topcoding). Next, the values above the topcode are systematically swapped between sample persons. The swapping occurs within a bounded interval. This bounded interval assures that the values swapped are in “proximity” to each other, yet providing a sufficiently large group of persons from which the swap partners are selected. The Rank Proximity Swapping tables below show the topcode cutoff amount for the various sources.

The use of swapping techniques is accompanied by the procedure to round the swapped amounts.

All topcoded amounts included on the public use must be rounded to two significant digits (i.e. \$987,654=\$990,000; \$12,345=\$12,000; \$9,870=\$9,900; rounded values will never exceed the maximum value on the file, i.e. \$999,999=\$999,999).

Rank Proximity Swapping

Threshold Amounts for Earnings and Income Fields

Income Source	Swap Threshold ¹

APPENDIX A

INDUSTRY CLASSIFICATION

2022 Census Industry Code List for Detailed Industry (4 digits) (Starting January 2025)

These categories are aggregated into 52 detailed groups for Basic CPS, 23 detailed groups for ASEC, and 15 major groups used for both Basic CPS and ASEC.

Differences in Basic CPS and ASEC for Industry Recodes			
	Range	Basic CPS	ASEC
Detailed Industry Recode	(-1:52)	A_DTIND	N/A
Detailed Industry Recode	(0:23)	N/A	WEIND
Major Industry Recodes*	(0:14)	A_MJIND	WEMIND
*WEMIND includes a value of 15 for 'Never worked'.			

See Appendix G of this document for ASCII file locations. The codes in the right hand column are the NAICS equivalent. The Census industry codes and NAICS codes are based on the 2022 North American Industry Classification System.

Industry 2022 Description	2022 Census Industry Code	2022 NAICS Code
The 2022 census industry code list has 266 codes including 7 military codes.		
Agriculture, Forestry, Fishing and Hunting, and Mining	0170-0490	11-21
<i>Agriculture, Forestry, Fishing and Hunting</i>	<i>0170-0290</i>	<i>11</i>

Crop production	0170	111
Animal production and aquaculture	0180	112
Forestry except logging	0190	1131, 1132
Logging	0270	1133
Fishing, hunting and trapping	0280	114
Support activities for agriculture and forestry	0290	115
<i>Mining, Quarrying, and Oil and Gas Extraction</i>	<i>0370-0490</i>	<i>21</i>
Oil and gas extraction	0370	211
Coal mining	0380	2121
Metal ore mining	0390	2122
Nonmetallic mineral mining and quarrying	0470	2123
Not specified type of mining	0480	Part of 21
Support activities for mining	0490	213
Construction	0770	23
Construction (the cleaning of buildings and dwellings is incidental during construction and immediately after construction)	0770	23
Manufacturing	1070-3990	31-33

Animal food, grain and oilseed milling	1070	3111, 3112
Sugar and confectionery products	1080	3113
Fruit and vegetable preserving and specialty food manufacturing	1090	3114
Dairy product manufacturing	1170	3115
Animal slaughtering and processing	1180	3116
Retail bakeries	1190	311811
Bakeries and tortilla manufacturing, except retail bakeries	1270	3118 exc. 311811
Seafood and other miscellaneous foods, n.e.c.	1280	3117, 3119
Not specified food industries	1290	Part of 311
Beverage manufacturing	1370	3121
Tobacco manufacturing	1390	3122
Fiber, yarn, and thread mills	1470	3131
Fabric mills, except knit fabric mills	1480	3132 exc. 31324
Textile and fabric finishing and fabric coating mills	1490	3133
Carpet and rug mills	1570	31411
Textile product mills, except carpet and rug	1590	314 exc. 31411
Knit fabric mills, and apparel knitting mills	1670	31324, 3151
Cut and sew, and apparel accessories and other apparel manufacturing	1691	3152, 3159

Footwear manufacturing	1770	3162
Leather and hide tanning and finishing, and other leather and allied product manufacturing	1790	3161, 3169
Pulp, paper, and paperboard mills	1870	3221
Paperboard container manufacturing	1880	32221
Miscellaneous paper and pulp products manufacturing	1890	32222, 32223, 32229
Printing and related support activities	1990	3231
Petroleum refineries	2070	32411
Petroleum and coal products manufacturing, except petroleum refineries	2090	32412, 32419
Resin, synthetic rubber, and artificial and synthetic fibers and filaments manufacturing	2170	3252
Pesticide, fertilizer, and other agricultural chemical manufacturing	2180	3253
Pharmaceutical and medicine manufacturing	2190	3254
Paint, coating, and adhesive manufacturing	2270	3255
Soap, cleaning compound, and toilet preparation manufacturing	2280	3256
Basic chemical manufacturing, and other chemical product and preparation manufacturing	2290	3251, 3259
Plastics product manufacturing	2370	3261
Tire manufacturing	2380	32621
Rubber products, except tires, manufacturing	2390	32622, 32629
Pottery, ceramics, and plumbing fixture manufacturing	2470	32711
Clay building material and refractories manufacturing	2480	32712
Glass and glass product manufacturing	2490	3272
Cement, concrete, lime, and gypsum product manufacturing	2570	3273, 3274
Other nonmetallic mineral product manufacturing	2590	3279
Iron and steel mills and steel product manufacturing	2670	3311, 3312
Alumina and aluminum production and processing	2680	3313
Nonferrous metal (except aluminum) production and processing	2690	3314
Foundries	2770	3315
Forging and stamping	2780	3321 ₄

Cutlery and handtool manufacturing	2790	3322
Architectural and structural metals, and boiler, tank, and shipping container manufacturing	2870	3323, 3324
Machine shops; turned product; screw, nut, and bolt manufacturing	2880	3327
Coating, engraving, heat treating, and allied activities	2890	3328
Ordnance	2970	332992, 332993, 332994 3325, 3326, 3329 exc.
Miscellaneous fabricated metal product manufacturing	2980	332992, 332993, 332994
Not specified metal industries	2990	Part of 331 and 332
Agricultural implement manufacturing	3070	33311
Construction, and mining and oil and gas field machinery manufacturing	3080	33312, 33313
Commercial and service industry machinery manufacturing	3095	3333
Metalworking machinery manufacturing	3170	3335
Engine, turbine, and power transmission equipment manufacturing	3180	3336 3332, 3334, 3339, Part of
Machinery manufacturing, n.e.c. or not specified	3291	333
Computer and peripheral equipment manufacturing	3365	3341
Communications, audio, and video equipment manufacturing	3370	3342, 3343
Navigational, measuring, electromedical, and control instruments manufacturing	3380	3345
Semiconductor, magnetic and optical media, and other electronic component manufacturing	3390	3344, 3346
Household appliance manufacturing	3470	3352
Electric lighting and electrical equipment manufacturing, and other electrical component manufacturing, n.e.c.	3490	3351, 3353, 3359
Motor vehicles and motor vehicle equipment manufacturing	3570	3361, 3362, 3363
Aircraft, aircraft engine, and aircraft parts manufacturing	3580	336411, 336412, 3364135

Guided missile and space vehicle and parts manufacturing	3590	336414, 336415, 336419
Railroad rolling stock manufacturing	3670	3365
Ship and boat building	3680	3366
Other transportation equipment manufacturing	3690	3369
Sawmills and wood preservation	3770	3211
Veneer, plywood, and engineered wood product manufacturing	3780	3212
Manufactured home (mobile home) and prefabricated wood building manufacturing	3790	321991, 321992 3219 exc. 321991,
Miscellaneous wood product manufacturing	3875	321992
Furniture and related product manufacturing	3895	337
Medical equipment and supplies manufacturing	3960	3391
Sporting and athletic goods, and doll, toy and game manufacturing	3970	33992, 33993
Miscellaneous manufacturing, n.e.c.	3980	3399 exc. 33992, 33993
Not specified manufacturing industries	3990	Part of 31, 32, 33
Wholesale Trade	4070-4590	42

Motor vehicle and motor vehicle parts and supplies merchant wholesalers	4070	4231
Furniture and home furnishing merchant wholesalers	4080	4232
Lumber and other construction materials merchant wholesalers	4090	4233
Professional and commercial equipment and supplies merchant wholesalers	4170	4234
	4180	4235
Metal and mineral, except petroleum, merchant wholesalers		
Household appliances and electrical and electronic goods merchant wholesalers	4195	4236
Hardware, and plumbing and heating equipment, and supplies merchant wholesalers	4265	4237
	4270	4238
Machinery, equipment, and supplies merchant wholesalers		

Recyclable material merchant wholesalers	4280	42393
Miscellaneous durable goods, except recyclable material, merchant wholesalers	4290	4239 exc. 42393
Paper and paper product merchant wholesalers	4370	4241
Drugs, druggists' sundries, and chemical and allied products merchant wholesalers	4380	4242, 4246
Apparel, piece goods, and notions merchant wholesalers	4390	4243
Grocery and related product merchant wholesalers	4470	4244
Farm product raw material merchant wholesalers	4480	4245
Petroleum and petroleum products merchant wholesalers	4490	4247
Beer, wine, and distilled alcoholic beverage merchant wholesalers	4560	4248
Farm supplies merchant wholesalers	4570	42491
Miscellaneous nondurable goods merchant, except farm supplies, wholesalers	4580	4249 exc. 42491
Wholesale trade agents and brokers	4585	4251
Not specified wholesale trade	4590	Part of 42
Retail Trade	4670-5791	44-45

Automobile dealers	4670	4411
Other motor vehicle dealers	4681	4412
Automotive parts, accessories, and tire retailers	4691	4413
Furniture and home furnishings retailers	4771	4491
Electronics and appliance retailers	4796	4492
Building material and supplies dealers, except hardware retailers	4871	4441 exc. 44414
Hardware retailers	4881	44414
Lawn and garden equipment and supplies retailers	4891	4442
Supermarkets and other grocery (except convenience) retailers	4971	44511
Convenience retailers and vending machine operators	4973	44513
Specialty food retailers	4981	4452
Beer, wine, and liquor retailers	4991	4453
Pharmacies and drug retailers	5071	45611

Health and personal care, except pharmacies and drug, retailers	5081	4561 exc. 45611
Gasoline stations	5090	4571
Clothing and clothing accessories retailers	5171	4581
Shoe retailers	5181	4582
Jewelry, luggage, and leather goods retailers	5191	4583
Sporting goods, and hobby, toy, and game retailers	5276	45911, 45912
Sewing, needlework, and piece goods retailers	5281	45913
Musical instrument and supplies retailers	5296	45914
Book retailers and news dealers	5371	45921
Department stores	5382	4551
Warehouse clubs, supercenters, and other general merchandise retailers	5392	4552
Florists	5471	4593
Office supplies and stationery retailers	5481	45941
Used merchandise retailers	5491	4595
Gift, novelty, and souvenir retailers	5571	45942
Other miscellaneous retailers	5581	4599
Fuel dealers	5680	4572
Not specified retail trade	5791	Part of 44, 45

Transportation and Warehousing, and Utilities	6070-6390, 0570-0690	48-49, 22
---	----------------------	-----------

<i>Transportation and Warehousing</i>	<i>6070-6390</i>	<i>48-49</i>
Air transportation	6070	481
Rail transportation	6080	482
Water transportation	6090	483
Truck transportation	6170	484
Transit and ground passenger transportation, except taxi and limousine service	6180	4851, 4852, 4854, 4855, 4859
Taxi and limousine service	6190	4853
Pipeline transportation	6270	486

Scenic and sightseeing transportation	6280	487
Support activities for transportation	6290	488
Postal Service	6370	491
Couriers and messengers	6380	492
Warehousing and storage	6390	493
<i>Utilities</i>	<i>0570-0690</i>	<i>22</i>
Electric power generation, transmission and distribution	0570	2211
Natural gas distribution	0580	2212
Electric and gas, and other combinations	0590	Pts. 2211, 2212
Water supply and irrigation systems, and steam and air-conditioning supply	0670	22131, 22133
Sewage treatment facilities	0680	22132
Not specified utilities	0690	Part of 22
Information	6471-6781	51
Newspaper publishers	6471	51311
Periodical, book, and directory and mailing list, and other publishers	6481	5131 exc. 51311
Software publishers	6490	5132
Motion pictures and video industries	6570	5121
Sound recording industries	6590	5122
Broadcasting and content providers	6671	516
Wired telecommunications carriers	6680	517111
Telecommunications, except wired telecommunications carriers	6690	517 exc. 517111
Computing infrastructure providers, data processing, web hosting, and related services	6695	5182
Libraries and archives	6770	51921
Web search portals and all other information services	6781	51929

Finance and Insurance, and Real Estate, and Rental and Leasing	6871-7190	52-53
<i>Finance and Insurance</i>	6871-6992	52
Monetary authorities-central bank, and commercial banking	6871	521, 52211
Credit unions, and savings institutions and other depository credit intermediation	6881	52213, 52218
Nondepository credit intermediation and related activities	6890	5222, 5223
Securities, commodities, funds, trusts, and other financial investments	6970	523, 525
Insurance carriers	6991	5241
Agencies, brokerages, and other insurance related activities	6992	5242
<i>Real Estate and Rental and Leasing</i>	7071-7190	53
Lessors of real estate, and offices of real estate agents and brokers	7071	5311, 5312
Activities related to real estate	7072	5313
Automotive equipment rental and leasing	7080	5321
Consumer goods rental, and general rental centers	7181	5322, 5323
Commercial and industrial machinery and equipment, and nonfinancial intangible assets rental and leasing	7190	5324, 533
Professional, Scientific, and Management, and Administrative, and Waste Management Services	7270-7790	54-56
<i>Professional, Scientific, and Technical Services</i>	7270-7490	54

Legal services	7270	5411
Accounting, tax preparation, bookkeeping, and payroll services	7280	5412
Architectural, engineering, and related services	7290	5413
Specialized design services	7370	5414

Computer systems design and related services	7380	5415
Management, scientific, and technical consulting services	7390	5416
Scientific research and development services	7460	5417
Advertising, public relations, and related services	7470	5418
Veterinary services	7480	54194
Other professional, scientific, and technical, except veterinary, services	7490	5419 exc. 54194
<i>Management of companies and enterprises</i>	<i>7570</i>	<i>55</i>
Management of companies and enterprises	7570	55
<i>Administrative and support and waste management services</i>	<i>7580-7790</i>	<i>56</i>
Employment services	7580	5613
Business support services	7590	5614
Travel arrangements and reservation services	7670	5615
Investigation and security services	7680	5616
Services to buildings and dwellings, except landscaping services	7690	5617 exc. 56173
Landscaping services	7770	56173
Other administrative and other support services	7780	5611, 5612, 5619
Waste management and remediation services	7790	562
		61-62
Educational Services, and Health Care and Social Assistance	7860-8470	
<i>Educational Services</i>	<i>7860-7890</i>	<i>61</i>

Elementary and secondary schools	7860	6111
Junior colleges, colleges, universities, and professional schools	7870	6112, 6113
Business, trade and technical schools, and computer and management training	7880	6114, 6115

Other schools and instruction, and educational support services	7890	6116, 6117
<i>Health Care and Social Assistance</i>	<i>7970-8470</i>	<i>62</i>
Offices of physicians	7970	6211
Offices of dentists	7980	6212
Offices of chiropractors	7990	62131
Offices of optometrists	8070	62132
Offices of other health practitioners	8080	6213 exc. 62131, 62132
Outpatient care centers	8090	6214
Home health care services	8170	6216
Other health care services	8180	6215, 6219
General medical and surgical hospitals, and specialty (except psychiatric and substance abuse) hospitals	8191	6221, 6223
Psychiatric and substance abuse hospitals	8192	6222
Nursing care facilities (skilled nursing facilities)	8270	6231
Residential care facilities, except skilled nursing facilities	8290	6232, 6233, 6239
Individual and family services	8370	6241
Community food and housing, and emergency and other relief services	8380	6242
Vocational rehabilitation services	8390	6243
Child care services	8470	6244
 Arts, Entertainment, and Recreation, and Accommodation and Food Services	 8561-8690	 71-72
<i>Arts, Entertainment, and Recreation</i>	<i>8561-8590</i>	<i>71</i>

Performing arts companies	8561	7111
Spectator sports	8562	7112
Promoters of performing arts, sports, and similar events, agents and managers for artists, athletes, entertainers, and other public figures	8563	7113, 7114
Independent artists, writers, and performers	8564	7115

Museums, historical sites, and similar institutions	8570	712
Bowling centers	8580	71395
Other amusement, gambling, and recreation industries	8590	713 exc. 71395
<i>Accommodation and Food Services</i>	<i>8660-8690</i>	<i>72</i>
Traveler accommodation	8660	7211
Recreational vehicle parks and camps, and rooming and boarding houses, dormitories, and workers' camps	8670	7212, 7213
Food services and drinking places, except alcoholic beverages	8680	722 exc. 7224
Drinking places (alcoholic beverages)	8690	7224
Other Services, Except Public Administration	8770-9290	81

Automotive repair and maintenance, except car washes	8770	8111 exc. 811192
Car washes	8780	811192
	8790	8112
Electronic and precision equipment repair and maintenance		
Commercial and industrial machinery and equipment repair and maintenance	8870	8113
Personal and household goods repair and maintenance	8891	8114
Barber shops	8970	812111
Beauty salons	8980	812112
Nail salons and other personal care services	8990	812113, 81219
Drycleaning and laundry services	9070	8123
Death care services	9080	8122
Other personal services	9090	8129
Religious organizations	9160	8131
Civic, social, advocacy organizations, and grantmaking and giving services	9170	8132, 8133, 8134
Labor unions and similar labor organizations	9180	81393
Business, professional, political, and similar organizations	9190	8139 exc. 81393
Private households	9290	814

Public Administration	9370-9590	92
		92111, 92112, 92114, pt.
Executive offices and legislative bodies	9370	92115
Public finance activities	9380	92113
Other general government and support	9390	92119
Justice, public order, and safety activities	9470	922, pt. 92115
Administration of human resource programs	9480	923
Administration of environmental quality, and housing programs, urban planning and community development	9490	924, 925
Administration of economic programs and space research and technology	9570	926, 927
National security and international affairs	9590	92812, pt. 92811
Military	9670-9870	pt. 92811
U. S. Army	9670	pt. 92811
U. S. Air Force	9680	pt. 92811
U. S. Navy	9690	pt. 92811
U. S. Marines	9770	pt. 92811
U. S. Coast Guard	9780	pt. 92811
Armed Forces, Branch not specified	9790	pt. 92811
Military Reserves or National Guard	9870	pt. 92811
Unemployed, last worked 5 years ago or earlier or never worked	9920	

Detailed Industry Recodes

(01-52)

These codes correspond to items PRDTIND1 and PRDTIND2 in positions 472-475 of the Basic CPS record layout ASEC. In ASEC, these codes correspond to item A_DTIND.

<u>CODE</u>	<u>DESCRIPTION</u>	<u>INDUSTRY CODE</u>
1	Agriculture	0170 – 0180, 0290
2	Forestry, logging, fishing, hunting, and trapping	0190 - 0280
3	Mining	0370 - 0490
4	Construction	770
5	Nonmetallic mineral products	2470 - 2590
6	Primary metals and fabricated metal products	2670 - 2990
7	Machinery manufacturing	3070 - 3291
8	Computer and electronic products	3365 - 3390
9	Electrical equipment, appliance manufacturing	3470, 3490
10	Transportation equipment manufacturing	3570 - 3690
11	Wood products	3770 - 3875
12	Furniture and fixtures manufacturing	3895
13	Miscellaneous and not specified manufacturing	3960 - 3990
14	Food manufacturing	1070 - 1290
15	Beverage and tobacco products	1370, 1390
16	Textile, apparel, and leather manufacturing	1470 - 1790
17	Paper and printing	1870 - 1990
18	Petroleum and coal products	2070, 2090
19	Chemical manufacturing	2170 - 2290
20	Plastics and rubber products	2370 - 2390
21	Wholesale trade	4070 - 4590
22	Retail trade	4670 - 5790
23	Transportation and warehousing	6070 - 6390
24	Utilities	0570 - 0690
25	Publishing industries (except internet)	6470 - 6490
26	Motion picture and sound recording industries	6570, 6590
27	Broadcasting (except internet)	6670
28	Internet publishing and broadcasting	6675
29	Telecommunications	6680, 6690
30	Internet service providers and data processing services	6692, 6695
31	Other information services	6770, 6780
32	Finance	6870 - 6970
33	Insurance	6990
34	Real estate	7070
35	Rental and leasing services	7080 - 7190
36	Professional and technical services	7270 - 7490
37	Management of companies and enterprises	7570
38	Administrative and support services	7580 - 7780
39	Waste management and remediation services	7790
40	Educational services	7860 - 7890

41	Hospitals	8190
42	Health care services, except hospitals	7970 - 8180,
43	Social assistance	8370 - 8470
44	Arts, entertainment, and recreation	8560 - 8590
45	Accommodation	8660, 8670
46	Food services and drinking places	8680, 8690
47	Repair and maintenance	8770 - 8890
48	Personal and laundry services	8970 - 9090
49	Membership associations and organizations	9160 - 9190
50	Private households	9290
51	Public administration	9370 - 9590
52	Military	9670-9870

Major Industry Recodes
(01-15)

These codes correspond to items A_MJIND and WEMIND.

CODE	DESCRIPTION	INDUSTRY CODE
1	Agriculture, forestry, fishing, and hunting	0170-0290
2	Mining, Quarrying, and Oil and Gas Extraction	0370-0490
3	Construction	0770
4	Manufacturing	1070-3990
5	Wholesale and retail trade	4070-5790
6	Transportation and Warehousing, and Utilities	6070-6390, 0570-0690
7	Information	6471-6781
8	Finance and Insurance, and Real Estate and Rental and Leasing	6871-7190
9	Professional, Scientific, and Management, and Administrative, and Waste Management Services	7270-7790
10	Educational Services, and Health Care and Social Assistance	7860-8470
11	Arts, Entertainment, and Recreation, and Accommodation and Food Services	8561-8690
12	Other Services, Except Public Administration	8770-9290
13	Public administration	9370-9590
14	Military	9670-9870
15 ¹	Never Worked	9920

¹ Only applies to ASEC variable WEMIND

APPENDIX B

OCCUPATION CLASSIFICATION

(Beginning January 2020)

These categories are aggregated into 23 detailed groups and 11 major groups (see pages 10-17 and 10-18). The codes in the right hand column are the 2018 SOC equivalent.

These codes correspond to items PTIO1OCD and PTIO2OCD in positions 860-863 and 868-871 of the Basic CPS record layout in all months, **except the ASEC files**. In **ASEC**, these codes correspond to items PEIOOCC and OCCUP of the Persons Record. These codes are also applicable for any other CPS supplements that collect occupation data.

2018 CENSUS CODE	DESCRIPTION	2018 SOC CODE
------------------------	-------------	------------------

Management, Business, Science, and Arts Occupations

Management Occupations

0010	Chief executives	11-1011
0020	General and operations managers	11-1021
0040	Advertising and promotions managers	11-2011
0051	Marketing managers	11-2021
0052	Sales managers	11-2022
0060	Public relations and fundraising managers	11-2030
0101	Administrative services managers	11-3012
0102	Facilities managers	11-3013
0110	Computer and information systems managers	11-3021
0120	Financial managers	11-3031
0135	Compensation and benefits managers	11-3111
0136	Human resources managers	11-3121
0137	Training and development managers	11-3131
0140	Industrial production managers	11-3051
0150	Purchasing managers	11-3061
0160	Transportation, storage, and distribution managers	11-3071
0205	Farmers, ranchers, and other agricultural managers	11-9013
0220	Construction managers	11-9021
0230	Education and childcare administrators	11-9030
0300	Architectural and engineering managers	11-9041
0310	Food service managers	11-9051
0335	Entertainment and recreation managers	11-9070
0340	Lodging managers	11-9081
0350	Medical and health services managers	11-9111
0360	Natural sciences managers	11-9121

2018 CENSUS CODE	DESCRIPTION	2018 SOC CODE
0420	Social and community service managers	11-9151
0425	Emergency management directors	11-9161
0440	Other managers	11-91XX

Business and Financial Operations Occupations

0500	Agents and business managers of artists, performers, and athletes	13-1011
0510	Buyers and purchasing agents, farm products	13-1021
0520	Wholesale and retail buyers, except farm products	13-1022
0530	Purchasing agents, except wholesale, retail, and farm products	13-1023
0540	Claims adjusters, appraisers, examiners, and investigators	13-1030
0565	Compliance officers	13-1041
0600	Cost estimators	13-1051
0630	Human resource workers	13-1070
0640	Compensation, benefits, and job analysis specialists	13-1141
0650	Training and development specialists	13-1151
0700	Logisticians	13-1081
0705	Project management specialists	13-1082
0710	Management analysts	13-1111
0725	Meeting, convention, and event planners	13-1121
0726	Fundraisers	13-1131
0735	Market research analysts and marketing specialists	13-1161
0750	Business operations specialists, all other	13-1199
0800	Accountants and auditors	13-2011
0810	Property appraisers and assessors	13-2020
0820	Budget analysts	13-2031
0830	Credit analysts	13-2041
0845	Financial and investment analysts	13-2051
0850	Personal financial advisors	13-2052
0860	Insurance underwriters	13-2053
0900	Financial examiners	13-2061
0910	Credit counselors and loan officers	13-2070
0930	Tax examiners and collectors, and revenue agents	13-2081
0940	Tax preparers	13-2082
0960	Other financial specialists	13-20XX

Computer, Engineering, and Science Occupations

Computer and Mathematical Occupations

1005	Computer and information research scientists	15-1221
1006	Computer systems analysts	15-1211
1007	Information security analysts	15-1212
1010	Computer programmers	15-1251
1021	Software developers	15-1252
1022	Software quality assurance analysts and testers	15-1253
1031	Web developers	15-1254

2018 CENSUS CODE	DESCRIPTION	2018 SOC CODE
1032	Web and digital interface designers	15-1255
1050	Computer support specialists	15-1230
1065	Database administrators and architects	15-124X
1105	Network and computer systems administrators	15-1244
1106	Computer network architects	15-1241
1108	Computer occupations, all other	15-1299
1200	Actuaries	15-2011
1220	Operations research analysts	15-2031
1240	Other mathematical science occupations	15-20XX

Architecture and Engineering Occupations

1305	Architects, except landscape and naval	17-1011
1306	Landscape architects	17-1012
1310	Surveyors, cartographers, and photogrammetrists	17-1020
1320	Aerospace engineers	17-2011
1340	Biomedical and agricultural engineers	17-20XX
1350	Chemical engineers	17-2041
1360	Civil engineers	17-2051
1400	Computer hardware engineers	17-2061
1410	Electrical and electronic engineers	17-2070
1420	Environmental engineers	17-2081
1430	Industrial engineers, including health and safety	17-2110
1440	Marine engineers and naval architects	17-2121
1450	Materials engineers	17-2131
1460	Mechanical engineers	17-2141
1520	Petroleum, mining and geological engineers, including mining safety engineers	17-21XX
1530	Other engineers	17-21XX
1541	Architectural and civil drafters	17-3011
1545	Other drafters	17-301X
1551	Electrical and electronic engineering technologists and technicians	17-3023
1555	Other engineering technologists and technicians, except drafters	17-302X
1560	Surveying and mapping technicians	17-3031

Life, Physical, and Social Science Occupations

1600	Agricultural and food scientists	19-1010
1610	Biological scientists	19-1020
1640	Conservation scientists and foresters	19-1030
1650	Other life scientists	19-10XX
1700	Astronomers and physicists	19-2010
1710	Atmospheric and space scientists	19-2021
1720	Chemists and materials scientists	19-2030
1745	Environmental scientists and specialists, including health	19-2041
1750	Geoscientists and hydrologists, except geographers	19-204X
1760	Physical scientists, all other	19-2099
1800	Economists	19-3011

2018 CENSUS CODE	DESCRIPTION	2018 SOC CODE
1821	Clinical and counseling psychologists	19-3033
1822	School psychologists	19-3034
1825	Other psychologists	19-303X
1840	Urban and regional planners	19-3051
1860	Other social scientists	19-30XX
1900	Agricultural and food science technicians	19-4010
1910	Biological technicians	19-4021
1920	Chemical technicians	19-4031
1935	Environmental science and geoscience technicians, and nuclear technicians	19-40XX
1970	Other life, physical, and social science technicians	19-40YY
1980	Occupational health and safety specialists and technicians	19-5010

Education, Legal, Community Service, Arts, and Media Occupations

Community and Social Services Occupations

2001	Substance abuse and behavioral disorder counselors	21-1011
2002	Educational, guidance, and career counselors and advisors	21-1012
2003	Marriage and family therapists	21-1013
2004	Mental health counselors	21-1014
2005	Rehabilitation counselors	21-1015
2006	Counselors, all other	21-1019
2011	Child, family, and school social workers	21-1021
2012	Healthcare social workers	21-1022
2013	Mental health and substance abuse social workers	21-1023
2014	Social workers, all other	21-1029
2015	Probation officers and correctional treatment specialists	21-1092
2016	Social and human service assistants	21-1093
2025	Other community and social service specialists	21-109X
2040	Clergy	21-2011
2050	Directors, religious activities and education	21-2021
2060	Religious workers, all other	21-2099

Legal Occupations

2100	Lawyers, and judges, magistrates and other judicial workers	23-10XX
2105	Judicial law clerks	23-1012
2145	Paralegals and legal assistants	23-2011
2170	Title examiners, abstractors, and searchers	23-2093
2180	Legal support workers, all other	23-2099

Educational Instruction, and Library Occupations

2205	Postsecondary teachers	25-1000
2300	Preschool and kindergarten teachers	25-2010
2310	Elementary and middle school teachers	25-2020
2320	Secondary school teachers	25-2030
2330	Special education teachers	25-2050

2018 CENSUS CODE	DESCRIPTION	2018 SOC CODE
2350	Tutors	25-3041
2360	Other teachers and instructors	25-30XX
2400	Archivists, curators, and museum technicians	25-4010
2435	Librarians and media collections specialists	25-4022
2440	Library technicians	25-4031
2545	Teaching assistants	25-9040
2555	Other educational instruction and library workers	25-90XX

Arts, Design, Entertainment, Sports, and Media Occupations

2600	Artists and related workers	27-1010
2631	Commercial and industrial designers	27-1021
2632	Fashion designers	27-1022
2633	Floral designers	27-1023
2634	Graphic designers	27-1024
2635	Interior designers	27-1025
2636	Merchandise displayers and window trimmers	27-1026
2640	Other designers	27-102X
2700	Actors	27-2011
2710	Producers and directors	27-2012
2721	Athletes and sports competitors	27-2021
2722	Coaches and scouts	27-2022
2723	Umpires, referees, and other sports officials	27-2023
2740	Dancers and choreographers	27-2030
2751	Music directors and composers	27-2041
2752	Musicians and singers	27-2042
2755	Disc jockeys, except radio	27-2091
2770	Entertainers and performers, sports and related workers, all other	27-2099
2805	Broadcast announcers and radio disc jockeys	27-3011
2810	News analysts, reporters, and journalists	27-3023
2825	Public relations specialists	27-3031
2830	Editors	27-3041
2840	Technical writers	27-3042
2850	Writers and authors	27-3043
2861	Interpreters and translators	27-3091
2862	Court reporters and simultaneous captioners	27-3092
2865	Media and communication workers, all other	27-3099
2905	Other media and communication equipment workers	27-40XX
2910	Photographers	27-4021
2920	Television, video, and film camera operators and editors	27-4030

Healthcare Practitioners and Technical Occupations

3000	Chiropractors	29-1011
3010	Dentists	29-1020
3030	Dietitians and nutritionists	29-1031
3040	Optometrists	29-1041
3050	Pharmacists	29-1051

2018 CENSUS CODE	DESCRIPTION	2018 SOC CODE
3090	Physicians	29-1210
3100	Surgeons	29-1240
3110	Physician assistants	29-1071
3120	Podiatrists	29-1081
3140	Audiologists	29-1181
3150	Occupational therapists	29-1122
3160	Physical therapists	29-1123
3200	Radiation therapists	29-1124
3210	Recreational therapists	29-1125
3220	Respiratory therapists	29-1126
3230	Speech-language pathologists	29-1127
3245	Other therapists	29-112X
3250	Veterinarians	29-1131

APPENDIX C

Weighted and Unweighted Counts

Category	Weighted (in 1,000s)	Unweighted
Total Persons	338,555	134,729
Total Family Reference Persons	92,741	37,899
Total Units	137,124	88,026
Interviewed Units (HHds * GQ)	137,124	53,344
Households (Family and NonFamily Householders)	137,056	53,321
Total Family Records in Households	157,409	61,109
Total Families (HHldr, Related, and Unrelated)	92,732	37,895
Family Householders With No Related Subfamilies	83,809	34,071
Family Householders With 1+ Related Subfamilies	4,190	1,807
Unrelated Subfamily	333	146
Related Subfamily	4,400	1,871
Total Unrelated Individuals	64,678	23,214
Nonfamily Householder	49,058	17,443
Other Persons Living With No Relatives	15,620	5,771
Total Person in Households	338,475	134,699
Civilians 15 Years and Older	278,932	108,732
Civilians Less Than 15 Years Old	58,627	25,557
Armed Forces Members	916	410
Group Quarters	67	23
Total Family Records In Group Quarters	68	24
Total Persons	80	30
Civilians 15 Years and Older	73	27
Civilians Less Than 15 Years Old	3	2
Armed Forces Members	4	1
Noninterviewed Units	0	34,682
Type A	0	24,047
Type B/C	0	10,635

APPENDIX D

Public Use Benchmarks

Public Use Benchmarks

Due to confidentiality procedures (refer to Section 4 in the [ASEC technical documentation](#)), including additional rounding added to protect respondent privacy in 2023, matching exact published estimates for income, official poverty, and the Supplemental Poverty Measure (SPM) may not be possible. However, published estimates and estimates generated from the public use file should be close in value. Using the restrictions and universes listed below will allow exact matches for the weighted counts of “All people,” “All households,” or “All families” as listed in the specified tables.

Income and Earnings:

To match published estimates of “All people” (in [PINC01](#)), “All households”([HINC01](#)), and “All families” ([FINC01](#)), use the following universes and restrictions:

CPS ASEC Public Use Income Benchmarks (Income Year 2025)

Counts in thousands

Characteristic	Income Table Universe	Weight Used	Total Income Variable	Total (Weighted Count)	Mean Income (Published Dollar Value)	Mean Income (Public Use File Dollar Value)
All people ¹	a_age 15+	marsupwt	ptotval	279,925	\$70,390	\$70,413
All families	ftype = 1 (primary family)	fsup_wgt	ftotval	88,008	\$152,400	\$152,424
All households	hrhtype = 1-8 (excludes group quarters)	hsup_wgt	htotval	137,056	\$126,700	\$126,711

¹ Mean calculation excludes people without income (where PTOTVAL = 0). Total with income = 248,271.

Source: U.S. Census Bureau, Current Population Survey 2026 Annual Social and Economic Supplement (CPS ASEC)

To match published worker earnings estimates from [PINC05](#) for both sexes 15 years and over, use the following universes and restrictions:

CPS ASEC Public Use Income Benchmarks (Income Year 2025)

Counts in thousands

Characteristic	Income Table Universe	Weight Used	Total Earnings Variable	Total (Weighted Count)	With Earnings		
					Total (Weighted Count)	Mean Earnings (Published Dollar Value)	Mean Earnings (Public Use File Dollar Value)
All people	a_age 15+	marsupwt	pearnval	279,925	175,285	\$75,710	\$75,700
Full-time, year-round workers ¹	wkswork>4 9 and hrswk>34	marsupwt	pearnval	124,003	123,960	\$92,220	\$92,138

¹ Full-time, year-round workers are those that worked more than 34 hours per week (HRSWK) for 50 or more weeks a year (WKSWORK).

Source: U.S. Census Bureau, Current Population Survey 2026 Annual Social and Economic Supplement (CPS ASEC)

Official Poverty:

Notes:

When merging together the person and family files, exclude observations where ftype = 3 (related subfamilies) to prevent related subfamilies from being double-counted in the estimates.

Unrelated individuals under the age of 15 are excluded from the official poverty universe. Because of this, there are 423,800 fewer children in the poverty universe than in the total civilian, noninstitutionalized population (these children are included in the universe for Supplemental Poverty Measure). Only including observations where pov_univ = 1 removes these children from the estimates and is necessary to replicate the published poverty estimates.

To match published estimates of “All people,” “Primary families,” “People in primary families,” and “Related children under 18 in primary families” use the following universes and restrictions:

CPS ASEC Public Use Official Poverty Benchmarks

Counts in thousands

Characteristic	Poverty Table Universe	Weight Used	Total (Weighted Count)	Poverty Rate (Published Estimates)	Poverty Rate (Public Use Estimates)
All people	pov_univ = 1	marsupwt	338,131	10.2	10.2
Primary families	pov_univ = 1 and ftype = 1 and hhdrel = 1	marsupwt	88,008	7.5	7.5
People in primary families	pov_univ = 1 and ftype = 1	marsupwt	273,029	8.1	8.1
Related children under 18 in primary families	pov_univ = 1 and ftype = 1 and hhdrel in (3, 4, 6) and a_age lt 18	marsupwt	71,040	13.1	13.1

Source: U.S. Census Bureau, Current Population Survey 2026 Annual Social and Economic Supplement (CPS ASEC)

Supplemental Poverty Measure

Notes: Unrelated individuals under the age of 15 are included in the SPM universe. These children are given the official poverty status of the household reference person. Therefore, the total count of “All people” will differ from official poverty above.

To match published estimates of “All people,” use the following universes and restrictions:

CPS ASEC Public Use Supplemental Poverty Benchmarks

Counts in thousands

Characteristic	SPM Universe	Weight Used	Total (Weighted Count)	Poverty Rate (Published Estimates)	Poverty Rate (Public Use Estimates)
All People	No restriction	marsupwt	338,555	13.1	13.1

Source: U.S. Census Bureau, Current Population Survey 2026 Annual Social and Economic Supplement (CPS ASEC)

Health Insurance Coverage Estimates

To match published estimates of “All people,” use the following universes and restrictions:

CPS ASEC Public Use Health Insurance Coverage Benchmarks

Counts in thousands, rates in percent

Characteristic	Universe	Weight Used	Total (Weighted Count)	Uninsured Rate (Published Estimates)	Uninsured Rate (Public Use Estimates)
All People	cov≠0	marsupwt	337,923	7.9	7.9

Source: U.S. Census Bureau, Current Population Survey 2026 Annual Social and Economic Supplement (CPS ASEC)

1 BASIC CPS ITEMS

1.1 MOVER ITEMS

HH32b

Did (you/name of reference person) live at this address during the week of November 19, 2025?

- <1> Yes
- <2> No

HH32d

Did any of the following household members live here during the week of November 19, 2025?

- <1> Yes
- <2> No

1.2 FAMILY INCOME

S FAMINC

Which category represents the total combined income of all members of this FAMILY during the past 12 months?

This includes money from jobs, net income from business, farm or rent, pensions, dividends, interest, social security payments and any other money income received by members of this family who are 15 years of age or older?

- | | |
|-----------------------|-----------------------|
| <1> Less than \$5,000 | <8> 25,000 to 29,999 |
| <2> 5,000 to 7,499 | <9> 30,000 to 34,999 |
| <3> 7,500 to 9,999 | <10> 35,000 to 39,999 |
| <4> 10,000 to 12,499 | <11> 40,000 to 49,999 |
| <5> 12,500 to 14,999 | <12> 50,000 to 59,999 |
| <6> 15,000 to 19,999 | <13> 60,000 to 74,999 |
| <7> 20,000 to 24,999 | <14> 75,000 to 99,999 |

<15> 100,000 to 149,000

<16> 150,000 to more

1.3 INCDKR

Is the combined income of all members of this FAMILY during the past 12 months above or below \$75,000?

<1> Above

<2> Below

2 INTRODUCTION and WORK EXPERIENCE

Pr incom

?[F1] Importance of responding

* Wording of introduction is optional.

The questions you just answered were about your job and economic status last week. The next set of questions ask about your job and economic status last year.

<1> Enter 1 to Continue

Q29a

Did (name/you) work at a job or business at any time during 2025?

<1> Yes

<2> No

Q29b

Did (you/he/she) do any temporary, part-time, or seasonal work even for a few days during 2025?

* Include any Military Reserves or National Guard work.

<1> Yes

<2> No

Q30

Even though (name/you) did not work in 2025, did (you/he/she) spend any time trying to find a job or on layoff?

<1> Yes

<2> No

Q31

How many different weeks (was/were) (name/you) looking for work or on layoff from a job?

* (01-52) Number of weeks

Q32

What was the main reason (you/he/she) did not work in 2025?

* Read categories if necessary

- <1> Ill, or disabled and unable to work
- <2> Retired
- <3> Taking care of home or family
- <4> Going to school
- <5> Could not find work
- <6> Doing something else

Q33

During 2025 in how many weeks did (name/you) work even for a few hours? Include paid vacation and sick leave as work.

- * Number of weeks (01-52)
 - * Enter 97 if respondent can only answer in months
-

Q33mon

* Enter number of months worked (1-12)

Q33ver

Then (name/you) worked about (number) weeks. Is that correct?

- <1> Yes
- <2> No – back to Q33 and obtain estimate

Q35

Did (name/you) lose any full weeks of work in 2025 because (you/he/she) (were/was) on layoff from a job or lost a job?

* Number of weeks worked in 2025: (number)

<1> Yes

<2> No

<3> Mistake made in number of weeks worked last year - Specify in Q35SP

Q35SP

* Specify mistake made in number of weeks worked last year

Q36

**You said (name/you) worked about (number) (week/weeks).
How many OF THE REMAINING (number) WEEKS (was/were)
(you/he/she) looking for work or on layoff from a job?**

* Enter 0 for none

Q37

Were the (number) weeks (name/you) (was/were) looking for work or on layoff all in one stretch?

<1> Yes – one stretch

<2> No – two stretches

<3> No – 3 or more stretches

Q38

What was the main reason (name/you) (was/were) not working or looking for work in the remaining weeks of 2025?

* Read list only if respondent is having difficulty answering the question

<1> Ill, or disabled and unable to work

<4> Retired

<2> Taking care of home or family

<5> No work available

<3> Going to school

<6> Other (Specify - Q38sp)

Q38sp

* Enter verbatim response

Q39

**For how many employers did (name/you) work in 2025?
If more than one at the same time, only count it as one employer.**

- <1> One
- <2> Two
- <3> Three or more

Q41

In the (one week/weeks) that (name/you) worked, how many hours did (you/he/she) (work that week?/usually work per week?)

* Enter number of hours

Q43

During 2025, were there one or more weeks in which (name/you) worked less than 35 hours?

Exclude time off with pay because of holidays, vacation, days off, or sickness.

- <1> Yes
- <2> No

Q44

In the weeks that (name/you) worked, how many weeks did (name/you) work less than 35 hours in 2025?

* Number of weeks worked in 2025: (number)
(Number of weeks was reported in item Q33)

(1-52)

Q45

What was the main reason (name/you) worked less than 35 hours per week?

* Read list only if respondent is having difficulty answering the question

- <1> Could not find a full time job
- <2> Wanted to work part time or only able to work part time
- <3> Slack work or material shortage
- <4> Other reason

Q46

What was (name's/your) longest job during 2025?

Was it:

(IO1NAM:) (name of employer)
(IO1IND:) (kind of business or industry)
(IO1OCC:) (occupation)
(IO1DT:) (duties)

* CLASS OF WORKER: (PRIVATE/ FEDERAL GOVERNMENT/ STATE GOVERNMENT/ LOCAL GOVERNMENT/WORKING WITHOUT PAY IN FAMILY BUS./ SELF EMPLOYED--INCORPORATED/ SELF EMPLOYED--UNINCORPORATED)

<1> Same as listed
<2> Different job

Q47a

For whom did (name/you) work (?/at) (blank/(your/his/her) (blank/longest job during 2025?))

* Name of Company, business, organization or other employer

(blank/* IO1NAM:) (entry)
The current employer is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/* If longest job last year is military job, enter Armed Forces)

(blank/* Enter N for no work done at all during 2025)

Q47b

What kind of business or industry is this?

For example: TV and radio manufacturing, retail shoe store, farm

(blank/* IO1IND:) (entry)
The current business or industry type is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/* If longest job last year is military job, enter NA)

Q47b1

Is this business or organization mainly manufacturing, retail trade, wholesale trade,

or something else?

(blank/ *IO1MFG:) (entry)

The current business or organization type is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ * If longest job last year is military job, enter 4)

- <1> Manufacturing
- <2> Retail trade
- <3> Wholesale trade
- <4> Something else

Q47c

What kind of work (was/were) (you/he/she) doing?

For example: Electrical Engineer, Stock Clerk, Typist

(blank/ *IO1OCC:) (entry)

The current occupation is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ * If longest job last year is military job, enter Armed Forces)

Q47d1

What were (your/his/her) most important activities or duties?

For example: Types, keeps account books, files, sells cars, operates printing press, finishes concrete.

(blank/ *IO1DT:) (entry)

The current job description is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ * If longest job last year is military job, enter NA)

Q47d2

What were (your/his/her) most important activities or duties?

For example: Types, keeps account books, files, sells cars, operates printing press, finishes concrete.

(blank/ *IO1DT:) (entry)

The current job description is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ * If longest job last year is military job, enter NA)

Q47E1

* Ask Only If Necessary

(Were/Was) (you/he/she) employed by government, by a PRIVATE company, a nonprofit organization, or (was/were) (you/he/she) self-employed or working in a family business?

- <1> Government
- <2> Private for profit company
- <3> Non profit organization including tax exempt and charitable organizations
- <4> Self employed
- <5> Working in family business

Q47E1a

Would that be the federal, state, or local government?

- <1> Federal
- <2> State
- <3> Local (county, city, township)

Q47E1b

Was this business incorporated?

- <1> Yes
- <2> No

Q47E1c

(Were/Was) (you/name) the owner of the business?

- <1> Yes
- <2> No

Q4788

Counting all locations where (this employer/(name/you)) (operates/operate), what is the total number of persons who work for ((name's/your) employer)/name/you)?

* Read categories if necessary

- <1> Under 10
- <2> 10-49
- <3> 50-99
- <4> 100-499

- <5> 500-999
<6> 1,000+

3 EARNED INCOME

The Earnings and Income question series include range follow-up questions presented anytime a respondent doesn't know or refuses to provide an exact dollar amount for a source they (or someone in the household) indicates as having received. Follow-up questions allow respondents that do not feel comfortable giving exact dollar values to report an income range. There are three sets of categories used for the income range follow-up questions: high-range, mid-range, and low-range. The income range used in the follow-up range questions depends on the source of the income. See Attachment A to this Items Booklet for the three levels of income range follow-up questions. See Attachment B for a table that displays the income source and the range level used for the follow-up questions.

Q48aa

How much did (name/you) earn from this employer before taxes and other deductions during 2025?

- * Enter dollar amount
 - * Enter 0 for none
-

Q48aarn1 Ask only if the respondent "Doesn't know" or "Refused" Q48aa

Could you tell me if (name/you) earned

**less than \$45,000
between \$45,000 and \$60,000
or over \$60,000**

for the TOTAL yearly amount from this employer before taxes and other deductions during 2025?

- <1> Less than \$45,000
<2> Between \$45,000 and \$60,000
<3> Over \$60,000

Q48aarn2

Did (name/you) earn

**less than \$15,000
between \$15,000 and \$30,000
or over \$30,000**

from this employer during 2025?

- <1> Less than \$15,000
- <2> Between \$15,000 and \$30,000
- <3> Over \$30,000

Q48aap

* Read if necessary

Is this a weekly, every other week, twice a month, monthly, or yearly amount?

- <1> Weekly
- <2> Every other week
- <3> Twice a month
- <4> Monthly
- <7> Yearly

Q48a1

For how many (weekly/every other week/twice a month/monthly) pay periods did (name/you) earn (fill from Q48aa) from this employer in 2025?

* (1-12/1-24/1-26/1-52)

Q48aC2

* Do not read to the respondent.

The annual rate appears out of range. The total annual earnings entered is (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q48aV

According to my calculations (name/you) earned (total) altogether from this employer in 2025 before deductions. Does that sound about right?

- <1> Yes
- <2> No

Q48a2

What is your best estimate of (name's/your) correct total amount of earnings from this employer during 2025 before deductions?

* PREVIOUS ENTRIES: Q48aa: (amount)
 Q48aap: (periodicity)

Q48a1: (number of pay periods)

* Enter dollar amount

Q48a3

Does this amount include all tips, bonuses, overtime pay, or commissions (name/you) may have received from this employer in 2025?

<1> Yes

<2> No

Q48aad

How much did (name/you) earn in tips, bonuses, overtime pay, or commissions from this employer in 2025?

* Enter dollar amount

Q48aadrn1 Ask only if the respondent “Doesn’t know” or “Refused” Q48aad

Could you tell me if (name/you) earned

less than \$1,000

between \$1,000 and \$3,000

or over \$3,000

in tips, bonuses, overtime pay, or commissions from this employer during 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$3,000

<3> Over \$3,000

Q48aadrn2

Did (name/you) earn

less than \$100

between \$100 and \$500

or over \$500

in tips, bonuses, overtime pay, or commissions from this employer during 2025?

<1> Less than \$100

- <2> Between \$100 and \$500
- <3> Over \$500

Q48b

What were (name's/your) net earnings from this business/farm after expenses during 2025?

- * If response is "Broke Even" then enter 1
 - * If response is "none" or if respondent does not own a business or farm, then enter "0"
 - * If response is "Lost Money" press Enter
 - * Enter dollar amount
-

Q48b char

- * Enter "L" for Lost Money
-

Q48BL

- * Enter amount of money lost in 2025
 - * Enter annual amount only
-

Q48brn1 Ask only if the respondent "Doesn't know" or "Refused" Q48b.

Could you please tell me if (name/you) earned

**less than \$45,000
between \$45,000 and \$60,000
or over \$60,000**

for the TOTAL yearly amount from this business/farm after expenses during 2025?

- <1> Less than \$45,000
- <2> Between \$45,000 and \$60,000
- <3> Over \$60,000

Q48brn2

Did (name/you) earn

**less than \$15,000
between \$15,000 and \$30,000
or over \$30,000**

from this business/farm after expenses during 2025?

- <1> Less than \$15,000
- <2> Between \$15,000 and \$30,000
- <3> Over \$30,000

Q48bp

Is this a weekly, every other week, twice a month, monthly, quarterly, or yearly amount?

- <1> Weekly
- <2> Every other week
- <3> Twice a month
- <4> Monthly
- <5> Quarterly
- <7> Yearly

Q48B1A

* Do not read to the respondent.

The annual rate appears out of range. The total annual business loss entered is (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q48B1B

* Do not read to the respondent.

The annual rate appears out of range. The total annual business income entered is (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q48b2

What is your best estimate of (name's/your) ANNUAL net earnings from this business/farm after expenses in 2025?

* PREVIOUS ENTRIES: Q48b : (amount)
Q48bp: (periodicity)

* Enter dollar amount

* Probe: Anyone Else?

Q73A1Rc1

What was the source of this income?

* Asking about: (name/you – Current respondent)

* Do not read answer list to respondent

<1> Alaska Permanent Fund Dividend

<2> Other sources or don't know – Specify

Q73A1Rc

* Specify other source of income

* Asking about: (name/you – Current respondent)

5 INCOME AMOUNTS

AMTINTRO

Now I will ask you about the amount of income you (and others in this household) received from various sources in 2025.

5.1 UNEMPLOYMENT AND WORKER'S COMPENSATION (Amounts)

Q51A1p

What is the easiest way for you to tell us (name's/your) State or Federal

unemployment compensation; weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week (bi-weekly)
- <3> Twice a month
- <4> Monthly
- <5> Yearly

Q51A11

How much did (name/you) receive (weekly/every other week/ twice a month/monthly) in State or Federal unemployment compensation during 2025?

✦ [Enter dollar amount](#)

Q51A11r1

Could you please tell me if (name/you) received:

**less than \$10,000
between \$10,000 and \$20,000
or over \$20,000**

in State or Federal unemployment compensation during 2025?

- <1> Less than \$10,000
- <2> Between \$10,000 and \$20,000
- <3> Over \$20,000

Q51A11r2

Did (name/you) receive:

**less than \$1,000
between \$1,000 and \$5,000
or over \$5,000**

in State or Federal unemployment compensation during 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$5,000
- <3> Over \$5,000

Q51A1C

✦ [Do not read to the respondent.](#)

The annual rate appears out of range. The total State or Federal unemployment compensation received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q51A12

How many (weekly/every other week/ twice a month/monthly) payments did (name/you) receive from State or Federal unemployment compensation during 2025?

* (1-12/1-24/1-26/1-52)

Q51A13

According to my calculations (name/you) received (total) altogether from State or Federal unemployment compensation during 2025. Does that sound about right?

<1> Yes
<2> No

Q51A14

What is your best estimate of the correct total amount (name/you) received from State or Federal unemployment compensation during 2025?

PREVIOUS ENTRIES: Q51A11: (amount)

Q51A1p: (periodicity)

Q51A12: (number of pay periods)

* Enter dollar amount

Q51A2p

What is the easiest way for you to tell us (name's/your) Supplemental Unemployment Benefits: weekly, every other week, twice a month, monthly, or yearly?

<1> Weekly
<2> Every other week (bi-weekly)
<3> Twice a month
<4> Monthly
<7> Yearly

Q51A21

How much did (name/you) receive (weekly/every other week/twice a month/monthly) in Supplemental Unemployment Benefits during 2025?

* Enter dollar amount

Q51A21r1

Could you please tell me if (name/you) received

**less than \$10,000
between \$10,000 and \$20,000
or over \$20,000**

in Supplemental Unemployment Benefits during 2025?

- <1> Less than \$10,000
- <2> Between \$10,000 and \$20,000
- <3> Over \$20,000

Q51A21r2

Did (name/you) receive

**less than \$1,000
between \$1,000 and \$5,000
or over \$5,000**

in Supplemental Unemployment Benefits during 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$5,000
- <3> Over \$5,000

Q51A2C

* Do not read to the respondent.

The annual rate appears out of range. The total Supplemental Unemployment Benefits received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q51A22

How many (weekly/every other week/twice a month/ monthly) payments did

(name/you) receive from Supplemental Unemployment Benefits during 2025?

* (1-12/1-24/1-26/1-52)

Q51A23

According to my calculations (name/you) received (total) altogether from Supplemental Unemployment Benefits during 2025. Does that sound about right?

<1> Yes

<2> No

Q51A24

What is your best estimate of the correct total amount (name/you) received from Supplemental Unemployment Benefits during 2025?

PREVIOUS ENTRIES: Q51A21: (amount)

Q51A2p: (periodicity)

Q51A22: (number of pay periods)

* Enter dollar amount

Q51A3p

What is the easiest way for you to tell us (name's/your) Union Unemployment or Strike Benefits; weekly, every other week, twice a month, monthly, or yearly?

<1> Weekly

<2> Every other week (bi-weekly)

<3> Twice a month

<4> Monthly

<7> Yearly

Q51A31

How much did (name/you) receive (weekly/every other week/twice a month/monthly) in Union Unemployment or Strike Benefits during 2025?

* Enter dollar amount

Q51A31r1

Could you please tell me if (name/you) received

less than \$10,000
between \$10,000 and \$20,000
or over \$20,000

in Union Unemployment or Strike Benefits during 2025?

- <1> Less than \$10,000
- <2> Between \$10,000 and \$20,000
- <3> Over \$20,000

Q51A31r2

Did (name/you) receive

less than \$1,000
between \$1,000 and \$5,000
or over \$5,000

in Union Unemployment or Strike Benefits during 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$5,000
- <3> Over \$5,000

* Do not read to the respondent.

The annual rate appears out of range. The total Social Security received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q56d5

According to my calculations (name/you) received \$(total) altogether from Social Security in 2025. Does that sound about right?

- <1> Yes
- <2> No

Q56d6

What is your best estimate of the correct amount (name/you) received in Social Security during 2025?

PREVIOUS ENTRIES: Q56d: (amount)
 Q56dp: (periodicity)
 Q56d2: (number of pay periods)

* Enter dollar amount

5.3 SOCIAL SECURITY DISABILITY (Amounts)

Q562dp

What is the easiest way for you to tell us (name's/your) Social Security Disability payment; monthly, quarterly, or yearly?

<4> Monthly
<5> Quarterly
<7> Yearly

Q562d

How much did (name/you) receive (monthly/quarterly) in Social Security Disability payments in 2025?

* Enter dollar amount

(If already included in amount reported for another household member, press Enter)

Q562d Char

* Enter <A> for Already included

Q562d2

For how many (months/quarters) did (name/you) receive Social Security Disability in 2025?

* (1-4; 1-12)

Q562drn1

Could you tell me if (name/you) received

less than \$10,000

between \$10,000 and \$20,000

or over \$20,000

in Social Security Disability payments in 2025?

<1> Less than \$10,000

<2> Between \$10,000 and \$20,000

<3> Over \$20,000

Q562drn2

Did (name/you) receive

less than \$1,000

between \$1,000 and \$5,000

or over \$5,000

in Social Security Disability payments in 2025?

<4> Less than \$1,000

<5> Between \$1,000 and \$5,000

<6> Over \$5,000

Q562d3

Is this \$(amount from Q562d) before or after any monthly Medicare deductions?

<1> After Deduction

<2> Before Deduction

Q562md

If Q562d3 = 1 then ask:

How much were all of (name's/your) monthly Medicare deductions?

If Q562d3 = 2 then ask:

How much were (name's/your) monthly payments for Medicare?

* Include Medicare Advantage, Part B, and part D premiums.

Q562dC2

* Do not read to the respondent.

The annual rate appears out of range. The total Social Security received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

BACKPAY1

During 2025, did (name/you) receive an initial Social Security Disability payment that was larger than the usual payment that we haven't accounted for yet?

* Sometimes the initial payment from Social Security Disability is larger than the usual monthly payments to make up for the delay in receiving the first payment.

<1> Yes
<2> No

BACKPAY2

How much was that initial disability payment?

Q562d5

According to my calculations (name/you) received \$(total) altogether from Social Security Disability in 2025. Does that sound about right?

<1> Yes
<2> No

Q562d6

What is your best estimate of the correct amount (name/you) received in Social Security Disability during 2025?

5.9 SURVIVOR BENEFITS – Amounts

Q58E1P

What is the easiest way for you to tell us (name's/your) (fill from first answer in Q58C or Q58Cs1) payments?

Weekly, every other week, twice a month, monthly, or yearly?

<1> Weekly
<2> Every other week
<3> Twice a month
<4> Monthly
<7> Yearly

Q58E1

How much did (name/you) receive (weekly/every other week/twice a month/

monthly) from (your/his/her) (fill from first answer in Q58C or Q58Cs1) in 2025?

* Enter dollar amount

Q58e1rn1

Could you please tell me if (name/you) received

less than \$10,000

between \$10,000 and \$20,000

or over \$20,000

for the TOTAL amount (name/you) received from (your/his/her) (fill from first answer in Q58C or Q58Cs1) payments during 2025?

<1> Less than \$10,000

<2> Between \$10,000 and \$20,000

<3> Over \$20,000

Q58e1rn2

Did (name/you) receive

less than \$1,000

between \$1,000 and \$5,000

or over \$5,000

from (you/his/her) (fill from first answer in Q58C or Q58Cs1) payments during 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$5,000

<3> Over \$5,000

Q58E12

How many (weekly/every other week/twice a month/monthly) payments did (name/you) receive in (fill from first answer in Q58C or Q58Cs1) in 2025?

* (1-52)

Q58E1C

* Do not read to the respondent.

The annual rate appears out of range. The total (fill from first answer in Q58C or Q58Cs1)

received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q58E13

According to my calculations (name/you) received \$(total) altogether from (fill from first answer in Q58C or Q58Cs1) in 2025. Does that sound about right?

- <1> Yes
- <2> No

Q58E14

What is your best estimate of the correct amount (name/you) received from (your/his/her) (fill from first answer in Q58C or Q58Cs1) payments during 2025?

- * **PREVIOUS ENTRIES:** Q58E1: (amount)
 Q58E1P: (periodicity)
 Q58E12: (number of pay periods)
- * Enter dollar amount

Q58E2P

What is the easiest way for you to tell us (name's/your) (fill from second answer in Q58C or Q58Cs1) payments?

Weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week
- <3> Twice a month
- <4> Monthly
- <7> Yearly

Q58E2

How much did (name/you) receive (weekly/every other week/twice a month/monthly) in (fill from second answer in Q58C or Q58Cs1) in 2025?

- * Enter dollar amount

Q58e2rn1

**Could you please tell me if (name/you) received
less than \$10,000**

**between \$10,000 and \$20,000
or over \$20,000**

for the TOTAL amount (name/you) received from (your/his/her) (fill from second answer in Q58C or Q58Cs1) payments during 2025?

- <1> Less than \$10,000
- <2> Between \$10,000 and \$20,000
- <3> Over \$20,000

Q58e2rn2

Did (name/you) receive

**less than \$1,000
between \$1,000 and \$5,000
or over \$5,000**

from (your/his/her) (fill from second answer in Q58C or Q58Cs1) payments during 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$5,000
- <3> Over \$5,000

Q58E22

How many (weekly/every other week/twice a month/monthly) payments did (name/you) receive from (your/his/her) (fill from second answer in Q58C or Q58Cs1) in 2025?

* (1-52)

Q58E2C

* Do not read to the respondent.

The annual rate appears out of range. The total (fill from second answer in Q58C or Q58Cs1) received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q58E23

According to my calculations (name/you) received \$(total) altogether from (your/his/her) (fill from second answer in Q58C or Q58Cs1) payments in 2025.

Does that sound about right?

- <1> Yes
<2> No

Q58E24

What is your best estimate of the correct amount (name/you) received from (your/his/her) (fill from second answer in Q58C or Q58Cs1) payments during 2025?

* **PREVIOUS ENTRIES:** Q58E2: (amount)
 Q58E2P: (periodicity)
 Q58E22: (number of pay periods)

* **Enter dollar amount**

Q58E3P

What is the easiest way for you to tell us (name's/your) (fill from third answer in Q58C or Q58Cs1); weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
<2> Every other week
<3> Twice a month
<4> Monthly
<7> Yearly

Q58E3

How much did (name/you) receive (weekly/every other week/twice a month/monthly) in (fill from third answer in Q58C or Q58Cs1) in 2025?

* **Enter dollar amount**

Q58e3rn1

Could you please tell me if (name/you) received

**less than \$10,000
between \$10,000 and \$20,000
or over \$20,000**

for the TOTAL amount (name/you) received from (your/his/her) (fill from third answer in Q58C or Q58Cs1) payments during 2025?

- <1> Less than \$10,000
<2> Between \$10,000 and \$20,000

<3> Over \$20,000

Q58e3rn2

Did (name/you) receive

less than \$1,000

between \$1,000 and \$5,000

or over \$5,000

from (your/his/her) (fill from third answer in Q58C or Q58Cs1) payments during 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$5,000

<3> Over \$5,000

Q58E32

How many (weekly/every other week/ twice a month/monthly) payments did (name/you) receive from (your/his/her) (fill from third answer in Q58C or Q58Cs1) in 2025?

* (1-52)

Q58E3C

* Do not read to the respondent.

The annual rate appears out of range. The total (fill from third answer in Q58C or Q58Cs1) received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q58E33

According to my calculations (name/you) received (total) altogether from (your/his/her) (fill from third answer in Q58C or Q58Cs1) payments in 2025. Does that sound about right?

<1> Yes

<2> No

Q58E34

What is your best estimate of the correct amount (name/you) received from (your/his/her) (fill from third answer in Q58C or Q58Cs1) payments during 2025?

* PREVIOUS ENTRIES: Q58E3: (amount)
Q58E3P: (periodicity)
Q58E32: (number of pay periods)

* Enter dollar amount

5.10 PUBLIC ASSISTANCE (Amounts)

Q59ep

What is the easiest way for you to tell us (name's/your) TOTAL CASH assistance payments from (fill from Q59C8r); Is it weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week
- <3> Twice a month
- <4> Monthly
- <7> Yearly

Q59e

During 2025, how much TOTAL CASH assistance did (name/you) receive (per week/every other week/twice a month/monthly): (fill from Q59C8r)?

* Enter dollar amount

Q59ern1

Could you tell me if (name/you) received

**less than \$1,000
between \$1,000 and \$3,000
or over \$3,000**

in TOTAL CASH assistance payments in 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$3,000
- <3> Over \$3000

Q59ern2

Did (name/you) receive

less than \$100
between \$100 and \$500
or over \$500

in TOTAL CASH assistance payments in 2025?

- <1> Less than \$100
- <2> Between \$100 and \$500
- <3> Over \$500

Q59e2

How many (weekly/every other week/twice a month/monthly) cash assistance payments did (name/you) receive in 2025?

* (1-12/1-24/1-26/1-52)

Q59eC2

* Do not read to the respondent.

The annual rate appears out of range. The total cash assistance received in 2025 was \$(amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q59e3

According to my calculations (name/you) received \$(total) altogether in cash assistance from a state or county program in 2025. Does that sound about right?

- <1> Yes
- <2> No

Q59e4

What is your best estimate of the correct amount of cash assistance (name/you) received during 2025?

- * PREVIOUS ENTRIES: Q59e: (amount)
Q59ep: (periodicity)
Q59e2: (number of pay periods)
 - * Enter dollar amount
-

Q59f

Was the cash assistance for adults AND children in the household, or JUST

children?

- <1> Both adults AND children
- <2> Children only
- <3> Adults only

Q59g

(Who/Which children) in your household was the cash assistance for?

- * Probe: Anyone Else?
- * Enter all that apply, separate using the space bar or a comma.
- * Enter 0 if none listed
- * Enter 96 for all persons

**5.11 FOOD STAMPS/SUPPLEMENTAL NUTRITION ASSISTANCE
PROGRAM (SNAP) (Amounts)**

Q90p

**What is the easiest way for you to tell us the value of the food assistance:
monthly or yearly?**

- <1> Monthly
- <2> Yearly
- <3> Already included with TANF/AFDC payment

Q90

What is the (monthly) value of the food assistance received in 2025?

- * Enter dollar amount

Q90rn1

Could you tell me if the value of food assistance received in 2025 was

**less than \$1,000
between \$1,000 and \$3,000
or over \$3,000**

- <1> Less than \$1,000
- <2> Between \$1,000 and \$3,000
- <3> Over \$3000

Q90rn2

Was the value

**less than \$100
between \$100 and \$500
or over \$500**

in food assistance in 2025?

- <1> Less than \$100
<2> Between \$100 and \$500
<3> Over \$500

Q902

How many months was food assistance received in 2025?

* (1-12)

Q90C2

* Do not read to the respondent.

The annual rate appears out of range. The total food assistance payments received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q903

According to my calculations \$(total) was received altogether from food assistance in 2025. Does that sound about right?

- <1> Yes
<2> No

Q904

What is your best estimate of the correct amount of food assistance received during 2025?

* PREVIOUS ENTRIES: Q90: (amount)
Q90p: (periodicity)
Q902: (number of pay periods)

* Enter dollar amount

5.12 PENSIONS (Amounts)

Q62E1PR

What is the easiest way for you to tell us (name's/your) (first answer fill-in from Q62CR/Q62cS1); weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week
- <3> Twice a month
- <4> Monthly
- <7> Yearly

Q62E1R

How much did (name/you) receive (weekly/every other week/twice a month/monthly) in (first answer fill-in from Q62CR/Q62cS1) in 2025?

* Enter dollar amount

Q62E1rn1

Could you tell me if (you/name) received

**less than \$10,000
between \$10,000 and \$20,000
or over \$20,000**

in (first answer fill-in from Q62CR/Q62cS1) in 2025?

- <1> Less than \$10,000
- <2> Between \$10,000 and \$20,000
- <3> Over \$20,000

Q62E1rn2

Did (you/name) receive

**less than \$1,000
between \$1,000 and \$5,000
or over \$5,000**

in (first answer fill-in from Q62CR/Q62cS1) in 2025?

- <1> Less than \$1,000

- <2> Between \$1,000 and \$5,000
<3> Over \$5,000

Q62E12R

How many (weekly/every other week/twice a month/monthly) payments did (name/you) receive in (first answer fill-in from Q62CR/Q62cS1) in 2025?

* Pension/Retirement #1 (1-12; 1-52)

Q62E1CR

* Do not read to the respondent.

The annual rate appears out of range. The total (fill from first answer in Q62CR/Q62cS1) payments received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q62E13R

According to my calculations (name/you) received (total) dollars altogether from (first answer fill-in from Q62CR/Q62cS1) in 2025. Does that sound about right?

- <1> Yes
<2> No

Q62E14R

What is your best estimate of the correct amount (name/you) received in (first answer fill-in from Q62CR/Q62cS1) during 2025?

* PREVIOUS ENTRIES: Q62E1: (amount)
Q62E1P: (periodicity)
Q62E12: (number of pay periods)

* Enter dollar amount

Q62E2PR

What is the easiest way for you to tell us (name's/your) (second answer fill-in from Q62CR/Q62cS1); weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
<2> Every other week
<3> Twice a month
<4> Monthly

<7> Yearly

Q62E2R

How much did (name/you) receive (weekly/every other week/twice a month/monthly) in (second answer fill-in from Q62CR/Q62cS1) in 2025?

* Enter dollar amount

Q62E2rn1

Could you please tell me if (name/you) received

less than \$10,000

between \$10,000 and \$20,000

or over \$20,000

in (second answer fill-in from Q62CR/Q62cS1) payments in 2025?

<1> Less than \$10,000

<2> Between \$10,000 and \$20,000

<3> Over \$20,000

Q62E2rn2

Did (name/you) receive

less than \$1,000

between \$1,000 and \$5,000

or over \$5,000

in (second answer fill-in from Q62CR/Q62cS1) in 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$5,000

<3> Over \$5,000

Q62E22R

How many (weekly/every other week/twice a month/monthly) payments did (name/you) receive in (second answer fill-in from Q62CR/Q62cS1) in 2025?

* Pension/Retirement #1 (1-12; 1-52)

Q62E2CR

- * Do not read to the respondent.

The annual rate appears out of range. The total (fill from second answer in Q62CR/Q62cS1) payments received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q62E23R

According to my calculations (name/you) received \$(total) dollars altogether from (second answer fill-in from Q62CR/Q62cS1) in 2025. Does that sound about right?

- <1> Yes
- <2> No

Q62E24R

What is your best estimate of the correct amount (name/you) received in (second answer fill-in from Q62CR/Q62cS1) during 2025?

- * PREVIOUS ENTRIES: Q62E1: (amount)
Q62E1P: (periodicity)
Q62E12: (number of pay periods)

- * Enter dollar amount

5.13 ANNUITIES (Amounts)

ANNNEW1

What is the easiest way for you to tell us (name/your) annuity income; weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week
- <3> Twice a month
- <4> Monthly
- <7> Yearly

ANNNEW2

How much did (name/you) receive (weekly/every other week/twice a month/monthly) in annuities in 2025?

- * Enter dollar amount

ANNNEWrn1

Could you tell me if (name/you) received

less than \$10,000

between \$10,000 and \$20,000

or over \$20,000

in annuity payments in 2025?

<1> Less than \$10,000

<2> Between \$10,000 and \$20,000

<3> Over \$20,000

ANNNEWrn2

Did (name/you) receive

less than \$1,000

between \$1,000 and \$5,000

or over \$5,000

in annuity payments in 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$5,000

<3> Over \$5,000

ANNNEW3

How many (weekly/every other week/twice a month/monthly) payments did (name/you) receive in 2025?

* (1-12; 1-52)

ANNNEW4

According to my calculations (name/you) received \$(total) dollars altogether from annuities in 2025. Does that sound about right?

<1> Yes

<2> No

ANNNEW5

What is your best estimate of the correct amount (name/you) received in annuities in 2025?

* Enter dollar amount

5.14 WITHDRAWALS/DISTRIBUTIONS FROM RETIREMENT PLAN
(Amounts)

DISTNEW1

What is the easiest way for you to tell us the amount of money withdrawn or distributed from (name's/your) (1st account type fill-in from Q97CR or Q97DR) in 2025: monthly, quarterly, every 6 months, or yearly?

- <4> Monthly
- <5> Quarterly
- <6> Every 6 months
- <7> Yearly

DISTNEW2

How much was (name's/your) withdrawal or distribution (weekly/every other week/twice a month/monthly) from (1st account type fill-in from Q97CR or Q97DR) in 2025?

* Enter dollar amount

DISTNEW3

How many (monthly/quarterly) withdrawals did (name/you) make or distributions did (name/you) receive in 2025 from the (1st account type fill-in from Q97CR or Q97DR)?

♦ Valid entries are 1-12 if monthly; 1-4 if quarterly; 1-2 if every six months

DISTNEWrn1

Could you please tell me if (name's/your) withdrawal or distribution was

less than \$10,000
between \$10,000 and \$20,000
or over \$20,000

from (your/his/her) (1st account type fill-in from Q97CR or Q97DR) in 2025?

- <1> Less than \$10,000
- <2> Between \$10,000 and \$20,000
- <3> Over \$20,000

DISTNEWrn2

Was (name's/your) withdrawal or distribution

**less than \$1,000
between \$1,000 and \$5,000
or over \$5,000**

from (your/his/her) (1st account type fill-in from Q97CR or Q97DR) in 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$5,000
- <3> Over \$5,000

DISTNEW4

According to my calculations (name/you) withdrew or received a distribution of \$(total) altogether from the (1st account type fill-in from Q97CR or Q97DR) in 2025. Does that sound about right?

- <1> Yes
- <2> No

DISTNEW5

What is your best estimate of the correct amount (name/you) withdrew or the distribution received from the (1st account type fill-in from Q97CR or Q97DR) during 2025?

*** Enter dollar amount**

ROLLA

Did (you/name) re-invest or "roll over" any of the money into an IRA or some other kind of retirement plan?

- <1> Yes
- <2> No

ROLLAMTA

How much did (you/name) re-invest or “roll over” into an IRA or some other kind of retirement plan in 2025?

- * Enter dollar amount
 - * Dollar amount should not exceed amount of withdrawals reported.
 - * Amount of withdrawals reported: \$(amount)
-

ROLLB

(Do/Does) (you/name) plan to re-invest or roll over any of the money?

- <1> Yes
- <2> No

ROLLAMTB

How much (do/does) (you/name) plan to re-invest or “roll over” into an IRA or some other kind of retirement plan?

- * Enter dollar amount
 - * Dollar amount should not exceed amount of withdrawals reported.
 - * Amount of withdrawals reported: \$(amount)
-

DISTNEW6

What is the easiest way for you to tell us the amount of money withdrawn or distributed from (name's/your) (2nd account type fill-in from Q97CR or Q97DR) in 2025: monthly, quarterly, every 6 months, or yearly?

- <4> Monthly
- <5> Quarterly
- <6> Every 6 months
- <7> Yearly

DISTNEW7

How much was (name's/your) withdrawal or distribution (weekly/every other week/twice a month/monthly) from (your/his/her) (2nd account type fill-in from Q97CR or Q97DR) in 2025?

- * Enter dollar amount
-

DISTNEW8

How many (monthly/quarterly) withdrawals did (name/you) make or distributions did (name/you) receive in 2025 from the (2nd account type fill-in from Q97CR or Q97DR)?

* (1-12), (1-4), (1-2)

DISTNEWrn3

Could you please tell me if (name's/your) withdrawal or distribution was

less than \$10,000

between \$10,000 and \$20,000

or over \$20,000

from (your/his/her) (2nd account type fill-in from Q97CR or Q97DR) in 2025?

<1> Less than \$10,000

<2> Between \$10,000 and \$20,000

<3> Over \$20,000

DISTNEWrn4

Was (name's/your) withdrawal or distribution

less than \$1,000

between \$1,000 and \$5,000

or over \$5,000

from (your/his/her) (2nd account type fill-in from Q97CR or Q97DR) in 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$5,000

<3> Over \$5,000

DISTNEW9

According to my calculations (name/you) withdrew or received a distribution of \$(total) altogether from the (2nd account type fill-in from Q97CR or Q97DR) in 2025. Does that sound about right?

<1> Yes

<2> No

DISTNEW10

What is your best estimate of the correct amount (name/you) withdrew or the distribution received from the (2nd account type fill-in from Q97CR or Q97DR) during 2025?

* Enter dollar amount

ROLLC

Did (you/name) re-invest or "roll over" any of the money into an IRA or some other kind of retirement plan?

<1> Yes

<2> No

ROLLAMTC

How much did (you/name) re-invest or "roll over" into an IRA or some other kind of retirement plan in 2025?

* Enter dollar amount

* Dollar amount should not exceed amount of withdrawals reported.

* Amount of withdrawals reported: \$(amount)

ROLLD

(Do/Does) (you/name) plan to re-invest or roll over any of the money?

<1> Yes

<2> No

ROLLAMTD

How much (do/does) (you/name) plan to re-invest or "roll over" into an IRA or some other kind of retirement plan?

* Enter dollar amount

* Dollar amount should not exceed amount of withdrawals reported.

* Amount of withdrawals reported: \$(amount)

5.15 INTEREST/DIVIDENDS ON RETIREMENT ACCOUNTS (Amounts)

RETIRENEW1

Within the (1st account type fill-in from Q97CR/Q97DR) account, how much did (name/you) earn in interest or dividends during 2025? Please include small amounts reinvested or credited to the account.

* Enter dollar amount

RETIRENEWrn1

Could you tell me if (name/you) earned

less than \$1,000
between \$1,000 and \$3,000
or over \$3,000

in interest or dividends from (your/his/her) (1st account type fill-in from Q97CR/Q97DR) during 2025?

<1> Less than \$1,000
<2> Between \$1,000 and \$3,000
<3> Over \$3,000

RETIRENEWrn2

Did (name/you) earn

less than \$100
between \$100 and \$500
or over \$500

in interest or dividends from (your/his/her) (1st account type fill-in from Q97CR/Q97DR) during 2025?

<1> Less than \$100
<2> Between \$100 and \$500
<3> Over \$500

RETIRENEW2

The Census Bureau can estimate the amount earned in this account based on the size of the account. So can you tell me how much money was in (name's/your) (1st account type fill-in from Q97CR/Q97DR) account at the end of 2025?

* Enter dollar amount

RETIRENEW3

Within the (2nd account type fill-in from Q97CR/Q97DR) account, how much did (name/you) earn in interest or dividends during 2025? Please include small amounts reinvested or credited to the account.

* Enter dollar amount

RETIRENEWrn3

Could you tell me if (name/you) earned

less than \$1,000

between \$1,000 and \$3,000

or over \$3,000

in interest or dividends from (your/his/her) (2nd account type fill-in from Q97CR/Q97DR) during 2025?

<4> Less than \$1,000

<5> Between \$1,000 and \$3,000

<6> Over \$3,000

RETIRENEWrn4

Did (name/you) earn

less than \$100

between \$100 and \$500

or over \$500

in interest or dividends from (your/his/her) (2nd account type fill-in from Q97CR/Q97DR) during 2025?

<4> Less than \$100

<5> Between \$100 and \$500

<6> Over \$500

5.16 INTEREST/DIVIDENDS ON NON-RETIREMENT ACCOUNTS **(Amounts)**

NONRETIRENEW(1-7)1

How much did (you/name) receive in (interest/dividends) from [fill-in from Q99AR or Q99BR] during 2025, including even small amounts reinvested or credited to accounts?

- * If a joint account please split interest income in half for each person.
- * Enter dollar amount

NONRETIRENEW(1-7)rn1

Could you tell me if (you/name) received:

**less than \$1,000
between \$1,000 and \$3,000
or over \$3,000**

in (interest/dividends) from [fill-in from Q99AR or Q99BR] during 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$3,000
- <3> Over \$3,000

NONRETIRENEW(1-7)rn2

Did (you/name) receive:

**less than \$100
between \$100 and \$500
or over \$500**

in (interest/dividends) from [fill-in from Q99AR or Q99BR] during 2025?

- <1> Less than \$100
- <2> Between \$100 and \$500
- <3> Over \$500

NONRETIRENEW(1-7)2

The Census Bureau can estimate the amount earned in this account based on the size of the account. How much money did (you/name) have in [fill-in from Q99AR or Q99BR] at the end of 2025?

- * Enter dollar amount

Q63(c-i)p

* Read if necessary

Is this a weekly, every other week, twice a month, monthly, quarterly, every 6 months, or yearly amount?

- <1> Weekly
- <2> Every other week
- <3> Twice a month
- <4> Monthly
- <5> Quarterly
- <6> Every 6 months
- <7> Yearly

Q63(c-i)2

How many (weekly/every other week/twice a month/monthly/quarterly/every 6 months) payments did (you/name) receive in interest/dividend income in 2025 from [fill-in from Q99AR or Q99BR]?

Q63(c-i)3

According to my calculations (you/name) received \$(total) from interest/dividend income from [fill-in from Q99AR or Q99BR] in 2025. Does that sound about right?

- <1> Yes
- <2> No

Q63(c-i)4

What is your best estimate of the correct amount (you/NAME) received from interest payments during 2025?

* PREVIOUS ENTRIES: Q63(c-i): (amount)
Q63(c-i)p: (periodicity)
Q63(c-i)2: (number of pay periods)

* Enter dollar amount

CAPGDAMT

How much did (you/name) receive in capital gains in 2025?

* Enter dollar amount

CAPGDAMTrn1

Could you tell me if (name/you) received:

less than \$10,000

between \$10,000 and \$20,000

or over \$20,000

in capital gains during 2025?

<1> Less than \$10,000

<2> Between \$10,000 and \$20,000

<3> Over \$20,000

CAPGDAMTrn2

Did (name/you) receive:

less than \$1,000

between \$1,000 and \$5,000

or over \$5,000

in capital gains distributions during 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$5,000

<3> Over \$5,000

5.17 PROPERTY INCOME (Amounts)

Q65c

How much did (name/you) receive in income from rent AFTER EXPENSES during 2025?

- * Separate amounts for joint ownership
 - * If response is "Broke Even" then enter 1.
 - * Enter dollar amount
 - * If already included in amount reported for another household member, press Enter
 - * If response is "None" or "Lost Money" press <Enter> key
-

Q65c Char

- * Enter "A" for Already included
- * Enter "L" for Lost Money

* Enter "X" for None

Q65cL

* Enter amount of money lost in 2025.

Q65crn1

Could you please tell me if (name/you) received:

less than \$10,000

between \$10,000 and \$20,000

or over \$20,000

**for the TOTAL amount (name/you) received in income from rent AFTER
EXPENSES during 2025?**

<1> Less than \$10,000

<2> Between \$10,000 and \$20,000

<3> Over \$20,000

Q65crn2

Did (name/you) receive:

less than \$1,000

between \$1,000 and \$5,000

or over \$5,000

in income from rent AFTER EXPENSES during 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$5,000

<3> Over \$5,000

Q65cp

**Is this a weekly, every other week, twice a month, monthly, quarterly, or yearly
amount?**

<1> Weekly

<2> Every other week

<3> Twice a month

<4> Monthly

<5> Quarterly

<7> Yearly

Q65c2

What is your best estimate of (name's/your) ANNUAL net income from rent AFTER EXPENSES in 2025?

* PREVIOUS ENTRIES: Q65c: (amount)
 Q65cp: (periodicity)

* Enter dollar amount

Q65cC2

* Do not read to the respondent.

The annual rate appears out of range. The total income received from rent (roomers or boarders, estates, trusts, or royalties) was (amount) in 2025. Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q65c2L

What is your best estimate of (name's/your) ANNUAL LOSS from rent AFTER EXPENSES in 2025?

* PREVIOUS ENTRIES: Q65cL: (amount)
 Q65cp: (periodicity)

* Enter dollar amount

5.18 EDUCATIONAL ASSISTANCE (Amounts)

Q69F88

How much did (name/you) receive in Pell Grants during 2025?

* Enter annual amount only

Q69Frn1

Could you please tell me if (name/you) received:

less than \$1,000

between \$1,000 and \$3,000

or over \$3,000

for the TOTAL amount (name/you) received in Pell Grants during 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$3,000
- <3> Over \$3,000

Q69Frn2

Did (name/you) receive:

**less than \$100
between \$100 and \$500
or over \$500**

in Pell Grants during 2025?

- <1> Less than \$100
- <2> Between \$100 and \$500
- <3> Over \$500

Q66HP

What is the easiest way for you to tell us (name's/your) (other/blank) educational assistance during 2025: weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week (bi-weekly)
- <3> Twice a month
- <4> Monthly
- <7> Yearly

Q66H

(Aside from the Pell Grant assistance, how/How) much did (name/you) receive (weekly/every other week/ twice a month/ monthly) in educational assistance during 2025?

* [Enter dollar amount](#)

Q66H2

How many (weekly/every other week/ twice a month/ monthly) payments did (name/you) receive in educational assistance in 2025?

* (1-12/1-24/1-26/1-52)

Q66Hrn1

Could you please tell me if (name/you) received:

**less than \$1,000
between \$1,000 and \$3,000
or over \$3,000**

for the TOTAL amount (name/you) received in educational assistance during 2025?

<1> Less than \$1,000
<2> Between \$1,000 and \$3,000
<3> Over \$3,000

Q66Hrn2

Did (name/you) receive:

**less than \$100
between \$100 and \$500
or over \$500**

in educational assistance during 2025?

<1> Less than \$100
<2> Between \$100 and \$500
<3> Over \$500

Q66HC2

* Do not read to the respondent.

The annual rate appears out of range. The total educational assistance received in 2025 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q66H3

According to my calculations (name/you) received \$(total) altogether from educational assistance in 2025. Does that sound about right?

<1> Yes
<2> No

Q66H4

What is your best estimate of the correct amount (name/you) received from educational assistance during 2025?

* Previous entries: Q66h: (amount)
 Q66hp: (periodicity)
 Q66h2: (number of pay periods)

* Enter dollar amount

5.19 CHILD SUPPORT (Amounts)

Q70cp

What is the easiest way for you to tell us (name's/your) child support payments: weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week (bi-weekly)
- <3> Twice a month
- <4> Monthly
- <7> Yearly

Q70c

How much did (name/you) receive (weekly/ every other week/ twice a month/ monthly) in child support payments in 2025?

* Enter dollar amount

Q70c2

How many (weekly/every other week/ twice a month/ monthly) child support payments did (name/you) receive in 2025?

* (1-12/1-24/1-26/1-52)

Q70c1rn1

Could you please tell me if (name/you) received:

less than \$10,000
between \$10,000 and \$20,000

or over \$20,000

for the TOTAL amount (name/you) received in child support payments in 2025?

- <1> Less than \$10,000
- <2> Between \$10,000 and \$20,000
- <3> Over \$20,000

Q70c1rn2

Did (name/you) receive:

**less than \$1,000
between \$1,000 and \$5,000
or over \$5,000**

in child support payments in 2025?

- <1> Less than \$1,000
- <2> Between \$1,000 and \$5,000
- <3> Over \$5,000

Q70cC2

* Do not read to the respondent.

The annual rate appears out of range. The total child support payments received in 2025 was \$(amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

Q70c3

According to my calculations (name/you) received \$(total) altogether from child support payments in 2025. Does that sound about right?

- <1> Yes
- <2> No

Q70c4

What is your best estimate of the correct amount (name/you) received from child support payments during 2025?

* PREVIOUS ENTRIES: Q70c: (amount)
 Q70cp: (periodicity)
 Q70c2: (number of pay periods)

* Enter dollar amount

5.20 REGULAR FINANCIAL ASSISTANCE (Amounts)

Q72cp

What is the easiest way for you to tell us (name's/your) regular financial assistance; weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week (bi-weekly)
- <3> Twice a month

<1> Enter 1 to Continue

FHINTRO

Next, I'm going to ask about (name's/your) health coverage.

* Press 1 to Continue

6.2 CURRENT COVERAGE

MCARE1

?[F1]

Medicare is health insurance for people 65 years and older and people under 65 with disabilities. (Is/Are) (name/you) NOW covered by Medicare?

* Code Medicare Parts A, B, and C and Medicare Advantage as "Yes"

- <1> Yes
<2> No

ANYCOV

(Does/Do) (name/you) NOW have any type of health plan or health coverage?

- <1> Yes
<2> No

MEDI

?[F1]

(Are/Is/Was/Were) (name/you) covered by Medicaid, Medical Assistance, or (CHIP/or Medicare)?

- <1> Yes
<2> No

OTHGOVT

(Is/Are) (name/you) NOW covered by a state or government assistance program that helps pay for healthcare, such as: State Medicaid, CHIP, Exchange/Portal, or other State Health program?

* Stop reading list if respondent says "YES"

- <1> Yes
<2> No

VET

(Is/Are) (name/you) NOW covered by Veteran's Administration (VA) care?

- <1> Yes
<2> No

VERIFY

I recorded that (name/you) (is/are) not currently covered by a health plan. Is that correct?

- <1> Yes, is NOT covered
<2> No, is covered

6.3 TYPE OF COVERAGE

SRCEGEN

?[F1]

* ASK OR VERIFY

For the coverage (name/you) (has/have/had) NOW, (do/does/did) (he/she/you) get it through a job, the government or state, or some other way?

* **1. JOB**

Former job/Retiree
Union
Spouse/parent's job
Job with the government
COBRA
TRICARE/TRICARE For Life

**2. GOVERNMENT OR
STATE**

Medical Assistance
Medicaid
Medicare (Parts A+B; Part C)
Medicare Advantage
State-provided health coverage
VA Care/CHAMPVA/other
military

3. OTHER WAY

Privately purchased
Parent or spouse
Medicare Supplements
Exchange plan/Marketplace
Group or association
School

- * IF RESPONDENT CHOOSES MORE THAN ONE: Let's talk about one plan at a time. Which would you like to tell me about first?

[♦ If respondent is not covered, go back to VERIFY and select "Yes"]

- <1> Job (current or former)
<2> Government or State
<3> Some other way

SRCEDEPDIR

* ASK OR VERIFY

(Does/Do/Did) (name/you) get that coverage through a parent or spouse, (does/do/did) (he/she/you) buy it (himself/herself/yourself), or (does/did/do) (he/she/you) get it some other way?

* **1. PARENT OR SPOUSE**

Parent
Spouse

2. BUY IT DIRECTLY

Buy it
Parent or spouse buys it
Medicare Supplement

3. SOME OTHER WAY

Former employer
Group or association
Indian Health Service
School

- <1> Parent or spouse
<2> Buy it

<3> Some other way

SRCEOTH

* ASK OR VERIFY

(Does/Do/Did) (name/you) get it through a former employer, a union, a group or association, the Indian Health Service, a school, or some other way?

- <1> Former employer
- <2> Union
- <3> Group or association
- <4> Indian Health Service
- <5> School
- <6> Some other way

JOBCOV

(Is/Was) that coverage related to a JOB with the government or state?

* READ IF NECESSARY: Include coverage through FORMER employers and unions, and COBRA plans.

- <1> Yes
- <2> No

MILPLAN

* ASK OR VERIFY

(Is/Was) that plan related to military service in any way?

* Examples of military plans include:

- VA Care
- TRICARE
- TRICARE for Life
- CHAMPVA
- Other military care

- <1> Yes
- <2> No

GOVTYPE

?[F1]

* ASK OR VERIFY

(Is/Was) that coverage Medicaid, CHIP, Medicare, a plan through the military, or some other program?

* Code Medicare Parts A, B, and C and Medicare Advantage as "Medicare"

* IF RESPONDENT CHOOSES MORE THAN ONE: Let's talk about one plan at a time. Which would you like to tell me about first?

- <1> Medicaid or Medical Assistance
- <2> CHIP
- <3> Medicare
- <4> Military
- <5> Other

MILTYPE

* ASK OR VERIFY

(Is/Was) that plan through TRICARE, TRICARE for Life, CHAMPVA, VA Care, military health care, or something else?

- <1> TRICARE
- <2> TRICARE for Life

Enter persons line number (1-16), or 17 for person not in the household

SRCEPTSP

* ASK OR VERIFY

(Do/Did) they get that coverage through their job, (do/did) they buy it themselves, or (do/did) they get it some other way?

- <1> Job (current or former)
- <2> Buy it

<3> Some other way

GOVPLAN

* ASK OR VERIFY

What do you call the program?

* IF RESPONDENT ANSWERS WITH INSURANCE COMPANY NAME: OK, so that would be the plan name. What do you call the program? Some examples of programs in (state) are [read full list below].

<1>	Medicaid
<2>	Medical Assistance
<3>	Indian Health Service (IHS)
<4-12>	State Medicaid Programs Names
<13-15>	State Exchange Programs Names
<16>	Plan through State Exchange Portal
<17>	Other government plan
<18>	Other (please specify)

MISCSPEC

Please Specify

Write in plan name

PORTAL

* ASK OR VERIFY

(Is/Was) that coverage through (State Exchange Portal Name), which may also be known as (State Exchange Program Name 1, Name 2, Name 3)?

<1>	Yes
<2>	No

EXCHTYPE

* ASK OR VERIFY

What do you call it – State Exchange Program (Portal, Name 1, Name 2, Name 3)?

<1-4> State Exchange Programs Names

HIP AID

(Does/Did) (your/policyholder name's/the policyholder's) employer or union pay for all, part, or none of the health insurance premium?

* Report here employer's contribution to employee's health insurance premiums, not the employee's medical bills.

- <1> All
- <2> Part
- <3> None

SHOP

Small businesses can offer health coverage to their employees through (State Exchange SHOP Portal Name). (Is/Was) the coverage at all related to (State Exchange SHOP Portal Name), (such as State SHOP Name 1, Name 2, Name 3)?

- <1> Yes
- <2> No

POLHOLDER2

* ASK OR VERIFY

Whose name (is/was) the policy in? (Who [is/was] the policyholder?)

- <1-16> Name on roster
- <17> Someone living outside the household

Enter persons line number (1-16), or 17 for person not in the household

PREMYN

Is there a monthly premium for this plan?

* A monthly premium is a fixed amount of money people pay each month to have health coverage. It does not include copays or other expenses such as prescription costs.

- <1> Yes
- <2> No

PREMSUBS

Is the cost of the premium subsidized based on (your/family) income?

- * A monthly premium is a fixed amount of money people pay each month to have health coverage. It does not include copays or other expenses such as prescription costs.
- * Subsidized health coverage is insurance with a reduced premium. Low and middle income families are eligible to receive tax credits that allow them to pay lower premiums for insurance bought through healthcare exchanges or marketplaces.

<1> Yes
<2> No

6.4 MONTHS OF COVERAGE

BEFORAFT

Did (name's/your) coverage from (plan type) start before January 1, 2025?

- * READ IF NECESSARY: Your best estimate is fine.
- * (READ IF NECESSARY: If (policyholder) switched employers or plans through (your/their) employer, consider it the same plan.)
- ◆ (READ IF NECESSARY: If (policyholder) switched plans that (you/he/she) (buy/buys), consider it the same plan.)

<1> Yes
<2> No

MNTHBEG1/2

In which month did (that/this) coverage start?

- * READ IF NECESSARY: Your best estimate is fine.
- * (READ IF NECESSARY: If (policyholder) switched employers or plans through (your/their) employer, consider it the same plan.)

- <2> 2026

CNTCOV

Has it been continuous since (beginning month)?

- * (READ IF NECESSARY: If (policyholder) switched employers or plans through (your/their) employer, consider it the same plan.)
- ◆ (READ IF NECESSARY: If (policyholder) switched plans that (you/he/she) (buy/buys), consider it the same plan.)
- * READ IF NECESSARY: If the gap in coverage was less than 3 weeks, consider the coverage "continuous."
- * This question refers to (plan type).

- <1> Yes
- <2> No

SPELLADD

I have recorded that (name/you) (was/were) covered by (plan type) in (months of coverage). Were there any OTHER months between January 2025 and now that (name/you) (was/were) also covered by (plan type)?

- <1> Yes
- <2> No

ANYTHIS

Which months (was/were) (name/you) covered by (plan type) THIS year -- in 2026?

- <1> January 2026
- <2> February 2026
- <3> March 2026
- <4> April 2026
- <20> All months of 2026
- <21> No months of 2026

ANYLAST

Which months (was/were) (name/you) covered by (plan type) LAST year -- in 2025?

- <1> January
- <2> February
- <3> March
- <4> April
- <5> May
- <6> June
- <7> July
- <8> August
- <9> September
- <10> October
- <11> November
- <12> December
- <20> All months from January 2025 until December 2025
- <21> No months from January 2025 until December 2025

WMNTHS

Which months between January 2025 and now (was/were) (name/you) covered by (plan type)?

- <1> January 2025
- <2> February 2025
- <3> March 2025
- <4> April 2025
- <5> May 2025
- <6> June 2025
- <7> July 2025
- <8> August 2025
- <9> September 2025

- <10> October 2025
- <11> November 2025
- <12> December 2025
- <13> January 2026
- <14> February 2026
- <15> March 2026
- <16> April 2026
- <20> All months from January 2025 until now
- <21> No months from January 2025 until now

6.5 OTHER HOUSEHOLD MEMBERS

OTHMEMB

Between January 1, 2025 and now, was anyone in the household other than (name/you) ALSO covered by (plan type)?

- <1> Yes
- <2> No

COVWHO

Who else was covered? Who else was covered by (plan type)?

✦ **PROBE: Anyone else?**

- <0> No one listed
- <1-16> Person 1 through 16's name
- <96> All persons listed

SAMEMNTHS

(Was/Were) (name/names) also covered from January 2025 until now?

✦ **This question refers to (plan type)**

- <1> All also covered from January 2025 until now
- <2> None covered from January 2025 until now

MNTHS P(1-16)M

Which months between January 2025 and now was (NAME) covered? [How about (NAME)?]

✦ **This question refers to (plan type)**

- <1> January 2025

- <2> February 2025
- <3> March 2025
- <4> April 2025
- <5> May 2025
- <6> June 2025
- <7> July 2025
- <8> August 2025
- <9> September 2025
- <10> October 2025
- <11> November 2025
- <12> December 2025
- <13> January 2026
- <14> February 2026
- <15> March 2026
- <16> April 2026
- <20> All months from January 2026 until now
- <21> No months from January 2026 until now

OTHOUT

Does that plan cover anyone living outside this household?

* This question refers to (plan type)

- <1> Yes
- <2> No

OTHWHO

How old are they -- under 19, 19-25, or older than 25?

* Mark all that apply

- <1> Under 19
- <2> 19-25 years old
- <3> Older than 25

6.6 ADDITIONAL PLANS

ADDGAP

So far, I have recorded that (name/you) (was/were) NOT covered in (months of no coverage). (Was/Were) (name/you) covered by any type of health plan or health coverage in (those months/that month)?

* READ IF NECESSARY: Do not include plans that cover only one type of care, such as dental or vision plans.

- <1> Yes
- <2> No

ADDOTH

Other than (plan type[s]), (was/were) (name/you) covered by any other type of health plan or health coverage AT ANY TIME between January 1, 2025 and now?

* **READ IF NECESSARY: Do not include plans that cover only one type of care, such as dental or vision plans.**

- <1> Yes
- <2> No

6.7 EMPLOYER-SPONSORED INSURANCE OFFERS AND TAKEUP

ESIINTRO

Earlier I recorded that (name/you) (is/are) employed but (does/do) not have health coverage through (his/her/your) job.

- <1> Enter to 1 continue

OFFER

Does (employer name) offer a health insurance plan to any of its employees?

- <1> Yes
- <2> No

COULD

Could (name/you) be in this plan if (he/she/you) wanted to?

- <1> Yes
- <2> No

WNTAKE

Why (aren't/isn't) (you/he/she) in this plan?

* **Choose all that apply**

- <1> Covered by another plan
- <2> Traded health insurance for higher pay
- <3> Too expensive

- <4> Don't need health insurance
- <5> Have a pre-existing condition
- <6> Haven't yet worked for this employer long enough to be covered
- <7> Contract or temporary employees not allowed in plan
- <8> Other/specify

WNTAKESPEC

Please specify other reason why not in the plan

WNEBIG

Why not? Why can't (name/you) be in this plan if (he/she/you) wanted to?

* Choose all that apply

- <1> Don't work enough hours per week or weeks per year
- <2> Contract or temporary employees not allowed in plan
- <3> Haven't yet worked for this employer long enough to be covered
- <4> Have a pre-existing condition
- <5> Too expensive
- <6> Other/specify

WNEBIGSPEC

Please specify other reason why not eligible.

6.8 HEALTH STATUS

HealthStatus Intro

An important factor in evaluating a person's or family's health insurance situation is their current health status and/or the current health status of other family members.

<1> Enter 1 to Continue

HealthStatus

Would you say (name's/your) health in general is excellent, very good, good, fair, or poor?

- <1> Excellent
- <2> Very good
- <3> Good
- <4> Fair

<5> Poor

6.9 MEDICAL EXPENDITURES

MedExp Intro

Next I would like to ask about out-of-pocket medical expenses during 2025.

* Press 1 to Continue

<1> Enter 1 to continue

HIPREM

[Earlier I recorded that (your/name's) employer or union did not pay for (your/his/her) entire health insurance premium.] Last year, how much did (you/name) pay out-of-pocket for ALL health insurance premiums [covering (yourself/himself/herself) or others in the household]? Include both comprehensive and supplemental plans (such as vision and dental insurance).

[What about (you/name)?]

[DO NOT include the \$(amount reported) per month from Medicare deductions from (Social Security/ Social Security Disability/ Social Security and Social Security Disability) payments mentioned earlier.]

* Enter dollar amount

MEDAMT

?[F1]

Last year, how much was paid out-of-pocket for (your/name's) OWN medical care, such as copays for doctor and dentist visits, diagnostic tests, prescription medicine, glasses and contacts, and medical supplies?

[What about (you/name)? Last year, how much was paid out-of-pocket for (your/name's) OWN medical care, such as copays for doctor and dentist visits, diagnostic tests, prescription medicine, glasses and contacts, and medical supplies?]

Include any amount paid out-of-pocket on (your/his/her) behalf by anyone in this household.

* Enter dollar amount

OTCMEDAMT

Last year, how much was paid out-of-pocket for (your/name's) non-prescription healthcare products such as vitamins, allergy and cold medicine, pain relievers, quit smoking aids, AND anything else not yet reported?

[What about (you/name)? Last year, how much was paid out-of-pocket for (your/name's) non-prescription healthcare products such as vitamins, allergy and cold medicine, pain relievers, quit smoking aids, AND anything else not yet reported?]

Include any amount paid out-of-pocket on (your/his/her) behalf by anyone in this household.

* Enter dollar amount

* If unsure of the amount, a best guess is acceptable.

7 EMPLOYER'S PENSION PLAN

Q74a

Other than Social Security did (the/any) employer or union that (name/you) worked for in 2025 have a pension or other type of retirement plan for any of its employees?

<1> Yes

<2> No

Q74b

(Were/Was) (name/you) included in that plan?

<1> Yes

<2> No

8 LOW INCOME ITEMS

8.1 SCHOOL LUNCHES

Q80

During 2025 which of the children ages 5 to 18 in this household usually ate a complete lunch offered at school?

- * Probe: Anyone else?
- * Enter all that apply, separate using the space bar or a comma.
- * Enter 96 for All
- * Enter 0 for None

Q83

During 2025 which of the children in this household received free or reduced priced lunches because they qualified for the Federal School Lunch Program or their school provided free lunches to all students?

- * Probe: Anyone else?
- * Enter all that apply, separate using the space bar or a comma.
- * Enter 96 for All
- * Enter 0 for None

SEBT

During 2025, did you or anyone in this household receive Summer EBT or SUN Bucks?

- <1> Yes
- <2> No

8.2 PUBLIC HOUSING

Q85

Is this public housing, that is, is it owned by a local housing authority or other public agency?

- <1> Yes
- <2> No

Q86

Are you paying lower rent because the Federal, State, or local government is paying part of the cost?

- <1> Yes
- <2> No

8.3 WOMEN, INFANTS, AND CHILDREN NUTRITION PROGRAM (WIC)

SWRWIC

At any time during 2025, (was/were) (you/ anyone in this household) on WIC, the Women, Infants, and Children Nutrition Program?

- <1> Yes
- <2> No

SWRW

Who received WIC for themselves or on behalf of a child?

- * Enter all that apply, separate using the space bar or a comma.
- * Probe: Anyone else?

8.4 ENERGY ASSISTANCE

Q93

The government has an energy assistance program which helps pay heating and cooling costs. This assistance can be received directly by the household or it can be paid directly to the electric company, gas company, or fuel dealer.

In 2025, (did you/did this household) receive assistance of this type from the federal, state, or local government?

- <1> Yes
- <2> No

Q93pr1

Do you remember receiving an additional or unexpected check that was sent during the year to help pay heating or cooling costs?

- <1> Yes
- <2> No

Q93pr2

Was it used to pay heating costs?

- <1> Yes
- <2> No

Q94

Altogether, how much energy assistance has been received in 2025?

* Enter annual amount only

Q94rn1

Could you tell me if you received:

less than \$1,000

between \$1,000 and \$3,000

or over \$3,000

in energy assistance during 2025?

<1> Less than \$1,000

<2> Between \$1,000 and \$3,000

<3> Over \$3000

Q94rn2

Did you receive:

less than \$100

between \$100 and \$500

or over \$500

in energy assistance during 2025?

<1> Less than \$100

<2> Between \$100 and \$500

<3> Over \$500

9 MIGRATION

9.1 1-YEAR MIGRATION

MIGSAM

(Were/Was) (you/reference person's name) living in this house (or apartment) one year ago?

<1> Yes, this house (apt)

<2> No, different house in U.S.

<3> No, outside the U.S.

MIGPLC

Where did (reference person's name/you) live one year ago?

- * Name of city/town/post office
 - * Current: (city)
 - * Enter correct city/town/post office or press ENTER for SAME
-

MIGSTA

Where did (reference person's name/you) live one year ago?

- * Name of State
 - * Current: (state)
 - * Enter W for person living on a ship at sea
 - * Enter correct State or press ENTER for SAME
-

MIGZIP

Where did (reference person's name/you) live one year ago?

- * Zip Code
 - * Current: (zip)
 - * Enter correct Zip Code or press ENTER for SAME
-

MIGCLM

Did (reference person's name/you) live inside the city limits of (place name)?

- <1> Yes, inside city limits
- <2> No, outside city limits or post office name only

MIGCOU

What (county/parish) is (place name) in?

- * Enter "IND CITY" if an independent city, not a county
-

S MIGCN1

What country did (reference person's name/you) live in one year ago?

MI1RES

What was (your/name's) main reason for moving to this house (apartment)?

* The answer categories are separated into the following groups:

FAMILY-RELATED REASONS* 1-3

EMPLOYMENT-RELATED REASONS 5-9

HOUSING-RELATED REASONS 10-15

OTHER REASONS 4, 16-20

*Family-related reasons only include family as defined by the Census Bureau. Family consists of people who are related by birth, marriage, or adoption.

- <1> change in marital status
- <2> to establish own household
- <3> other family reason (specify)
- <4> relationship with unmarried partner (boy/girlfriend, fiancé, etc.)
- <5> new job or job transfer
- <6> to look for work or lost job
- <7> to be closer to work/easier commute
- <8> retired
- <9> other job-related reason (specify)
- <10> wanted to own home, not rent
- <11> wanted newer/better/larger house or apartment
- <12> wanted better neighborhood/less crime
- <13> cheaper housing
- <14> foreclosure/eviction
- <15> other housing reason (specify)
- <16> to attend or leave college
- <17> change of climate
- <18> health reasons
- <19> natural disaster (hurricane, tornado, etc.)
- <20> other reason (specify)

MI1s

What was the reason for moving?

MIGALL

There are (number) other persons in this household ages 1 year or over.

Did (all of these persons/this person) live with (reference person's name/you) (in this house/in City, State/outside the U.S.) one year ago?

- <1> Yes, all lived with (reference person's name/you)
- <2> No, some or all did not live with (reference person's name/you)

MIGM

Which of the other members of this household did NOT live with (reference person's name/you) one year ago?

- * PROBE: Anyone else?
- * Enter all that apply, separate using the space bar or a comma.
- * Enter Line Number(s)

NXTSAM

Did (name/you) live in this house (apartment) one year ago?

- <1> Yes, this house
- <2> No, different house in U.S.
- <3> No, outside the U.S.

NXTPLC

Where did (name/you) live one year ago?

- * Name of city/town/post office
 - * Current: (city) Enter correct city/town/post office or
 - * Press ENTER for SAME
-

NXTSTA

Where did (name/you) live one year ago?

- * Name of State
 - * Current: (state)
 - * Enter correct State or press ENTER for SAME
-

NXTZIP

Where did (name/you) live one year ago?

- * Zip Code Current: (zip)
 - * Enter correct zip code or
 - * Press ENTER for SAME
-

NXTCLM

Did (name/you) live inside the city limits of (place name)?

- <1> Yes, inside city limits
- <2> No, outside city limits or post office name only

NXTCOU

What (county/parish) is (place name) in?

♦ Enter "IND CITY" if an independent city, not a county

S NXTCN1

What country did (name/you) live in one year ago?

NX1RES

What was (name's/your) main reason for moving to this house (apartment)?

* The answer categories are separated into the following groups:

FAMILY-RELATED REASONS* 1-3

EMPLOYMENT-RELATED REASONS 5-9

HOUSING-RELATED REASONS 10-15

OTHER REASONS 4, 16-20

*Family-related reasons only include family as defined by the Census Bureau. Family are people who are related by birth, marriage, or adoption.

- <1> change in marital status
- <2> to establish own household
- <3> other family reason (specify)
- <4> relationship with unmarried partner (boy/girlfriend, fiancé, etc.)
- <5> new job or job transfer
- <6> to look for work or lost job
- <7> to be closer to work/easier commute
- <8> retired
- <9> other job-related reason (specify)
- <10> wanted to own home, not rent
- <11> wanted newer/better/larger house or apartment
- <12> wanted better neighborhood/less crime
- <13> cheaper housing
- <14> foreclosure/eviction
- <15> other housing reason (specify)
- <16> to attend or leave college
- <17> change of climate
- <18> health reasons
- <19> natural disaster (hurricane, tornado, etc.)
- <20> other reason (specify)

NX10TH

What was the reason for moving?

SUNITS

* Ask if necessary

How many housing units are in your building?

- <1> Only one
- <2> Two
- <3> Three or four
- <4> Five to nine
- <5> Ten or more

10 SUPPLEMENTAL POVERTY MEASURE

10.1 PROPERTY VALUE/PRESENCE OF MORTGAGE

VALPROP

About how much do you think this (house and lot/apartment/mobile home) would sell for if it were for sale?

* Enter dollar amount

VALPROPR

Could you tell me if you think this (house and lot/apartment/mobile home) would sell for:

**less than \$100,000
between \$100,000 and \$250,000
between \$250,000 and \$500,000
or \$500,000 or more?**

- <1> Less than \$100,000
- <2> Between \$100,000 and \$250,000
- <3> Between \$250,000 and \$500,000
- <4> \$500,000 or more

MORTYN

Not counting home equity loans, do you or any other member of this household have a mortgage, deed of trust, contract to purchase, or similar debt on THIS property?

- <1> Yes
- <2> No

SMORTYN

Do you or any member of this household have a second mortgage or a home equity loan on THIS property?

- <1> Yes, home equity loan.
- <2> Yes, second mortgage.
- <3> Yes, second mortgage and home equity loan.
- <4> No

10.2 CHILD CARE

Q95

Now we want to ask about some of your expenses for children.

Did (you/ anyone in this household) PAY for the care of (your/their) (child/children) while (you/they) worked in 2025?

- ✦ Include: All child care expenses including preschool and nursery school expenses, before and after school care, and summer care.
- ✦ Do not include: cost of kindergarten or grade/elementary school.

- <1> Yes
- <2> No

Q95A

Which children needed care while their parents worked?

- ✦ Enter all that apply, separate using the space bar or a comma.
- ✦ Probe: Anyone else?
- ✦ Enter 96 for All persons
- ✦ Enter 0 if none

CCFREQ

What is the easiest way for you to tell us how much was paid for child care while (you/they) worked in 2025: weekly, every other week, twice a month, monthly, or yearly?

- <1> Weekly
- <2> Every other week
- <3> Twice a month
- <4> Monthly
- <7> Yearly

CCAMT

How much was paid (weekly/every other week/twice a month/monthly) for child care?

- * Include child care payments made for all children in the household.
 - * For example, if there are two adults in the household with childcare expenses use the total paid by both adults. Do not try to separate the payments. Record one total for the entire household.
-

CCNUMPAY

How many (weekly/every other week/twice a month/monthly) payments did (you/they) make during 2025?

- * (1-52), (1-26), (1-24), (1-12)
-

CCTOT

Then (you/they) paid \$(amount) altogether in child care while (you/they) worked during 2025. Does that sound about right?

- <1> Yes
- <2> No

CCEST

What is your best estimate of the correct amount people in your household paid for child care while they worked in 2025?

CC PROB

Did anyone in this household have any problems obtaining child care that prevented them from working more hours in 2025?

- <1> Yes
- <2> No

CC PROBFREQ

What is the easiest way to report how much time people in your household lost from work in 2025 because of trouble finding child care: hours, days, or weeks?

- <1> Hours
- <2> Days
- <3> Weeks

CC PROBTIME

How many (Hours, days, weeks) did people in your household lose in 2025 from work due to challenges with child care arrangements?

* (1-999)

CC ADAPT

In 2025, if child care was closed, unavailable, or unaffordable, or if there was concern for the [child's/children's] safety in care, what actions did the adults in your household take to provide care?

- * Read and select all that apply; separate with commas
- * If respondent asks for clarification, read: "This would be something like taking leave, leaving a job entirely, not looking for work, or watching the kids while working."
- * Probe as necessary.

- <1> Took unpaid leave or cut work hours
- <2> Changed work schedule
- <3> Used vacation, sick days, or other paid leave
- <4> Quit or was fired from a job
- <5> Did not look for a job
- <6> Cared for children while working
- <7> Family/friends provided care or found a back-up child care provider
- <8> Other (specify)
- <9> None of the above

CC ADAPT SP

* Enter verbatim response

10.3 CHILD SUPPORT PAID

CSPCHILD

(Do you/Does anyone in this household) have any children who lived elsewhere with their other parent or guardian at any time during 2025?

<1> Yes

<2> No

CSPWHO

Who had children who lived elsewhere? Anyone else?

* Enter line number

* Enter all that apply, separate using the space bar or a comma.

CSPREQ

In 2025, did (name/you) pay any child support for children living elsewhere with their other parent or guardian?

<1> Yes

<2> No

CSPAMT

How much child support did (name/you) pay in 2025?

* Enter dollar amount

* Count all forms of child support payments, including:
...payments made directly to the other parent/guardian;
...payments made through a court or agency; and
...payments withheld from this person's paycheck

Attachment A. Income Range Follow-up Questions

The three levels of income range follow-up questions are:

1) High-range income follow-up brackets:

- Less than \$45,000
- Between \$45,000 and \$60,000
- \$60,000 or more

If the respondent selects the lowest bracket (Less than \$45,000), then the following ranges will be presented to the respondent:

- Less than \$15,000
- Between \$15,000 and \$30,000
- \$30,000 or more

2) Mid-range income follow-up questions:

- Less than \$10,000
- Between \$10,000 and \$20,000
- \$20,000 or more

If the respondent selects the lowest bracket (Less than \$10,000), then the following ranges will be presented to the respondent:

- Less than \$1,000
- Between \$1,000 and \$5,000
- \$5,000 or more

3) Low-range income follow-up questions:

- Less than \$1,000
- Between \$1,000 and \$3,000
- \$3,000 or more

If the respondent selects the lowest bracket (Less than \$1,000), then the following ranges will be presented to the respondent:

- Less than \$100
- Between \$100 and \$500
- \$500 or more

Attachment B. Income Source and Follow-Up Question Range Level

The following table displays the income source and range level used in the follow-up range questions.

Source Screen	Income Source	Range Screen	Range Level
Q48AA	Earnings from Longest Job	PUQ48AARN1	High

**Unless otherwise noted, all definitions for geographic areas
on these lists reflect the July 21, 2023 OMB definitions.**

Care should be taken when tallying smaller areas, such as smaller cities, counties and metropolitan areas during the time frame of May 2025-July 2026. This is because we will be phasing in a new set of geographic areas to coincide with the phase-in of a new sample based on the results of the 2020 Census. Some smaller areas will be phasing-out or phasing-in during this time frame and estimates for such areas will fluctuate wildly during this time period and not be as accurate as they will be prior to May 2025 or after July 2026.

LIST 1: FIPS Metropolitan Area (CBSA) Codes

Unless otherwise noted, Metropolitan Areas are defined using
July 21, 2023 OMB definitions.

<u>FIPS Code</u>	<u>Metropolitan (CBSA) TITLE</u>
10180	Abilene, TX
10420	Akron, OH
10500	Albany, GA
10580	Albany-Schenectady-Troy, NY
10740	Albuquerque, NM
10900	Allentown-Bethlehem-Easton, PA-NJ
11020	Altoona, PA
11100	Amarillo, TX
11300	Anderson, IN
11340	Anderson, SC
11460	Ann Arbor, MI
11500	Anniston-Oxford-Jacksonville, AL
11540	Appleton, WI
11700	Asheville, NC
12020	Athens-Clarke County, GA
12060	Atlanta-Sandy Springs-Roswell, GA
12100	Atlantic City-Hammonton, NJ
12220	Auburn-Opelika, AL
12260	Augusta-Richmond County, GA-SC
12420	Austin-Round Rock, TX
12540	Bakersfield, CA
12580	Baltimore-Columbia-Towson, MD
12620	Bangor, ME
12700	Barnstable, MA
12940	Baton Rouge, LA
12980	Battle Creek, MI
13140	Beaumont-Port Arthur, TX
13220	Beckley, WV
13380	Bellingham, WA
13460	Bend-Redmond, OR
13740	Billings, MT
13780	Binghamton, NY
13820	Birmingham-Hoover, AL
13980	Blacksburg-Christiansburg-Radford, VA
14010	Bloomington, IL
14020	Bloomington, IN
14060	Bloomington-Normal, IL
14260	Boise City, ID

14460	Boston-Cambridge-Newton, MA-NH
14500	Boulder, CO
14540	Bowling Green, KY
14740	Bremerton-Silverdale-Port Orchard, WA

49740	Yuma, AZ

LIST 2: FIPS Consolidated Statistical Area (CSA) Codes

The following CSA's (Combined Statistical Areas) contain 2 or more Metropolitan Statistical Areas that are in the CPS sample and are individually identified on the public use files. Micropolitan Statistical Areas are not specifically identified in the CPS and are not used to identify CSA's nor are parts of such areas coded as belonging to CSA's. The component CBSA's identified on the CPS Public Use Files are listed for each CSA.

CSA Code	CBSA Code	CSA Title Component Parts (CBSA's)
104	10580 24020	Albany-Schenectady, NY Albany-Schenectady-Troy, NY Glen Falls, NY

	49020	Winchester, VA-WV

List 3: Individual Principal Cities

Please Note: You must use the CBSA code in combination with the city code to uniquely identify principal cities. If a county name is provided, you must incorporate the county code into any algorithm used to tabulate a specific city's characteristics. The same applies to state codes for multi-state CBSA's.

CBSA Code	Title	City	GTINDVPC
38060	Phoenix-Mesa-Scottsdale, AZ

Source of the Data and Accuracy of the Estimates for the 2026 Annual Social and Economic Supplement Microdata File

SOURCE OF THE DATA

The data in this microdata file and the estimates in the reports *Income in the United States: 2025*, *Poverty in the United States: 2025*, and *Health Insurance Coverage in the United States: 2025* come from the 2026¹ Annual Social and Economic Supplement (ASEC) of the Current Population Survey (CPS).² The U.S. Census Bureau conducts the CPS ASEC over a 3-month period in February, March, and April, with most of the data collection occurring in the month of March. The CPS ASEC uses two sets of questions, the basic CPS and a set of supplemental questions. The CPS, sponsored jointly by the Census Bureau and the U.S. Bureau of Labor Statistics, is the country's primary source of labor force statistics for the entire population. The Census Bureau and the U.S. Bureau of Labor Statistics also jointly sponsor the CPS ASEC.

Basic CPS. The monthly CPS collects primarily labor force data about the civilian noninstitutionalized population living in the United States. The institutionalized population, which is excluded from the universe, consists primarily of the population in correctional institutions and nursing homes (98 percent of the 3.8 million institutionalized people in the 2020 Census). Starting in August 2017, college and university dormitories were also excluded from the universe because most of the residents had usual residences elsewhere. Interviewers ask questions concerning labor force participation of each member 15 years old and older in sample households. Typically, the week containing the nineteenth of the month is the interview week. The week containing the twelfth is the reference week (i.e., the week about which the labor force questions are asked).

The CPS uses a multistage probability sample based on the results of the decennial census, with coverage in all 50 states and the District of Columbia. The sample is continually updated to account for new residential construction. When files from the most recent decennial census become available, the Census Bureau gradually introduces a new sample design for the CPS.

¹ For clarity and consistency throughout this report, the term "collection year" is the year the data is collected (in this case, 2026), and "data year" is the year about which the data are obtained (in this case, 2025). The 2026 CPS ASEC asks questions of data year 2025, the 2025 CPS ASEC asks questions of data year 2024, etc.

² The Census Bureau has reviewed this data product to ensure appropriate access, use, and disclosure avoidance protection of the confidential source data (Project No. P-7534374, Disclosure Review Board (DRB) approval number: CBDRB-FY26-0319).

Every ten years, the CPS first-stage sample is redesigned³ reflecting changes based on the most recent decennial census. In the first stage of the sampling process, primary sampling units (PSUs)⁴ were selected for sample. In the 2010 sample design, the United States was divided into 1,987 PSUs. These PSUs were then grouped into 852 strata. In the 2020 sample design, the United States was divided into 1,983 PSUs. These PSUs were then grouped into 863 strata. Within each stratum, a single PSU was chosen for the sample, with its probability of selection proportional to its population as of the most recent decennial census. In the case of strata consisting of only one PSU, the PSU was chosen with certainty.

In April 2025, the Census Bureau began phasing out the 2010 sample and replacing it with the 2020 sample, creating a mixed sampling frame. Two simultaneous changes occur during this phase-in and phase-out period. First, within the PSUs selected for both the 2010 and 2020 designs, sample households from the 2020 design gradually replace sample households selected for the 2010 design. Second, new PSUs selected for only the 2020 design gradually replace outgoing PSUs selected for only the 2010 design. By June 2026, the new 2020 sample design was completely implemented and the sample came entirely from the 2020 redesigned sample.

Approximately 69,500 sampled addresses were selected from the sampling frame for the March basic CPS. Based on eligibility criteria, six percent of these sampled addresses were sent directly to computer-assisted telephone interviewing (CATI). The remaining sampled addresses were assigned to interviewers for computer-assisted personal interviewing (CAPI).⁵ Of all addresses in sample, about 60,000 were determined to be eligible for interview. Interviewers obtained interviews at about 38,500 of the housing units at these addresses. Noninterviews occur when the occupants are not found at home after repeated calls or are unavailable for some other reason. Table 1 summarizes historical changes in the CPS design.⁶

The 2026 Annual Social and Economic Supplement. In addition to the basic CPS questions, interviewers asked supplementary questions for the CPS ASEC. They asked these questions of the civilian noninstitutionalized population and also of military personnel who live in households with at least one other civilian adult. The additional questions covered the following topics:

- Household and family characteristics.
- Marital status.

³ For detailed information on the 2010 sample redesign, please refer to Bureau of Labor Statistics (2014), and for detailed information on the 2020 sample redesign, please refer to Bureau of Labor Statistics (2025b).

⁴ The PSUs correspond to substate areas (i.e., counties or groups of counties) that are geographically contiguous.

⁵ For further information on CATI and CAPI and the eligibility criteria, please refer to U.S. Census Bureau (2019c).

⁶ Counts and estimates throughout this source and accuracy statement are rounded according to Disclosure Review Board rounding rules.

- Geographic mobility.
- Foreign-born population.
- Income from the previous calendar year.
- Work status/occupation.
- Health insurance coverage.
- Program participation.
- Educational attainment.

Including the March basic CPS sample and the ASEC oversamples, approximately 88,000 addresses were in sample for the CPS ASEC.⁷ Among the sampled addresses, about 77,500 met eligibility criteria for ASEC interviews. From the ASEC-eligible address, about 53,500 interviews were conducted for the basic CPS portion of the interview and about 7,800 of those interviews ended before conducting the ASEC portion of the interview.

Table 1 shows the number of households interviewed for the ASEC portion of the interview, along with the number of households in sample but not interviewed for both the basic CPS portion and the ASEC portion of the interview.

Table 1. Description of the March Basic Current Population Survey and Annual Social and Economic Supplement Sample Cases

Time period	Number of sample PSUs ^A	<u>Basic CPS^B sampled addresses eligible for March Interviewing</u>		<u>Total (CPS ASEC^C + basic CPS) sampled addresses eligible for ASEC Interviewing</u>		
		Interviewed	Not interviewed	Interviewed ^D	Not interviewed for CPS	Not interviewed for ASEC
2026	863	38,500	21,500	45,500	24,000	7,800
2025	852	40,000	20,000	47,000	22,500	8,700
2024	852	40,500	19,500	47,000	22,500	9,200
2023	852	40,500	18,500	47,000	21,000	9,900
2022 ^E	852	42,500	16,500	48,500	19,000	10,500
2021	852	44,900	14,100	52,000	16,500	11,000
2020	852	43,600	16,100	49,000	19,000	11,500
2019	852	48,900	11,100	56,000	13,500	12,500
2018	852	50,800	9,900	56,000	11,500	12,000

2015	852	52,900	8,200	64,000	10,500	10,000

Source: U.S. Census Bureau, Current Population Survey, 2015-2026 Annual Social and Economic Supplement, Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

^A PSUs are primary sampling units.

^B CPS is the Current Population Survey.

^C CPS ASEC is the Annual Social and Economic Supplement of the Current Population Survey.

⁷ The additional sample for the CPS ASEC provides more reliable data than the basic CPS for Hispanic households, non-Hispanic minority households, and non-Hispanic White households with children 18 years or younger. These households were identified for sample from previous months and the following April. For more information about the households eligible for the CPS ASEC, please refer to U.S. Census Bureau (2019c).

- ^D In source and accuracy statements prior to 2025, the reported number of interviews for the total CPS ASEC + basic CPS included interviews that ended before conducting the ASEC portion of the interview.
- ^E Starting with 2022, the number of interviewed and not interviewed cases are rounded to the nearest 500 due to disclosure review board policy. Therefore, numbers may not be summed to totals due to rounding.

Estimation Procedure. This survey's estimation procedure adjusts weighted sample results to agree with independently derived population controls of the civilian noninstitutionalized population of the United States, each state, and the District of Columbia. These population controls are prepared monthly as part of the Census Bureau's Population Estimates Program.⁸

The population controls for the nation are distributed by demographic characteristics in two ways:

- Age, sex, and race (White alone, Black alone, and all other groups combined).
- Age, sex, and Hispanic origin.

The population controls for the states are distributed by:

- Race (Black alone and all other race groups combined).
- Age (0-15, 16-44, and 45 and over).
- Sex.

The independent estimates by age, sex, race, and Hispanic origin, and for states by selected age groups and broad race categories, are developed using the basic demographic accounting formula whereby the population from the 2020 Census data is updated using data on the components of population change (births, deaths, and net international migration) with net internal migration as an additional component in the state population controls.

The net international migration component of the population controls includes:

- Net international migration of the foreign born;
- Net migration between the United States and Puerto Rico;
- Net migration of natives to and from the United States; and
- Net movement of the Armed Forces population to and from the United States.

Because the latest available information on these components lags behind the survey date, it is necessary to make short-term projections of these components to develop the estimate for the survey date.

⁸ For additional information on population controls, including details on the demographic characteristics used and net international components, please refer to Chapters 1-3 and Appendix: History of the Current Population Survey of U.S. Census Bureau (2019c).

The estimation procedure of the CPS ASEC includes a further adjustment to give married and unmarried partners the same weight.

ACCURACY OF THE ESTIMATES

A sample survey estimate has two types of error: sampling and nonsampling. The accuracy of an estimate depends on both types of error. The nature of the sampling error is known given the survey design; the full extent of the nonsampling error is unknown.

Sampling Error. Since the CPS estimates come from a sample, they may differ from figures from an enumeration of the entire population using the same questionnaires, instructions, and enumerators. For a given estimator, the difference between an estimate based on a sample and the estimate that would result if the sample were to include the entire population is known as sampling error. Standard errors, as calculated by methods described in “Standard Errors and Their Use,” are primarily measures of the magnitude of sampling error. However, the estimation of standard errors may include some nonsampling error.

Nonsampling Error. For a given estimator, the difference between the estimate that would result if the sample were to include the entire population and the true population value being estimated is known as nonsampling error. There are several sources of nonsampling error that may occur during the development or execution of the survey. It can occur because of circumstances created by the interviewer, the respondent, the survey instrument, or the way the data are collected and processed. Some nonsampling errors, and examples of each, include:

- Measurement error: The interviewer records the wrong answer, the respondent provides incorrect information, the respondent estimates the requested information, or an unclear survey question is misunderstood by the respondent.
- Coverage error: Some individuals who should have been included in the survey frame were missed.
- Nonresponse error: Responses are not collected from all those in the sample or the respondent is unwilling to provide information.
- Imputation error: Values are estimated imprecisely for missing data.
- Processing error: Forms may be lost, data may be incorrectly keyed, coded, or recoded, etc.

To minimize these errors, the Census Bureau applies quality control procedures during all stages of the production process including the design of the survey, the wording of questions, the review of the work of interviewers and coders, and the statistical review of reports.

Answers to questions about money income often depend on the memory or knowledge of one person in a household. Recall problems can cause underestimates of income in survey data because it is easy to forget minor or irregular sources of income. Respondents may also misunderstand what the Census Bureau considers money income or may simply be

unwilling to answer these questions correctly because the questions are considered too personal. For more details, please refer to Appendix C of U.S. Census Bureau (1993).

Declining unit and item response rates increase the likelihood that total combined response rates (unit response x coverage x item response) will fall below the Census Bureau standard of 50 percent. In the 2026 CPS ASEC, the total combined response rate for Main Job Earnings was 41.8 percent.

Two types of nonsampling error that can be examined to a limited extent are nonresponse and undercoverage.

Nonresponse. The effect of nonresponse cannot be measured directly, but one indication of its potential effect is the nonresponse rate. For the cases eligible for the 2026 ASEC, Table 2 provides the unweighted and weighted nonresponse rates to the basic CPS questionnaire, the ASEC supplement questionnaire for those responding to the basic CPS and the overall ASEC questionnaire at the household level.⁹

Table 2. Nonresponse Rates for the Eligible Annual Social and Economic Supplement Households: 2026

Nonresponse to the...	Unweighted Nonresponse Rate	Weighted Nonresponse Rate
Basic CPS ^A Questionnaire	31.1	29.5
ASEC ^B Supplement Questionnaire	14.6	13.0
Overall ASEC -- Household-level	41.1	38.7

Source: U.S. Census Bureau, Current Population Survey, 2026 Annual Social and Economic Supplement, Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

^A CPS is the Current Population Survey.

^B ASEC is the Annual Social and Economic Supplement of the Current Population Survey.

Responses are made up of complete interviews and sufficient partial interviews. A sufficient partial interview is an incomplete interview in which the household or person answered enough of the questionnaire for the supplement sponsor to consider the interview complete. The remaining supplement questions may have been edited or imputed to fill in missing values. Insufficient partial interviews are considered to be nonrespondents. Refer to the supplement overview attachment in the technical documentation for the specific questions deemed critical by the sponsor as necessary to answer in order to be considered a sufficient partial interview.

As a result of sufficient partial interviews being considered responses, individual items/questions have their own response and refusal rates. As part of the nonsampling error analysis, the item response rates, item refusal rates, and edits are reviewed. For the CPS ASEC, the unweighted item refusal rates range from 0.0 percent to 1.9 percent. The unweighted item allocation rates range from 19.1 percent to 74.2 percent.

⁹ Since the ASEC is at the household level, the overall/combined ASEC response rate is a product of the basic CPS response rate and the ASEC response rate.

Undercoverage. The concept of coverage with a survey sampling process is defined as the extent to which the total population that could be selected for sample “covers” the survey’s target population. Missed housing units and missed people within sample households create undercoverage in the CPS. Overall CPS undercoverage for March 2026 is estimated to be about ten percent. CPS coverage varies with age, sex, and race. Generally, coverage is higher for female than for male persons and higher for non-Black than for Black persons. This differential coverage is a general problem for most household-based surveys.

The CPS weighting procedure mitigates bias from undercoverage, but biases may still be present when people who are missed by the survey differ from those interviewed in ways other than age, race, sex, Hispanic origin, and state of residence. How this weighting procedure affects other variables in the survey is not precisely known. All of these considerations affect comparisons across different surveys or data sources.

A common measure of survey coverage is the coverage ratio, calculated as the estimated population before poststratification divided by the independent population control. Table 3 shows March 2026 CPS coverage ratios by age and sex for certain race and Hispanic groups. The CPS coverage ratios can exhibit some variability from month to month.

Table 3. Current Population Survey Coverage Ratios: March 2026

Age group	All people	<u>Total</u>		<u>White alone</u>		<u>Black alone</u>		<u>Residual race^A</u>		<u>Hispanic^B</u>	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
0-15	0.84	0.85	0.82	0.95	0.92	0.67	0.62	0.63	0.65	0.77	0.76
16-19	0.81	0.83	0.78	0.91	0.85	0.75	0.64	0.59	0.64	0.80	0.69
20-24	0.70	0.71	0.70	0.78	0.76	0.60	0.59	0.52	0.53	0.70	0.65
25-34	0.80	0.80	0.80	0.88	0.86	0.61	0.68	0.66	0.64	0.76	0.80
35-44	0.86	0.85	0.86	0.93	0.93	0.66	0.74	0.61	0.69	0.77	0.77
45-54	0.91	0.90	0.92	0.96	0.99	0.74	0.77	0.71	0.74	0.82	0.86
55-64	0.98	0.97	0.98	1.02	1.06	0.91	0.77	0.70	0.73	0.86	0.88

^A The Residual race group includes cases indicating a single race other than White or Black, and cases indicating two or more races.

^B Hispanics may be any race.

Comparability of Data. Data obtained from the CPS and other sources are not entirely comparable. This is due to differences in interviewer training and experience and in

differing survey processes.¹⁰ These differences are examples of nonsampling variability not reflected in the standard errors. Therefore, caution should be used when comparing results from different sources.

Data users should be aware that estimates in the reports, *Income in the United States: 2025*, *Poverty in the United States: 2025*, and *Health Insurance Coverage in the United States: 2025* use the internal CPS ASEC file. The Census Bureau must keep survey responses confidential, so disclosure avoidance techniques are applied to files prior to public release. Therefore, some estimates using the microdata files may differ from the estimates provided in the reports.

Caution should be used when comparing estimates of the Hispanic population over time. No independent population control totals for people of Hispanic origin were used before 1985.

Caution should also be used when comparing CPS ASEC results from different years. Below, more detail is provided on several reasons for caution when comparing estimates across years.

Nonresponse Bias in the CPS ASEC. Data users should exercise caution when comparing estimates for data years 2019, 2020, and 2021 from the reports or from the microdata files to those from other years due to the effects that the coronavirus (COVID-19) had on interviewing and response rates. The Census Bureau administers the CPS ASEC each year between February and April by telephone and in-person interviews, with most data collected in March. In 2020, data collection faced extraordinary circumstances due to the onset of the COVID-19 pandemic; the Census Bureau suspended in-person interviews and closed telephone contact centers. The response rate for the CPS basic household survey declined to 73 percent in March 2020, from 82 percent in March 2019.¹¹ Pre-pandemic response rates were regularly above 80 percent.

Although standard collection procedures have resumed, response rates remain below pre-pandemic levels. The response rate for the CPS basic household survey was 64 percent in March 2026.¹² Lower response rates could affect estimates if respondents differ from nonrespondents. Using administrative data, Census Bureau researchers have documented that nonrespondents in the 2020 to 2026 surveys are less similar to respondents than in earlier years.¹³ For more details on how sample differences and the associated nonresponse bias impact income and official poverty estimates, refer to Bee & Rothbaum

¹⁰ Survey processes include, but are not limited to, question wording, universe, sampling frame, interview modes, and weighting.

¹¹ For additional information, please refer to Bureau of Labor Statistics (2020).

¹² This response rate is specifically for the March CPS and differs from the response rate obtained using the value in the “Nonresponse” section that is for the full CPS sample that was eligible for ASEC.

¹³ For additional information, please refer to Rothbaum & Bee (2021), Rothbaum & Hokayem (2021), Rothbaum & Bee (2022), Bee & Rothbaum (2023), Bee & Rothbaum (2024), Bee & Rothbaum (2025), and Bee & Rothbaum (2026).

(2026). The effects of data collection issues on 2020 health insurance coverage estimates are detailed in the working paper, Berchick, Mykyta & Stern (2020).

The CPS ASEC program creates weights designed to adjust for nonresponse and to control weighted counts to independent population estimates by age, sex, race, and Hispanic origin. However, the magnitude of the increase in (and differential nature of) post-pandemic nonresponse likely reduces their efficacy. Data users should be aware of and take these impacts into consideration when using the data.

Change in Processing System. Data users should exercise caution when comparing estimates from the CPS ASEC for data years 2018 through 2025 to estimates from earlier years. An updated data processing system was implemented beginning with data year 2018 estimates. This system introduced demographic edit changes to account for same-sex couples, revised procedures for editing income and health insurance variables, and added several new income and health insurance variables. Changes to the editing procedures encompassed both changes to the resolution of logically inconsistent data and changes to the imputation methods. The 2019 through 2026 CPS ASEC estimates for data years 2018 through 2025 can be compared to the 2018 CPS ASEC Bridge Files¹⁴, which contain data year 2017 estimates, and to the 2017 CPS ASEC Research Files¹⁵, which contain estimates for data year 2016. The 2017 Research File and the 2018 Bridge File both use the new processing system and serve as a bridge between the legacy production files and the updated processing system. Data users should be aware that the estimates from the 2017 and 2018 CPS ASEC Files for data years 2016 and 2017 using the legacy processing system are not directly comparable to estimates from the 2019 CPS ASEC through 2026 CPS ASEC.

Change in Questionnaire. In 2014, the ASEC questionnaire was redesigned to incorporate new income and health insurance questions. Due to the differences in measurement, health insurance estimates for 2014-2017 CPS ASEC for data years 2013-2016 are not directly comparable to health insurance estimates for previous years.¹⁶ For income and poverty estimates, when survey changes had statistically significant impacts, comparisons should be made by adjusting historical published estimates to approximate the magnitude of those impacts.¹⁷

Change in Census-Based Controls. Data users should exercise caution when comparing estimates for 2025 from the microdata file or from the ASEC reports, *Income in the United States: 2025*, *Poverty in the United States: 2025*, and *Health Insurance Coverage in the United States: 2025* (which reflect 2020 Census-based controls¹⁸), with estimates from 2020 or

¹⁴ For additional information on the 2018 CPS ASEC Bridge Files, please refer to the Documentation and User Notes in U.S. Census Bureau (2019b).

¹⁵ For additional information on the 2017 CPS ASEC Research Files, please refer to the Documentation and User Notes in U.S. Census Bureau (2019a).

¹⁶ For more information, refer to Berchick, Barnett, & Upton (2019).

¹⁷ For more details on the adjustment for these comparisons, refer to Rothbaum & Edwards (2019).

¹⁸ In recent decades, the decennial census has usually provided all the data necessary to produce the population base used in the population controls. However, changes in disclosure avoidance practices and

earlier microdata files or ASEC Reports. Estimates from data years 2021 through 2025 (March 2022 CPS through March 2026 CPS, respectively) reflect 2020 Census-based controls. Estimates from data years 2011 through 2020 (March 2012 CPS through March 2021 CPS) reflect 2010 Census-based controls. Estimates from data years 2001 through 2010 (March 2002 CPS through March 2011 CPS) reflect 2000 Census-based controls and estimates from data years 1993 through 2000 (March 1994 CPS through March 2001 CPS) reflect 1990 Census-based controls. Ideally, the same population controls should be used when comparing any estimates. In reality, the use of the same population controls is not practical when comparing trend data over a period of 10 to 20 years. Thus, when it is necessary to combine or compare data based on different controls or different designs, data users should be aware that changes in weighting controls or weighting procedures could create small differences between estimates.

Users should also exercise caution because of changes caused by the phase-in of the 2020 Census files (refer to “Basic CPS”).¹⁹ During this time period, CPS data were collected from sample designs based on two different censuses. Two features of the new CPS design have the potential of affecting estimates: (1) the temporary disruption of the rotation pattern from April 2025 through June 2026 for a comparatively small portion of the sample and (2) the change in sample areas. Most of the known effect on estimates during and after the sample redesign will be the result of changing from 2010 to 2020 geographic definitions.

Research has shown that the national-level estimates of the metropolitan and nonmetropolitan populations should not change appreciably because of the new sample design. However, users should still exercise caution when comparing metropolitan and nonmetropolitan estimates across years with a design change, especially at the state level.

A Nonsampling Error Warning. Since the full extent of the nonsampling error is unknown, one should be particularly careful when interpreting results based on small differences between estimates. The Census Bureau recommends that data users incorporate information about nonsampling errors into their analyses, as nonsampling error could impact the conclusions drawn from the results. Caution should also be used when interpreting results based on a relatively small number of cases. Summary measures (such as medians and percentage distributions) probably do not reveal useful information when computed on a subpopulation smaller than 75,000.

For additional information on nonsampling error, including the possible impact on CPS data, when known, refer to U.S. Census Bureau (2019c) and Brooks & Bailer (1978).

delays in the 2020 Census necessitated changes to the data sources that produce the base population for the Vintage 2021 through Vintage 2024 population estimates. In Vintage 2025, the enumerated population from the 2020 Census is the starting point for the estimates via the Modified Age and Race Census (MARC) file. Please refer to U.S. Census (2026b) for more information on this methodology.

¹⁹ The phase-in process using the 2010 Census files began April 2014.

Estimation of Median Incomes. The Census Bureau has changed the methodology for computing median income over time. The Census Bureau has computed medians using either Pareto interpolation or linear interpolation. Currently, we are using linear interpolation to estimate all medians. Pareto interpolation assumes a decreasing density of population within an income interval, whereas linear interpolation assumes a constant density of population within an income interval.

The Census Bureau calculated estimates of median income and associated standard errors for 1979 through 1987 using Pareto interpolation if the estimate was larger than \$20,000 for people or \$40,000 for families and households. We calculated estimates of median income and associated standard errors for 1976, 1977, and 1978 using Pareto interpolation if the estimate was larger than \$12,000 for people or \$18,000 for families and households. All other estimates of median income and associated standard errors for 1976 through 2025 (2026 CPS ASEC), and almost all of the estimates of median income and associated standard errors for 1975 and earlier, were calculated using linear interpolation. Thus, use caution when comparing median incomes above \$12,000 for people or \$18,000 for families and households for different years. Median incomes below those levels are more comparable from year to year since they have always been calculated using linear interpolation. For an indication of the comparability of medians calculated using Pareto interpolation with medians calculated using linear interpolation, refer to U.S. Census Bureau (1978) and U.S. Census Bureau (1993).

Standard Errors and Their Use. A sample estimate and its standard error enable one to construct a confidence interval. A confidence interval is a range about a given estimate that has a specified probability of containing the average result of all possible samples. For example, if all possible samples were surveyed under essentially the same general conditions and using the same sample design, and if an estimate and its standard error were calculated from each sample, then approximately 90 percent of the intervals from 1.645 times the standard error below the estimate to 1.645 times the standard error above the estimate would include the average result of all possible samples.

A particular confidence interval may or may not contain the average estimate derived from all possible samples, but one can say with the specified confidence that the interval includes the average estimate calculated from all possible samples.

Standard errors may also be used to perform hypothesis testing, a procedure for distinguishing between population parameters using sample estimates. The most common type of hypothesis is that the population parameters are different. An example of this would be comparing the percentage of men who were part-time workers to the percentage of women who were part-time workers.

Tests may be performed at various levels of significance. A significance level is the probability of concluding that the characteristics are different when, in fact, they are the same. For example, to conclude that two characteristics are different at the 0.10 level of

significance, the absolute value of the estimated difference between characteristics must be greater than or equal to 1.645 times the standard error of the difference.

The Census Bureau uses 90-percent confidence intervals and 0.10 levels of significance to determine statistical validity. Consult standard statistical textbooks for alternative criteria.

The tables accompanying *Income in the United States: 2025*, *Poverty in the United States: 2025*, and *Health Insurance Coverage in the United States: 2025* list estimates followed by a number labeled “Margin of error ($\pm$).” This number can be added to and subtracted from the estimates to calculate upper and lower bounds of the 90-percent confidence interval. For example, *Health Insurance Coverage in the United States: 2025* shows the numbers for health insurance. For the statement, “26.7 million people were uninsured for the entire year,” the 90-percent confidence interval for the estimate, 26,670,000 (26.7 million), is 26,670,000 ($\pm$ 764,000), or 25,906,000 to 27,434,000 (25.9 million to 27.4 million).

Estimating Standard Errors. The Census Bureau uses replication methods to estimate the standard errors of CPS and ASEC estimates. These methods primarily measure the magnitude of sampling error. However, they do measure some effects of nonsampling error as well. They do not measure systematic biases in the data associated with nonsampling error. Bias is the average over all possible samples of the differences between the sample estimates and the true value.

The Census Bureau recommends the use of replicate weights to estimate standard errors. This method balances accuracy with flexibility, providing capacity for high quality measures of variance for any estimate produced from complex survey data. In addition, the variation of replicates from year to year is a statistically sound method to estimate variation in the measurement of standard errors. Many statistical software packages have procedures that simplify the use of replicate weights for users.

For CPS ASEC data released prior to 2026 and basic CPS data, generalized variance function (GVF) parameters have been calculated and used in the standard error illustrations of the source and accuracy statements. Information and parameters for basic CPS data can be found under “Reliability of estimates from the CPS” at Bureau of Labor Statistics (2025a). Refer to U.S. Census Bureau (2025) for more information on using GVF parameters for prior CPS ASEC data.

The *Income in the United States: 2025*, *Poverty in the United States: 2025*, and *Health Insurance Coverage in the United States: 2025* reports use replicate weights to calculate the margins of error of the estimates presented in tables and throughout the reports. In 2009, the Census Bureau released replicate weights for the 2005 through 2009 CPS ASEC collection years and has released replicate weights with the release of the CPS ASEC public use data for each year since.²⁰

²⁰ Since the published GVF parameters generally underestimated standard errors, standard errors produced using direct estimates may be higher than in previous reports. For most CPS ASEC estimates,

Replicate Weighting. The Census Bureau is releasing public use replicate weight files for the 2026 CPS ASEC that can be matched to the microdata files to estimate standard errors.

The Census Bureau’s recommended successive difference replicate (SDR) method uses 160 sets of weights (known as replicates) designed to create 160 independent versions of each estimate. The public use replicate weights are called PWWGT1 through PWWGT160. Note that these weights are used solely for calculating uncertainty. They should never be used to calculate an estimate. The full weight, MARSUPWT²¹ on the person file or PWWGT0 on the replicates file, should be used to calculate weight estimates.

When employing SDR, data users should follow Fay’s modified balanced repeated replication (BRR) method for estimating variances. Fay’s method uses one factor, k , which is in the range $(0, 1)$ and another factor equal to $2 - k$. In Fay’s method, the introduction of the perturbation factor $(1 - k)$ allows the use of both halves of the sample, unlike the basic BRR method. Thus, Fay’s method has the advantage that no subset of the sample units in a particular classification will be totally excluded.

Apply these replicate estimates in Formula (1) below to calculate the total variance for the item of interest, such as a point estimate, ratio of domain means, regression coefficient, or log-odds ratio, using the weight for the full sample and the replicate estimates of the same statistic using the replicate weights. For example, say that the item of interest is the number of males. Tally the weights for all the records that indicated male to create the 160 replicate estimates of the number of males. Then use these estimates in the formula to calculate the total variance for the number of males.

Calculate variance estimates for the estimates using:

$$\text{var}(\hat{\theta}_0) = \frac{1}{G(1-k)^2} \sum_{i=1}^{160} (\hat{\theta}_i - \hat{\theta}_0)^2 \quad (1)$$

where:

G = number of replicates

$1 - k$ = perturbation factor

$\hat{\theta}_i = i^{th}$ estimate of the parameter θ based on the observations included in the i^{th} replicate

the increase in standard errors from GVF to direct estimates will not alter the findings. However, marginally significant differences using the GVF may not be significant using replicate weights.

²¹ For CPS ASEC, divide the public use full weight variables by 10,000 to achieve the appropriate order of magnitude for point estimates.

$\hat{\theta}_0$ = survey estimate of the parameter θ based on the full sample

Formula (2) shows Fay's variance estimation formula used for CPS ASEC estimates calculated with 160 replicates and $k = 0.5$:

$$\text{var}(\hat{\theta}_0) = \frac{4}{160} \sum_{i=1}^{160} (\hat{\theta}_i - \hat{\theta}_0)^2 \quad (2)$$

The standard error is the square root of the variance found in Formula (1) or (2):

$$s(\hat{\theta}_0) = \sqrt{\text{var}(\hat{\theta}_0)} \quad (3)$$

For more information on using replicate weights and calculating direct estimates, refer to U.S. Census Bureau (2024c).

Replicate weights may be negative due to the family equalization adjustment in the ASEC weighting process.²² The family equalization procedure adjusts person-level weights, mostly of males, to assign equal weights to partners, both married and unmarried. This adjustment equalizes the representation and estimated number of people in partnerships, while maintaining the overall civilian age, race, sex, and ethnicity population control totals. These adjustments may result in a negative weight for some person level records.

All replicate weights, including negative weights, can be used directly in Formula (1) or (2) to compute the variance of an estimate. However, when using software to compute variances, use caution, as some packages do not allow negative weights and removing them or setting them to zero may add bias to the variance estimate.

In this source and accuracy statement, Tables 4 through 5 provide illustrations for calculating standard errors with replicate weights.

Calculating Standard Errors of Estimated Numbers. The approximate standard error, s_x , of an estimated number from this microdata file can be obtained by using replicate weights and Formulas (2) and (3).

Illustration 1

In the 2026 CPS ASEC, there were an estimated 64,720,000 married-couple family households. Use the replicate weights and Formulas (2) and (3) to calculate the standard error of married-couple family households, and then find the confidence interval, as shown in Table 4.

²² Please refer to U.S. Census Bureau (2019c) for more information on the ASEC weighting process and the family equalization adjustment.

Table 4. Illustration of Standard Error and Confidence Interval of Estimated Numbers

Number of married-couple family households (x)	64,720,000
Standard error	344,000
90-percent confidence interval	64,150,000 to 65,290,000

Source: U.S. Census Bureau, Current Population Survey, 2026 Annual Social and Economic Supplement, public use microdata files, Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

Note: The number of married-couple households is selected by the following variable values: HRHTYPE = (01, 02) (married couple primary family) and PERRP = 40 (reference person). The ASEC weight is PWWGT0. The estimates in this illustration are rounded to at most four significant digits.

The 90-percent confidence interval is calculated as $64,720,000 \pm 1.645 \times 344,000$.

Concluding that the average estimate derived from all possible samples lies within a range computed in this way would be correct for roughly 90 percent of all possible samples.

Accuracy of State Estimates. The redesign of the CPS following the 1980 census increased efficiency and accuracy of state data.²³ All strata since are defined within state boundaries. The sample is allocated among the states to produce state and national estimates with the required accuracy while keeping total sample size to a minimum.

Since the CPS is designed to produce both state and national estimates, the proportion of the total population sampled and the sampling rates differ among the states. In general, the smaller the population of the state gets the larger the sampling proportion. For example, in Vermont, approximately 1 in every 250 households is sampled each month. In New York, the sample is about 1 in every 2,000 households. Nevertheless, the size of the sample in New York is four times larger than in Vermont because New York has a larger population.

The Census Bureau recommends the use of 3-year averages to compare estimates across states and 2-year averages to evaluate changes in state income and poverty estimates over time. Refer to the “Standard Errors of Data for Combined Years” section. Further, the *Income in the United States* and *Poverty in the United States* reports no longer present state estimates. Therefore, the Census Bureau recommends the American Community Survey (ACS) microdata file as the preferred source for income and poverty state data in years 2006 (2005 estimates) to the present.²⁴ A questionnaire redesign introduced with the 2014 CPS ASEC and an updated processing system introduced with the 2019 CPS ASEC each mark the start of new time series for health insurance estimates in the CPS ASEC, so data users should not create multiyear averages across these years.

Standard Errors of State and Regional Estimates. The standard error for state or region estimates may be obtained in the same manner as other estimates previously shown. The

²³ Improved accuracy of state data was achieved with about the same sample size as in the 1970 design.

²⁴ For additional information on the American Community Survey, please refer to U.S. Census Bureau (2024a).

variables GESTFIPS and GEREG can be used to select for states and regions, respectively. Use replicate weights and Formulas (2) and (3).

Illustration 2

In March 2026, there were an estimated 14,360,000 people living in New York state who were born in the United States. Table 5 shows how to use Formulas (2) and (3) to estimate the standard error and confidence interval.

Table 5. Illustration of Standard Errors of State Estimates

Number of people in New York born in the U.S. (x)	14,360,000
Standard error	169,000
90-percent confidence interval	14,080,000 to 14,640,000

Source: U.S. Census Bureau, Current Population Survey, 2026 Annual Social and Economic Supplement, public use microdata files, Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

Note: The people living in New York state born in the United States is selected by the following variable values: GESTFIPS = 36 (New York) and PRCITSHP = 1 (born in the United States). The ASEC weight is PWWT0. The estimates in this illustration are rounded to at most four significant digits.

The 90-percent confidence interval is calculated as $14,360,000 \pm 1.645 \times 169,000$.

Select Standard Error Formulas for Differences, Ratios and Combined Years. While replicate methods yield more precise estimates of uncertainty for any point of interest, data users can also apply the following formulas to a given set of estimates and standard errors. Doing so may be useful when microdata analysis with replicate weights is not feasible and pre-existing estimates, such as published data products, are available. The following illustrations provide examples of estimates calculated with select standard error formulas.²⁵

In this source and accuracy statement:

- Tables 6-10 provide illustrations of formulas for calculating standard errors differences, percentages, ratios, and data for combined years;
- Tables 11 and 12 provide correlation coefficients for comparing estimates from consecutive years; and
- Table 13 provides correlation coefficients between race and subgroups

Standard Errors of Estimated Differences. The standard error of the difference between two sample estimates is approximately equal to

²⁵ Note that the statistics calculated in the remaining illustrations are calculated in a different way than the statistics published in the CPS ASEC income, poverty, and health insurance reports. The margin of errors from the reports are calculated using direct SDR estimates, whereas the standard errors within the remaining illustrations are calculated using simplified standard error formulas.

$$s_{|x_1 - x_2|} = \sqrt{s_{x_1}^2 + s_{x_2}^2 - 2rs_{x_1}s_{x_2}} \quad (4)$$

where s_{x_1} and s_{x_2} are the standard errors of the estimates, x_1 and x_2 . The estimates can be numbers, percentages, ratios, etc. Tables 11 and 12 contain the correlation coefficient, r , for CPS year-to-year comparisons for CPS poverty, income, and health insurance estimates of numbers and proportions. Table 13 contains the correlation coefficient r for making comparisons between race categories that are subsets of one another. For example, to compare the number of people in poverty who listed White as their only race to the number of people in poverty who are White alone or in combination with another race, a correlation coefficient is needed to account for the large overlap between the two groups.

For making other comparisons (including race overlapping where one group is not a complete subset of the other), assume that r equals zero. Making this assumption will result in accurate estimates of standard errors for the difference between two estimates of the same characteristic in two different areas, or for the difference between separate and uncorrelated characteristics in the same area. However, if there is a high positive (negative) correlation between the two characteristics, the formula will overestimate (underestimate) the true standard error.

Illustration 3

The report, *Poverty in the United States: 2025*, shows that the poverty rate for native-born persons was 9.9 percent and the poverty rate was 11.7 percent for foreign-born persons, for a difference of 1.8 percentage points. The margins of error are 0.3 and 0.6, respectively. Divide the margins of error by 1.645 to get standard errors of 0.18 and 0.36, respectively. Table 6 shows how to use Formula (4) with $r = 0$ to estimate the standard error and confidence interval for the difference.

Table 6. Illustration of Standard Errors of Estimated Differences without Correlation

	Native-born (x_1)	Foreign-born (x_2)	Difference
Poverty rate	9.9	11.7	1.8
Standard error	0.18	0.36	0.40
90-percent confidence interval	9.7 to 10.1	11.3 to 12.1	1.1 to 2.5

Source: U.S. Census Bureau, Current Population Survey, 2026 Annual Social and Economic Supplement, Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

Note: The estimates in this illustration are rounded to at most four significant digits.

The standard error of the difference is calculated as

$$s_{|x_1 - x_2|} = \sqrt{0.18^2 + 0.36^2}$$

which, rounded to the nearest hundredth, is 0.40. The 90-percent confidence interval around the difference is calculated as $1.8 \pm 1.645 \times 0.40$. Since this interval does not include zero, we can conclude with 90-percent confidence that the poverty rate of native-born is smaller than the poverty rate of foreign-born persons.

Illustration 4

The report, *Income in the United States: 2025*, shows that the median earnings of full-time, year-round female workers was \$60,760 in 2025 and \$58,860 in 2024. The margins of error were 320 and 940, respectively. Divide the margins of error by 1.645 to get the standard errors 195 and 571, respectively. The apparent difference between the median earnings is \$1900. Table 7 shows how to use the appropriate correlation coefficient from Table 11, and Formula (4) to estimate the standard errors and confidence intervals.

Table 7. Illustration of Standard Errors of Estimated Differences with Correlation

	2024 (x_1)	2025 (x_2)	Difference
Median earnings in dollars (x_i)	58,860	60,760	1,900
Correlation coefficient (r)			0.30
Standard error	571	195	545
90-percent confidence interval	57,920 to 59,800	60,440 to 61,080	1,000 to 2,800

Source: U.S. Census Bureau, Current Population Survey, 2025-2026 Annual Social and Economic Supplement, Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

Note: The estimates in this illustration are rounded to at most four significant digits.

The standard error of the difference is calculated as

$$s_{|x_1-x_2|} = \sqrt{571^2 + 195^2 - 2 \times 0.30 \times 571 \times 195}$$

which rounds to 545. The 90-percent confidence interval around the difference is calculated as $1,900 \pm 1.645 \times 545$. Since this interval does not include zero, we conclude with 90-percent confidence that the median earnings of full-time, year-round female workers in 2025 is significantly different than the median earnings of full-time, year-round female workers in 2024.

Standard Errors of Estimated Percentages or Ratios. The reliability of an estimated percentage, computed using sample data for both the numerator and denominator, depends on the standard errors of both components.²⁶ Formula (5) can be used for all percentage and ratio estimates. If the denominator, or base, is a population control, then the formula can be simplified to Formula (6).²⁷

For all percentages and ratios, compute the standard error of the ratio using the formula:

²⁶ Estimated percentages are relatively more reliable than the corresponding estimates of the numerators of the percentages, particularly if the percentages are 50 percent or more.

²⁷ For more information on population controls, see the earlier section: "Estimation Procedure."

$$s_{x/y} = \frac{x}{y} \sqrt{\left(\frac{s_x}{x}\right)^2 + \left(\frac{s_y}{y}\right)^2 - 2r \frac{s_x s_y}{xy}} \quad (5)$$

where s_x and s_y are the standard errors of the numerator, x , and the denominator, y . The standard errors of the numerator and denominator may be calculated using Formulas (2) and (3). In Formula (5), r represents the correlation between the numerator and the denominator of the estimate.

For one type of ratio, the denominator is a count of families or households and the numerator is a count of people in those families or households with a certain characteristic. If there is at least one person with the characteristic in every family or household, use 0.7 as an estimate of r . An example of this type is the average number of children per family with children.

For all other types of ratios, r is assumed to be zero. Examples are the average number of children per family and the family poverty rate. If r is actually positive (negative), then this procedure will provide an overestimate (underestimate) of the standard error of the ratio.

For estimates expressed as the ratio of x per 100 y or x per 1,000 y , multiply Formula (5) by 100 or 1,000, respectively, to obtain the standard error.

The approximate standard error, $s_{x/y}$, of an estimated percentage where the base is a population control can be obtained by using the formula:

$$s_{x/y} = \frac{s_x}{y} \quad (6)$$

Here s_x is the standard error of the numerator x , and y is the population control in the denominator of the percentage.

Illustration 5

The report, *Income in the United States: 2025*, shows that the median earnings of households with an Asian head of household was \$126,300 and \$59,980 for households with a Black head of household, with margins of error of 5,055 and 1,910, respectively. Divide the margins of error by 1.645 to get standard errors of 3,073 and 1,161. The Asian-to-Black household earnings ratio is 2.1. As shown in Table 8, use Formula (5) with $r = 0$, to estimate the standard error and confidence interval for the Asian-to-Black household earnings ratio.

Table 8. Illustration of Standard Errors of Ratios

	Asian Households (x)	Black Households (y)	Ratio (x/y)
Median earnings (in dollars)	126,300	59,980	2.11
Standard error	3,073	1,161	0.065
90-percent confidence interval	121,200 to 131,400	58,070 to 61,890	2.00 to 2.22

Source: U.S. Census Bureau, Current Population Survey, 2026 Annual Social and Economic Supplement,

Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

Note: The estimates in this illustration are rounded to at most four significant digits.

The standard error is calculated as

$$s_{x/y} = \frac{126,300}{59,980} \sqrt{\left(\frac{3,073}{126,300}\right)^2 + \left(\frac{1,161}{59,980}\right)^2} = 0.065$$

and the 90-percent confidence interval is calculated as $2.11 \pm 1.645 \times 0.065$.

Illustration 6

The report, *Health Insurance Coverage in the United States: 2025*, shows that there were 14,260,000 out of 337,900,000 people, or 4.2 percent, had Marketplace coverage. The margin of error for the number of people with Marketplace coverage is given in the report as 553,000. Divide the margin of error by 1.645 to get a standard error of 336,000. Since the denominator in this percentage is treated as a CPS ASEC population control, use Formula (6) to calculate the standard error of the percentage of people that did not have health insurance. Then find the confidence interval, as shown in Table 9.

Table 9. Illustration of Standard Errors of Estimated Population Control Percentages

Number of people with Marketplace coverage (x)	14,260,000
Total number of people (y)	337,900,000
Percentage of people with Marketplace coverage (x/y)	4.2
Standard error of x (s _x)	336,000
Standard error of x/y (s _{x/y})	0.1
90-percent confidence interval	4.1 to 4.4

Source: U.S. Census Bureau, Current Population Survey, 2026 Annual Social and Economic Supplement,

Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

Note: The estimates in this illustration are rounded to at most four significant digits.

The standard error is calculated as

$$s_{x/y} = \frac{336,000}{337,900,000} = 0.001 = 0.1\%$$

and the 90-percent confidence interval for the estimated percentage of people without health insurance is from 4.1 to 4.4 percent (i.e., $4.2 \pm 1.645 \times 0.1$).

Standard Errors of Data for Combined Years. Sometimes estimates for multiple years are combined to improve precision. For example, suppose $\bar{x}$ is an average derived from n consecutive years' data, i.e., $\bar{x} = \sum_{i=1}^n \frac{x_i}{n}$, where the x_i are the estimates for the individual

years. Use the formulas described previously to estimate the standard error, s_{x_i} , of each year's estimate. Then the standard error of $\bar{x}$ is

$$s_{\bar{x}} = \frac{s_x}{n} \quad (7)$$

where

$$s_x = \sqrt{\sum_{i=1}^n s_{x_i}^2 + 2r \sum_{i=1}^{n-1} s_{x_i} s_{x_{i+1}}} \quad (8)$$

and s_{x_i} are the standard errors of the estimates x_i . Tables 11 and 12 contain the correlation coefficients, r , for the correlation between consecutive years i and $i+1$. Correlation between nonconsecutive years is zero. The correlations were derived for income, poverty, and health insurance estimates, but they can be used for other types of estimates where the year-to-year correlation between identical households is high.

The Census Bureau recommends the use of 3-year average estimates for certain small population subgroups²⁸ (refer also to the "Accuracy of State Estimates" section). Two-year moving averages are recommended for these small population subgroups for comparisons across adjacent years.

Illustration 7

The report, *Poverty in the United States: 2025*, provides the percentages of families in poverty. The poverty rate for families with a female householder, no spouse present, for 2023, 2024, and 2025 were 21.8, 21.8, and 20.0 percent, and had bases of 15,180,000, 15,840,000, and 15,670,000, respectively. The 2023-2025 3-year average percentage of families with female householder, no spouse present, in poverty was 21.2 percent. Table 10 shows how to use the appropriate correlation coefficient from Table 12 and Formulas (7) and (8) to estimate the standard errors and confidence intervals.

Table 10. Illustration of Standard Errors of Data for Combined Years

²⁸ Estimates of characteristics of the Native Hawaiian and Other Pacific Islander (NHOPI) population based on a single-year sample would be unreliable due to the small size of the sample that can be drawn from either population. Accordingly, such estimates are based on multiyear averages.

	2023	2024	2025	2023-2025 Average
Percentage of families with female householder, no spouse present, in poverty (<i>p</i>)	21.8	21.8	20.0	21.2
Base (<i>y</i>)	15,180,000	15,840,000	15,670,000	
Correlation coefficient (<i>r</i>)				0.35
Standard error	0.67	0.55	0.61	0.42
90-percent confidence interval	20.7 to 22.9	20.9 to 22.7	19.0 to 21.0	20.5 to 21.9

Source: U.S. Census Bureau, Current Population Survey, 2024-2026 Annual Social and Economic Supplement, Project number: P-7534374, Disclosure Review Board approval number: CBDRB-FY26-0319.

Note: The estimates in this illustration are rounded to at most four significant digits. The standard errors and 90-percent confidence intervals for 2023 and 2024 are calculated using replicate weights and will therefore differ from GVF-based 2023 and 2024 estimates published in the 2024-2025 ASEC source and accuracy statements.

The standard error of the 3-year average is calculated as

$$s_{\bar{x}} = \frac{1.27}{3} = 0.42$$

where

$$s_x = \sqrt{0.67^2 + 0.55^2 + 0.61^2 + (2 \times 0.35 \times 0.67 \times 0.55) + (2 \times 0.35 \times 0.55 \times 0.61)} = 1.27$$

The 90-percent confidence interval for the 3-year average percentage of families with a female householder, no spouse present, in poverty is $21.2 \pm 1.645 \times 0.42$.

Correlation Coefficients for Standard Error Estimation. Tables 11, 12, and 13 contain correlation coefficients which can be used for *r* when appropriate in standard error estimations from Formulas (4), (5), and (8).

Table 11. Current Population Survey Year-to-Year Correlation Coefficients for Income and Health Insurance Characteristics: Data Years 1960 to 2025

Characteristics	1960-2000 (basic) or 2000 (expanded)-2025		1999 (basic)- 2000 (expanded)	
	People	Families	People	Families
Total	0.30	0.35	0.19	0.22
White	0.30	0.35	0.20	0.23
Black	0.30	0.35	0.15	0.18
Other	0.30	0.35	0.15	0.17
Hispanic ^A	0.45	0.55	0.36	0.28

364	Colombia	555	Elsewhere
365	Ecuador		
368	Guyana		
369	Paraguay		
370	Peru		

APPENDIX J

HISTORICAL FILE INFORMATION

Initial releases

A public use edition of the Current Population Survey, ASEC file, formerly known as the March file were originally available for 1976, 1978, and 1979. For 1980, 1984, and 1988 two files were available for each year. The first 1980 file contains estimates based on 1970 population counts and should be used for historical comparisons ending in 1980. The reweighted 1980 file contains estimates based on results of the 1980 census and should be used for comparisons between 1981 and 1984.

1980s

In 1984, the Bureau of the Census introduced a step into the second stage weighting procedure to control individual weights to independent estimates of the Hispanic population. Since this introduction caused a major disruption in the Hispanic estimates, two data files were created. The first file, without the Hispanic controls should be used for comparing estimates for years prior to 1984 and the second file should be used for comparison with 1985 and later files.

From March 1989 forward, March data are processed using the rewrite system. The rewrite system includes revised procedures to match supplement records to basic CPS records; revised weighting procedures; revised demographic and family edits; revised imputation procedures; and more income detail on the file.

For March 1988, there are two files: the regular Annual Demographic File and the Annual Demographic Rewrite File. The rewrite file has been prepared to allow historical comparison of data from the rewrite processing system implemented between 1988 and 1989. It is recommended that the rewrite file be used when comparing data collected from the March Annual Demographic Supplement from 1988 forward. Use the regular file, released in 1988, when comparing data from 1988 and prior years.

This is not to say, however, that comparisons cannot be made between years before and after 1988. When such analyses are done, for example between 1986 through 1989, data users must consider that similarities or differences between the data may be caused or effected by the rewritten system. Thus, comparing estimates from the 1988 rewrite files and the 1988 regular file will reveal the extent of any differences caused by the processing system changes though not the specific change. The magnitude of the difference can then be applied to the estimates from 1986 and 1989 to reveal whether any real differences exist. There were several revisions made to the processing programs; therefore, it is difficult to determine which specific revision effected the differences or similarities in the data.

Some non-March data also are available from 1994 to present. For information about the Current Population Survey and Supplement Surveys, be sure to visit our online CPS home page at <https://www.census.gov/programs-surveys/cps.html> where you can search our knowledge base and submit questions.

2010s

In 2014, the Current Population Survey Annual Social and Economic Supplement (CPS ASEC) included redesigned questions for income and health insurance coverage, followed by changes being phased in beginning in 2015 to allow spouses and unmarried partners to specifically identify as opposite- or same-sex. While data from the updated collection methods were released on schedule, data processing changes to take advantage of the new content were available starting with the 2019 file.

In 2019, a redesigned processing system for the ASEC supplement was implemented. This new processing system had updates concerning three topics, same-sex/opposite-sex families, income & poverty, and health insurance.

First, the relationship to householder measure (PERRP) divides spouse and unmarried categories into opposite-sex and same-sex groups (i.e., opposite-sex spouse/husband/wife, same-sex spouse/husband/wife, opposite-sex unmarried partner, and same-sex unmarried partner). Second, the parent identification variables have changed from respondents identifying a mother and father in the household (PELNMOM, PELNDAD) to identifying a parent and another parent (PEPAR1, PEPAR2). This allows easy reporting of children living with two mothers or two fathers.

For income and poverty, the updated processing system includes edits to take full advantage of the redesigned questionnaire. For example, several variables were added for defined-benefit pension income and defined-contribution withdrawals (such as from 401(k) plans) to replace the previous variables on retirement income. The imputation system was updated to make use of income ranges provided by some non-respondents as well as to increase the

number of characteristics used in the imputation models.

The updated processing system includes a number of changes to CPS ASEC health insurance data that better integrate detailed information from the 2014 questionnaire redesign. For example, the processing system introduces a new method of estimating coverage that builds from subannual estimates to determine whether a person was covered at any point in the previous calendar year. It also refines the methods by which missing and incomplete data are imputed and in which inconsistent information is handled. Finally, the file also includes additional information about types of coverage held at the time of survey and details about Marketplace coverage that were not previously available.

A more detailed explanation of these processing changes can be found in the blog “RESEARCH MATTERS: CPS ASEC Redesign and Processing Changes” at <https://www.census.gov/newsroom/blogs/research-matters/2019/09/cps-asec.html>

APPENDIX K

User Notes

This section will contain information relevant to the 2026 ASEC file that becomes available after the file is released.

1. For the 2026 ASEC Public Use File, the variables A_HRSPAY, A_GRSWK, A_HERNTF, and A_WERNTF will have the Not-in-Universe value of 0. This is due to a processing error when merging these variables with the Basic Monthly CPS. The error caused earnings information from one person in a household to be applied to others which resulted in erroneous or missing values. A correction could not be completed in time for the 2026 release, so all values have been systematically blanked.
